### **Research Grants and External Funding**

*Revolutionizing Child and Adolescent Mental Health Services: Bringing CFIT to Scale (Co-PI) (01/08–05/10)*: Funded by the Leon Lowenstein Foundation, this project is dedicated to the advancement of the CFIT software for widespread dissemination, the creation of a training CD with case studies that demonstrate the use of CFIT in clinical practice, and the development of an implementation tool-kit. This study relies on a mixed-method approach that includes semi-structured interviews with counselors and their supervisors, organizational case studies, quantitative profile analysis, interviews with the key change agents, and historical document review. (\$250,000)

*Clinical and Translational Science Award (CTSA) (10/07 - 09/12)* This major award (\$40M) from the National Center for Research Resources of the NIH will help create a Vanderbilt Institute for Clinical and Translational Research (VICTR) to provide support for faculty working to translate

fundamental scientific discoveries into clinical practice with the goal to measurably improve population health. Dr. Bickman will provide the project evaluation.

*Program Evaluation of Post Deployment Health Assessment and Reassessment Processes (Co-PI) (10/07-9/09)* Funded by the U.S. Department of Defense this contract is for an intensive one-year evaluation project that contributes to the goal of enhancing the post-deployment related continuum of care for returning soldiers with a focus on the clinical health risk appraisal tools and the overall health appraisal and referral process.(\$1M)

*Improving Principal Leadership through Feedback and Coaching (PI) (03/07-02/11)* Funded by the Institute of Education Services, this multi-phase randomized longitudinal study is based on mixed method research design. An intervention comprised of systematic and constructive feedback from teachers to principals and systematic coaching on how to use feedback information will be tested in the Metropolitan Nashville Public School System. The intervention is intended to improve leadership and demonstrate a causal connection between improved leadership and student achievement. (\$2.0M)

*Implementing Feedback Interventions to Improve Outcomes (PI) (08/04-04/10)* Funded by the National Institute of Mental Health, the study focuses on the effects of a theory-driven and empirically-based feedback intervention to influence the cognition and behavior of counselors who provide in-home mental health services to adolescents. A new battery of practical measures was developed as well as a training program on the common factors in psychotherapy. The intervention system is web based and is implemented by Qualifacts Inc. under a license from Vanderbilt University. The feedback system is being implemented by Providence Service Corporation in 40 different sites involving over 400 counselors and about 1000 youth. (\$3.4M)

*Using Baby Books to Promote Maternal & Child Health (PI) (04/05-01/10)* Funded by the National Institute of Child and Human Development, the project will provide an intervention, in the form of baby books, designed to educate and persuade mothers to follow the anticipatory guidance advocated by the American Academy of Pediatrics. The books are designed to educate mothers on child development and childhood injury prevention, promote reading and better health practices, and provide opportunities for high quality mother-child interactions. Primiparous women in their third trimester of pregnancy will be recruited for the study and retained until their child is 18 months old. (\$1.2m).

*Social and Character Development Research Grant (PI) (08/03-08/09)* Approximately 750 students in ten schools will be followed from grades 3 to 5 to examine the development of pro and anti-social behaviors and the effects of the implementation of a character education program on those developmental trajectories. Funded by the Institute of Education Sciences. (\$1.8M)

*Children's Mental Health Services Research Training (Years 1-15) (10/91-06/08)* National Institute of Mental Health sponsored interdisciplinary training program for pre- and post-doctoral fellows in the areas of psychology, policy and evaluation, psychiatry and pediatrics. (\$3.7M)

*The Clinical Informationist: Does the Model Work? (Co-PI) (06/03-09/06)* This project, funded by the National Library of Medicine, is an evaluation of the Clinical Informatics Consult Service (CICS) of the Eskin Biomedical Library at Vanderbilt. The CICS was designed to enhance the use of clinical evidence in physician practices at Vanderbilt Medical Center. In this program informationists are used as integral team members in critical care units and attend patient rounds with physicians. The CICS seeks to influence physician behavior through increased access to evidence and the provision of summaries of evidence for specific clinical questions. (\$625k with Nunzia Giuse)

