Peabody Undergraduate Handbook
Class of 2022
Welcome to Peabody! This is your guidebook designed to lead you to successful completion of your major at Peabody College. Over the next four years, you will find it to be a ready source of information on your major requirements, policies and procedures, and offices to contact with your questions as you make your way toward the Bachelor of Science degree in May 2022.

You will be expected to keep this handbook for four years and to access it at each advising appointment with your faculty adviser. Each semester, you should update your program of studies checklist in the handbook noting the courses that you are taking to fulfill both Liberal Education Core and Major requirements. Keeping the program of studies checklist updated and checking your online degree audit will let you and your adviser know what is remaining in your degree program. Always go to advising sessions prepared with the list of courses that you plan to undertake for the upcoming semester.

The Peabody academic policies and procedures may not be the same as other Vanderbilt undergraduate schools. You should be familiar with the Peabody policies contained in this handbook regarding class-standing, probation/dismissal, transfer of credit, pass/fail, registration for independent study courses, and others.

If you have questions concerning information in this handbook always consult your academic adviser first. If your adviser is unavailable to help you, contact your department's Director of Undergraduate Studies. Finally, if you still need assistance or are uncertain of where to find an answer, contact the Office of Student Affairs (615-343-6947) or the Office of Academic Services (615-322-8400).

PEABODY COLLEGE ACADEMIC CALENDAR 2018-2019

All undergraduates abide by the same university and academic calendar. You can find all dates and deadlines online:  
PEABODY ADMINISTRATIVE OFFICES

Peabody Office of Academic Services

The Office of Academic Services (OAS) is responsible for maintaining academic records of Peabody students from matriculation to graduation. This office prepares the Peabody undergraduate handbooks and the schedule of courses for each semester. It is also responsible for the maintenance of the online degree audits for all Peabody undergraduate majors and minors.

The OAS processes all academic record entries and changes such as adviser, grades, major, minor, track, and transfer of credit. This office also reviews students' academic programs at time of degree completion. The OAS will send important notices to your Vanderbilt email address. Students are expected to check their Vanderbilt email account daily.

211 Peabody Administration Building / (615) 322-8400
All forms are available at the Peabody Office of Academic Services office and online at http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php.

Peabody Office of Student Affairs

The Office of Student Affairs serves Peabody’s students by advocating for, facilitating, and supporting their academic success and personal development. It also assists students in navigating the university’s programs, policies, services, and resources. The office is focused on promoting student accountability and problem solving as well as on supporting their educational and personal goals. In its work with students, the office also assists faculty and families when appropriate.

The Office of Student Affairs works closely with other campus offices to ensure that students are able to make connections and contacts that will enrich and improve their educational experience. This office also sponsors the Peabody Council, Peabody’s arm of the university’s student government, as well as the Peabody Academic Leaders (PALs) who serve to support Peabody programs and events. Students are welcome in the office at any time to discuss their Vanderbilt experience and to take advantage of services available.

Peabody Office of Teacher Licensure

The Office of Teacher Licensure monitors progress toward teacher licensure for Vanderbilt students, including admission to teacher education (Screening I), admission to student teaching (Screening II), student teaching, and final recommendations for licensure in Tennessee and other states. It also facilitates and tracks PRAXIS testing.
Peabody Departmental and Program Offices

The five Peabody departments are Human and Organizational Development, Leadership, Policy and Organizations, Psychology and Human Development, Special Education, and Teaching and Learning. The departments administer the nine Peabody undergraduate majors.

Each department has a Director of Undergraduate Studies who is responsible for updating programmatic requirements, assigning academic advisers, meeting with students when advisers are not available, monitoring the progress of students in their program and sitting on the Peabody Undergraduate Administrative Committee (UAC).

The Undergraduate Administrative Committee is a faculty committee that reviews academic actions, academic honors, petitions for policy exceptions, and requests for readmission.

