## **ELEMENTARY EDUCATION MAJOR**

(offered by the Department of Teaching and Learning)

### **Elementary Endorsement (K-6)**

The elementary education program is designed to prepare students for work with children in grades K-6. Beginning in the freshman year students observe and participate in a variety of educational activities in local schools, public agencies, and experimental schools on campus.

All elementary education majors must complete Liberal Education Core requirements, Professional Core requirements (foundations courses, pedagogical courses, and field experiences), and a non-education major. The non-education major can be any major within Peabody College or the College of Arts & Science. Students choosing a second major in Special Education will receive dual endorsements in Elementary Education (K-6) and Special Education. Programs of studies detailing a variety of options may be found at the end of this section.

State licensure regulations which govern elementary programs require Liberal Education Core courses beyond the 44 semester hours specified for a Peabody degree. Thus the program of studies for an elementary education major (K-6) will contain a minimum of 60 hours of Liberal Education Core courses instead of 44.

Although degree requirements for the various Peabody majors are outlined in the *Undergraduate Catalog*, students find it useful to have these requirements organized in worksheet form so they may keep track of their progress. A program of studies worksheet is provided at the end of this section. A suggested schedule plan is also included to provide an overview of the program and is not necessarily the only way courses can be selected. It is important, however, to schedule courses so that all prerequisites are met prior to student teaching.

As with other teacher licensure majors, students in elementary education must have a second major in another field of study. Students may choose either an interdisciplinary or a single discipline major from the following:

#### Interdisciplinary Majors

- Child Studies
- Math/Science Studies
- Natural Science Studies
- Social Studies

#### Single Discipline (From Peabody College)

- Child Development
- Cognitive Studies
- Human and Organizational Development
- Special Education

Single Discipline (From the College of Arts & Science) such as the following:

Anthropology	German
Art & Art History	History
Biological Sciences	Mathematics
Chemistry	Physics
Economics	Political Science
English	Psychology
French	Sociology
Geology	Spanish

A description and listing of required courses for each of the Peabody Majors are found later in this manual. College of Arts and Science major requirements are listed in the Undergraduate Bulletin.

Note: Vanderbilt students seeking Tennessee teacher licensure must apply for licensure through the Vanderbilt Office of Teacher Licensure and **must meet licensure requirements in effect at the time of their graduation** – which may be different from those in effect at the time they entered Vanderbilt. Requirements are currently undergoing change. Teacher licensure candidates are urged to consult the current Vanderbilt *Undergraduate Catalog* and/or materials published by the Vanderbilt Office of Teacher Licensure each year to keep abreast of possible changes in Tennessee requirements. Students should be aware that the requirements may change after publications of the Handbook and should be alert to notices or reminders sent from advisors or from the Office of Teacher Licensure.

**WARNING: Because this specialization requires more than the 120 hours to graduate and be licensed, students must begin their second major their freshman year. Students need to plan to take more than the normal 15 hours each semester and/or plan to attend summer school in order to graduate within four years.**

### **Psychology 1630 Required (3 hours)**

## **Liberal Core Elective (15 hours)**

Any non-education course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

## **The Writing Requirement**

All Peabody College freshman who have not earned SAT II Writing scores at or above 560, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 100. Regardless of AP or IB credits, all freshman must successfully complete one writing-intensive course at the 100 level before their fourth semester. Writing intensive courses have a "W" after the course number. In addition, before graduation all students must successfully complete a second writing-intensive course at the 100 or 200 level. Secondary Education majors can substitute an oral communications course for the second writing course to facilitate meeting licensure requirements.

### **Writing Intensive Courses (6 hours):**

Communication Studies 100, 101  
English 102W, 105W, 106W, 112W, 118W, 120W  
Engineering Science 210W  
Honors 181W  
Humanities 105W, 106W, 107W, 108W  
Philosophy 100W  
Religious Studies 110W  
Theatre 100

**Note:** First Year Seminars (courses labeled 115F) offered through the College of Arts and Science may count as writing intensive courses. Peabody Freshmen may only register for A&S First Year Seminars during the first week of the fall and spring semesters if the courses are open.