*Improving Pediatricians' Use of AD/HD Guidelines (PI) (09/00-09/06)* This project, funded by NIMH, will: 1) describe diagnosis and treatment of AD/HD procedures of private practice pediatricians, 2) evaluate the implementation and impact of an intervention designed to enhance adoption of the AAP Guidelines; 3) assess the extent and predictors of adoption of the AAP Guidelines into practice; 4) compare the service use and outcomes of children 5) describe predictors of adherence/compliance to treatment; 6) follow children whose pediatricians found no ADHD; and 7) assess direct AD/HD costs: service use fees, medication cost and school investment; and indirect AD/HD costs such as maternal employment status. (\$1.8M)

*Evaluation of a Home-based Crises Intervention Program (PI) (09/03-08/04)* This project assessed the feasibility of implementing a feedback system in three Home-Based Crisis Intervention sites in New York City. (\$175k)

*Child Sexual Abuse: Evaluation of a Multimodal Treatment Programme (Co-PI) (01/99-12/04)* The aim of this project is to evaluate the effectiveness a six-month, multi-modal, goal-directed, algorithm-driven, abuse-specific treatment program for child and adolescent sexual abuse victims that is delivered by community-based clinicians. One sample of children will be randomly assigned to the program and another sample will receive parental counseling only. NHMRC funded AUS \$309,000, Queensland Government Department of Families funded (AUS \$97,000 with Barry Nurcombe).

*Improving Professionals' Job Performance through Feedback (PI) (06/02–05/03)* This project funded by the Learning Sciences Institute of Vanderbilt University was to refine a theory of feedback and conduct pilot studies. The theory hypothesizes that the reason for the uneven effect of feedback is that the researchers have not taken into account the professional's and the organization's goals, orientations, current feedback and other factors in designing the feedback. (\$50k)

*Survey of American Academy of Child and Adolescent Psychiatry Members (PI) (05/99-12/01)* A representative sample 3000 child and adolescent psychiatrists were surveyed on their attitudes, knowledge and beliefs about the Academy's practice parameters as a first step in designing, implementing and evaluating an intervention designed to influence practitioner behavior (\$12k)

*Evaluation and Analysis of Consumer Relations Marketing (PI) (10/99-04/02)* Assisted the J. C. Penney Company in evaluating their customer relations marketing strategies (\$750k).

*Outcome Measurement System (PI) (01/00-12/00)* Funded by The Casey Family Program to develop and test a battery of measures that can be used in foster care. The measures include: therapeutic alliance, functioning, symptom severity screener, satisfaction with life and satisfaction with services. (\$62k)

*The Development a Therapeutic Alliance Measure (PI) (06/99-08/03)* Funded by the Pressley Ridge Schools, this project is designed to develop a measure of therapeutic alliance for counselor in a camp for adjudicated juveniles and in a day treatment setting. (\$270K)

*Pilot Study on Primary Care Physicians' ADHD Diagnostic Practices (Co-PI) (05/99-06/01)* Described the practice of primary physicians in their initial assessment of children presenting with the chief complaint of school problems where ADHD is suspected. (\$20k, funded by Shire-Ridgewood, Inc. with Mark Wolraich)

*Evaluation of a Wraparound Demonstration Project (PI) (09/98-09/00)* An evaluation of a demonstration funded by the DOD to determine if individualized traditional and non-traditional mental health services for children and adolescents were more effective than usual care provided by managed care companies. (\$580k)

*Enhancing ADHD Rx Effectiveness in Pediatrics and Schools (Co-PI) (07/98-06/03)* This NIMH-funded study attempted to improve the effective diagnoses and treatment of children with ADHD by improving the communication and coordination between school and general medical professionals. (\$1.2M with Mark Wolraich)

*Measurement of Consumer Outcomes in Child and Adolescent Mental Health (CoPI) (02/98-09/98)* This project designed an ideal measurement system based on a review of the literature, focus groups and interviews of stakeholders. The final report made recommendations to the Commonwealth government of Australia about the type and content of measures to be used for assessing mental health services for youth in real world settings (\$A 900k with Barry Nurcombe, M.D.)

