SECONDARY EDUCATION MAJOR

(Offered by the Department of Teaching and Learning)

Secondary Endorsement (7 - 12)

The major in secondary education is designed to prepare students to teach one or more subjects at the secondary school level (grades 7 – 12). Students must complete Liberal Education Core requirements, the Secondary Education Major, and an Arts & Science major in at least one endorsement field, which involves 27 – 36 hours of coursework in the discipline. Students may wish to add an additional endorsement. Students are required to complete the appropriate methods of teaching course for each area of endorsement.

Undergraduate students applying for admission into the teacher education program (Screening I) and into student teaching (Screening II) for secondary licensure must be approved by the faculty in the Department of Teaching and Learning **and** by the faculties of each Arts & Science department in which the student majors. Students are instructed to consult an advisor or the Director of Undergraduate Studies in each Arts & Science department involved in order to be informed of departmental policy on approving students for teacher licensure.

Although degree and licensure requirements for the secondary education major are outlined in the *Undergraduate Catalog*, students find it useful to have these requirements organized in worksheet form so they may keep track of their progress. A general program of studies worksheet is provided in this section, and the Liberal Education Core and Professional Core requirements for the secondary education major are outlined on it. Specific licensure requirements for the various majors follow as one-page listings for each major appropriate for Secondary Education with licensure. . **Majors in economics, sociology, and psychology who are seeking licensure in Secondary Education are required to have an added endorsement in history**

Note: Vanderbilt students seeking Tennessee teacher licensure must apply for licensure through the Vanderbilt Office of Teacher Licensure and **must meet licensure requirements in effect at the time of their graduation** – which may be different from those in effect at the time they entered Vanderbilt.

Requirements are currently undergoing change. Teacher licensure candidates are urged to consult the current Vanderbilt *Undergraduate Catalog* and/or materials published by the Vanderbilt Office of Teacher Licensure each year to keep abreast of possible changes in Tennessee requirements. Students should be aware that the requirements may change after publications of the Handbook and should be alert to notices or reminders sent from advisors or from the Office of Teacher Licensure.

The Writing Requirement

All Peabody College freshman who have not earned SAT II Writing scores at or above 560, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 100. Regardless of AP or IB credits, all freshman must successfully complete one writing-intensive course at the 100 level before their fourth semester. Writing intensive courses have a "W" after the course number. In addition, before graduation all students must successfully complete a second writing-intensive course at the 100 or 200 level. Secondary Education majors can substitute an oral communications course for the second writing course to facilitate meeting licensure requirements.

Writing Intensive Courses (6 hours):

Communication Studies 100, 101
English 102W, 105W, 106W, 112W, 118W, 120W
Engineering Science 210W
Honors
181W
Humanities 105W, 106W, 107W, 108W
Philosophy 100W
Religious Studies 110W
Theatre 100

Note: First Year Seminars (courses labeled 115F) offered through the College of Arts and Science may count as writing intensive courses. Peabody Freshmen may only register for A&S First Year Seminars during the first week of the fall and spring semesters if the courses are open.