The Office of the University Registrar maintains academic records for all current and former Vanderbilt students. See the links below for services and information supplied by the Registrar’s Office. The Office of the University Registrar is distinctly different from the Peabody Office of Academic Services and typically handles records and registration questions and policies applicable at the university-wide level.

Vanderbilt University is committed to the protection and confidentiality of student education records, adhering closely to the guidelines established by the Family Educational Rights and Privacy Act (FERPA).

Advanced Placement & International Baccalaureate Test Score Credit

Students are responsible for having official copies of all entrance test scores submitted before their first semester of attendance. To submit official test scores, request that the testing agency (College Board, etc) send the scores directly to Vanderbilt. Students should be able to do this online. Scores take approximately 3-4 weeks to arrive to Vanderbilt and be applied to one’s record.

See the Undergraduate Catalog for a list of Vanderbilt course credit to be awarded for the certain test scores.

http://vanderbilt.edu/catalogs/undergraduate/

No more than eight hours of AP credit are allowed in any one subject area, however Peabody does not limit the overall number of AP/IB hours that can be awarded.

The Undergraduate Catalog will always supersede the college handbook in terms of policy or description of credit that may be awarded.

Unless otherwise specified in this handbook, AP/IB credit will satisfy Peabody liberal core requirements. An example of where it will not is the writing requirement. ENGL 1220W, 1230W, and 1300W earned by AP credit will NOT satisfy the Writing requirement but could satisfy communications or humanities in most Peabody programs. Please see the Liberal Core for your major for a full listing of courses.

No IB credit granted for Standard level courses.
SELECTING AN APPROPRIATE MATH COURSE

The Department of Mathematics offers a calculus survey course, two standard calculus sequences, and a sequence in multivariable calculus and linear algebra for especially well prepared students.

While you may be eligible to enroll in a higher level of calculus based on test scores, it does not mean it is appropriate for you to do so. Students should consult with their instructors and their advisers for assistance as early as possible regarding course selection and if they are struggling with a particular course.

The Department of Mathematics strongly recommends that students enter a calculus sequence at the beginning (Math 1200 or 1300) unless they have appropriate AP or transfer credit. There will be a two-week period at the beginning of the fall semester when students can change from one level of calculus to another. Students should consult with the Director of Undergraduate Studies in the Math department during this period.

Placement and AP Credit
See detailed course descriptions for the Math department's courses by searching for them in the YES class search online.

For more information on placement, visit: http://as.vanderbilt.edu/math/undergraduate/calculus-preparation-and-placement/

Math 1005 does not satisfy the math requirement for the Peabody liberal core. You should only take this class if you plan to take the Math 1200/1201 or 1300/1301 sequence.

A student who achieves a score of 5 on the Calculus BC AP exam is eligible to enroll in Math 2500, 2501.

Duplicate Credit Policies
Deduction of credit caused by duplication proceeds as follows: If you have earned Math credit

1. through Advanced Placement/International Baccalaureate in one sequence and complete a course at Vanderbilt in the other sequence that duplicates this credit, you will lose credit from your Advanced Placement/International Baccalaureate earnings.

ex: if you have earned 1300 (4 cr.) through AP and complete 1201 (3 cr.) at VU, 2 credits will be removed from 1300 leaving 2 credits.

2. by transfer in one sequence and complete a course at Vanderbilt from another sequence that duplicates this credit, you will lose credit from your Vanderbilt course.

ex: If you have earned 1300 (4 cr.) through transfer credit and complete 1201 (3 cr.) at VU, 2 credits will be removed from 1201 leaving 1 credit.

3. at Vanderbilt in one sequence and complete a course at Vanderbilt from another sequence that duplicates this credit, you will lose credit from the second Vanderbilt course.

ex: If you have completed 1300 (4 cr.) in the Spring and complete 1201 (3 cr.) in the Fall, 2 credits will be removed from 1201 leaving 1 credit.