*Fort Bragg Evaluation Follow-on Project (PI) (07/95-12/00)* Funded by the Department of the Army, Surgeon General's Office, to conduct a series of secondary analyses of Fort Bragg data and to conduct new studies on the implementation of a managed care contract and the relationship between treatment length and outcomes. (\$1.3M)

*Multi-site Study of Mental Health Service Use, Need, Outcomes, and Costs in Child and Adolescent Populations (UNOCCAP) (Co-PI) (10/94-09/97)* Funded by the National Institute of Mental Health to develop and pilot test the first national household survey of children and adolescents to determine the degree of need and use of mental health services. (\$2.1M with Ben Lahey)

*Fort Bragg Longitudinal Evaluation (PI) (07/94-12/00)* Funded by the National Institute of Mental Health to study the psycho-social functioning and service utilization of children and adolescents who received mental health services as they aged into young adulthood. (\$1M)

*Evaluating an Innovative Children's Mental Health Service System (PI) (07/92-12/98)* Funded by the National Institute of Mental Health to execute a longitudinal, randomized experiment to study the mental health outcomes for children and adolescents receiving services in a comprehensive community mental health system. (\$2M)

*The Impact of a Disaster on Mental Health (PI) (07/92-07/93)* Funded by the Exxon Corporation to study the impact of the Exxon Valdez oil spill on mental health. (\$56k)

*Evaluation of the Fort Bragg Children's Mental Health Demonstration Project (PI) (10/89-10/94)* Funded by the State of North Carolina, through the Department of the Army, evaluated the long-term cost effectiveness of an integrated system of mental health services for children and adolescents. (\$4.7M)

*Assessing Treatment Effectiveness and Family Empowerment (PI) (10/89-09/94)* Project funded by the National Institute of Mental Health to enhance the Fort Bragg Demonstration Evaluation by providing funds for an experiment in family empowerment, validation of a measure functional level, and for extension of follow-up period. (\$3.1M)

*Rapid Early Intervention with Mentally Impaired SSI/SSDI Applicants Co-(PI) (10/88-10/90)* Project provided mentally impaired applicants for SSI/SSDI with comprehensive job placement services. Funded by the Social Security Administration. (\$850k with Sam Opaku)

- Cumberland Science Museum (PI)* (1988-89) Evaluation of health science education and exhibits. (\$2k)
- Medical Education in Alcoholism and Drug Abuse (Co-PI)* (1987-89) Funded by the National Institute of Alcohol Abuse and Alcoholism, developed, implemented, and evaluated an integrated model program and curriculum in alcohol and drug abuse for primary care physician education. (\$111k with Andy Spikard)
- Studies on the Psychological Effects of Holocaust Museums (PI)* (1986-89) Funded by the Society for the Psychological Study of Social Issues Grant-In-Aid Program, refined and pilot tested instruments on visitors to the Yad Vashem Memorial in Israel. (\$1k) (1988-89) Funded by the Vanderbilt University Research Council which examined the psychological effects of Yad Vashem on visitors. (\$5k)
- Mental Health Help Seeking Following A Natural Disaster (PI)* (1983-87) This research program studied the determinants of seeking mental health help following a disaster. The research was funded by the Natural Hazards and Applications Information Center (\$3k), a University Research Grant (\$4k), and a grant from the National Institute of Mental Health. (\$725k)
- Incentives for Educational Improvement Co-PI* (1982-87) Co-director of project studied the impact of financial incentives on student achievement in a randomized experiment with 100 schools. Funded by the Tennessee State Office of Education and the Lyndhurst Foundation. (\$900k with John Folger)
- Teacher Incentives and Evaluation (PI)* (1985-86) Developed and analyzed questionnaires administered to teachers in a large school system, dealing with teacher evaluation and performance-based pay, from a distributive justice perspective. (\$25k)
- Determinants of Faculty Research Productivity (PI)* (1984-86) Funded by Peabody College, studied the factors that affected research productivity and developed a plan to improve productivity. (\$25k)
- Statewide Preschool Analysis Project (PI)* (1983-86) Developed and applied a new evaluation methodology jointly sponsored by the Departments of Health, Education, Human Services, Mental Health & Retardation, and Children's Services Commission to: (a) identified components of state funded preschool programs; (b) assessed quality of components; (c) determined relative effectiveness of components; and (d) designed component models. (\$170k)
- Alumni Attitudes and Behavior (PI)* (1984-85) Representative sample of 500 Peabody Alumni studied to determine attitudes toward participation, merger, and donation. Developed commitment scale that highly predicts alumni donating behavior. (\$20k)
- Evaluability Assessment of Early Childhood Programs (PI)* (1982-83) Conducted evaluability study of preschool programs designed to prevent/treat mental retardation. The study involved the collection of parent satisfaction data and the analysis of seven programs. Funded by the Tennessee Children's Service Commission. (\$10k)
- Care Linkage Project (PI)* (1982-83) Developed evaluation plan and data collection instruments for interagency collaboration program to be implemented by the State of Tennessee. (\$2k)
- Evaluation Planning for Handicapped Children Programs (PI)* (1982-83) Conducted with the Tennessee Children's Service Commission, this project involved a statewide stakeholder assessment of persons concerned with programs serving children from birth to four. (\$2k)

