As part of the second-largest barrier reef system in the world (only Australia’s Great Barrier Reef is bigger), the Belize Barrier Reef is an incredibly diverse marine ecosystem stretching for more than 180 miles off the coast of Belize. Designated a UNESCO World Heritage Site, the reef is an ideal place for fishing, snorkeling, scuba diving, kayaking, and sailing.

Stephen Whyte, of Belize, is the principal of St. John’s Memorial Anglican School, a primary school. During his Humphrey year, Mr. Whyte plans to target teacher training and development while simultaneously advanced practices into the school curriculum to ensure his students’ academic success.