For further information, contact the Calculus Coordinator for the Department of Mathematics, Dr. Jakayla Robbins, jakayla.robbins@Vanderbilt.Edu, or the Director of Undergraduate Studies in the Math Department.
Math Duplication Possibilities Table

As a tool to help you quickly calculate any math credit duplication, the Math Duplication Possibilities table below shows all the possible overlap scenarios between the calculus sequences (plus Math 140). Each line lists a course that was earned, a second course taken that duplicates credit with the first, and the amount of credit that is lost (see Duplicate Credit Policies to understand which earned credits would be affected).

TESTING AND PLACEMENT AT A GLANCE

Writing:
Students must take English 1100 if they do not present one of the following:

- AP/IB credit for English 1230W and ENGL 1220W or ENGL 1300W.
- SAT
  - Reading score of at least 27
  - Writing and Language score of at least 28
  - Evidence-Based Reading and Writing score of at least 660
- ACT minimum English score of 27 and a minimum writing score of 7.

Foreign Languages:
Use your SAT Subject test score or Department test score (if they offer a language placement test) to find the most appropriate course for you. Questions about language placement should be directed to the individual department rather than your academic adviser. – Note that language courses numbered 1101 will not satisfy the Humanities requirement within the Liberal Education Core.

GENERAL ACADEMIC INFORMATION

ACADEMIC ADVISING

Academic advisers are faculty members within the five departments. Peabody students are assigned an academic major adviser when they arrive for their first semester. This adviser is knowledgeable about the courses needed to complete one’s major. The adviser helps in schedule planning, makes suggestions as to which courses would be most suitable, and serves as a mentor to the student.

Students are required to meet with their academic adviser during fall and spring pre-registration periods to assist in selecting a program of courses that fulfill degree requirements. Advisers also are available during the semester to discuss subjects of a non-academic nature. Students are encouraged to make appointments to meet with their advisers and to establish a good adviser/advisee relationship from the beginning of their undergraduate program.

ADVANCED PLACEMENT

The well-established advanced placement policy endeavors to recognize exceptional high school preparation, to avoid requiring freshmen to take courses clearly mastered in high school, and to encourage students to begin their college learning experience at the level most appropriate to their preparation. Advanced placement may be decided on the basis of good performance on the College Board Advanced Placement Examination (AP), on the College Board SAT Subject Tests, on the International Baccalaureate tests (IB), or, in some cases, placement tests given by Vanderbilt. Appropriate documentation should be submitted to the Office of Undergraduate Admissions before matriculation at Vanderbilt.

CREDIT FOR PREVIOUS COLLEGE WORK (Pre-Freshmen Credit)

Entering freshmen who have taken pre-freshmen college work during their junior or senior year in high school or during summers prior to their offer of admission to Vanderbilt must report such work to the University Registrar’s Office (110 Baker Building; external.education@vanderbilt.edu). In addition please have each institution from which you want to receive pre-freshmen credit verify that they meet the University’s requirements for transfer credit using the Transfer Credit Institution Verification Form.

Credit will be awarded only if:
1) the course is regularly offered by an accredited two-year or four-year college or university,
2) if the teacher was a regular faculty member of that institution,
3) and if a majority of the students in the course were candidates for a degree at that institution.

Credit is also not generally awarded if the course received both high school and college credit. If your class falls under that criterion, please speak to the Office of Academic Services about your situation.

Appropriate documentation, including course descriptions and syllabi must be submitted to the University Registrar’s Office (110 Baker Building; external.education@vanderbilt.edu) for evaluation and approval by the appropriate Vanderbilt departments.

The question of credit for previous college work must be settled in advance of the student’s first semester of classes.
Peabody College usually does not award credit for work at other colleges in the summer immediately preceding the student’s first semester at Vanderbilt. Summer work elsewhere will be accepted for credit only if an unusual educational opportunity can be demonstrated and if the courses sought are as rigorous as courses offered at Vanderbilt. Approval for work to be taken elsewhere immediately preceding the student’s first semester must be obtained in advance from the appropriate Peabody dean.