*Statewide Alcohol and Drug Incidence and Prevalence Survey (PI)* (1981-82) Funded by the State of Tennessee Department of Mental Health and Mental Retardation, conducted in-person interviews of over 1000 randomly selected respondents. (\$77k)

*Evaluation of Stress Management Initiative (PI)* (1981) Funded by Westinghouse corporate headquarters to develop an evaluation plan and measurement instruments to assess stress management programs.

*Career Development Evaluation (PI)* (1981) Developed evaluation plan and needs assessment survey for new Westinghouse corporate program in career development.

*Identification of Variables Associated with Maintenance of Nonsmoking in Ex-Smokers(PI)* (1980-81) Funded by the National Heart, Lung, and Blood Institute (NHLBI), this project sought to identify, in a predictive fashion, the factors responsible for the maintenance of nonsmoking among ex-smokers. (\$203k)

*Retail Crime Prevention (PI)* (1980-81) Development and implementation of a needs assessment interview utilized with retailers in Evanston, Illinois. (\$12k)

*School Size Study (PI)* (1979-81) Funded by the National Institute of Education to assess effects of enrollment size in a variety of school processes and outcome measures. (\$210k)

*Nutrition Education for the Elderly (PI)* (1979-81) Funded by the Center for Disease Control, managed evaluation component of a training program for elderly persons to provide peer counseling in nutrition education. (\$225k)

*Evaluation of a Comprehensive Health Education Program (PI)* (1979-80) An evaluation of an innovative health education program, funded by NHLBI, that was designed to reduce heart attack risk factors among elementary school children. (\$250k)

*Shoplifting and Employee Theft: A National Evaluation (PI)* (1979-80) Funded by the National Institute of Law Enforcement and Criminal Justice, conducted a national evaluation of programs designed to combat shoplifting and employee theft. (\$250k)

*Integrated Criminal Apprehension Program (PI)* (1979-80) Managed evaluation component that consisted of designing and implementing process evaluation, technical evaluation assistance, and developing a monitoring instrument and site visits for over 50 police departments. Funded by the National Institute of Law Enforcement and Criminal Justice (NILECJ). (\$400k)

*Evaluation of Captioned Television for the Deaf (PI)* (1977-79) This project involved the evaluation of television captioning projects for the deaf for the Bureau of Education for the Handicapped. (\$150k)

*Crime Prevention Through Environmental Design (PI)* (1976-78) Managed evaluation component of a project concerned with the evaluation of crime reduction techniques through alteration of the physical and social environment. Funded by NILECJ. (\$900k)

*A Behavioral Analysis of the Life Safety Code (PI)* (1978-79) This project provided an analysis of the code designed to protect lives through the proper design of the built environment. Funded by the National Bureau of Standards. (\$30k)

*Evaluation Planning and Training for Fire Safety in Health Care Facilities (PI)* (1976-78) This project, supported by a grant from the National Bureau of Standards, involved studying behavioral responses to fires in health care facilities. (\$25k)

*Citizen Crime Reporting Program: Phase I Evaluation (PI)* (1975-76) This large-scale field study, supported by the NILECJ, was designed to evaluate approximately 50 programs across the nation whose aims were to increase citizen involvement in anti-crime programs. (\$125k)

*Formative Evaluation of Victim Assistance Program (PI)* (1975) This project was developed to provide feedback to the Cook County State's Attorney, concerning the operation of a newly implemented Victim/Witness Assistance Program. (\$5k)

*Witnessing and Reporting of Crimes (PI)* (1972-76) Funded by the National Science Foundation, this was a four-year basic research grant to study the conditions under which bystanders would report a crime to the proper authorities. (\$90k)
