India is home to 1,652 dialects and languages, which is more than any other country in the world.

Manabendra Sanyal, of India, is the Senior Manager of the Thermax Foundation, the Corporate Social Responsibility department of the engineering company, Thermax Limited. During his Humphrey year, Mr. Sanyal plans to explore how to strengthen relationships between the government, NGO partners, and schools. In addition to endeavoring to create symbiotic relationships in the educational sector, Mr. Sanyal hopes to augment the current knowledge of India’s teachers through targeted training and development.