SECURITY CLEARANCE REQUIREMENT

As of the start of Fall 2017, all students matriculating into Peabody College must have security clearance. In addition, all students from any Vanderbilt school must have security clearance if they take any Peabody course involving interaction with minors or other vulnerable populations, or if they engage in Peabody research or Peabody programs/related activities that require security clearance. Obtaining this security clearance involves being fingerprinted through an external agency for a criminal background check by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation. Students are responsible for paying the fees for this process. Students must complete the fingerprinting that starts the clearance process no later than the end of the first two weeks of the semester in which the fingerprinting becomes required. Detailed instructions for completing the security clearance process can be found on the Peabody Background Clearance Office website: http://peabody.vanderbilt.edu/admin-offices/bco/index.php. Vanderbilt students may not participate in any Peabody College-related activities involving PreK-12 students or vulnerable adults until their background clearance is finalized at Peabody.

CLASS ATTENDANCE

Students are expected to attend all scheduled meetings of classes in which they are enrolled; they have an obligation to contribute by full participation in the work of each class. At the beginning of the semester, instructors explain the policy regarding absences, and thereafter they report to the Dean of the College the name of any student whose achievement in a course is being adversely affected by excessive absences. In such cases, the Dean, in consultation with the instructor, takes appropriate action, which may include dropping the student from the class. Students dropped after the deadline for withdrawal receive the grade of F. Class attendance may be specified as a factor in determining the final grade in a course, and it cannot fail to influence the grade even when it is not considered explicitly.

CONSENT TO RELEASE ACADEMIC INFORMATION

Vanderbilt University is subject to the provisions of the Family Educational Rights and Privacy Act (Buckley Amendment) that affords to students certain rights of access to educational records and imposes obligations on the University in the release and disclosure of those records to third parties. The Buckley Amendment regulations, however, allow the University to provide academic progress reports and other academic information to parents of students if the student is a dependent of the parents for federal income tax purposes. In order to confirm the University’s records and to administer the appropriate release of this information to parents, each new student completes a form to verify if the student is a dependent.

COURSE LOAD

During the fall and spring semesters, a student must take at least 12 hours of course work to qualify as a full-time undergraduate student.

Students wishing to carry more than 18 hours must obtain the approval of the Dean of Peabody Student Affairs Office. All undergraduate students are assumed to be full time students for the
purpose of administering probation and retention policies. There is an extra tuition charge for credits above 18 hours.

A student who for health, family, or outside employment wishes to enroll in Peabody as a part-time student must obtain permission from the Dean of Peabody Student Affairs Office. The academic standing of such students will be considered on an individual basis. Normally, however, a student earning less than 12 hours will be either placed on academic probation or issued an academic warning.

The one exception to this policy is that Seniors who have fewer than 12 hours required for completion of their degree, beyond the hours associated with the HOD internship or student teaching if they are to be taken in their final semester, can take fewer than 12 hours in one of their last 2 semesters (whichever one the Internship or student teaching is not being taken) without penalty or special permission.

**DECLARATION OF MAJOR**

Peabody students choose a major at the time they apply to Vanderbilt and are assigned to the appropriate department for the purpose of advising and program planning. Students are assigned an adviser in their major prior to the first semester at Peabody. **All Peabody first-year students enter with their primary major already declared.**

In their first semester, first-years are expected to take the coursework recommended for the major into which they were admitted. Students wishing to change into a different major cannot declare this change until March of their first year. The form needed to change your major can be found here: [https://peabody.vanderbilt.edu/admin-offices/oas/downloads.php](https://peabody.vanderbilt.edu/admin-offices/oas/downloads.php).

If you wish to change your first major to one in A&S, Blair, or Engineering, you will need to apply to that college as an Intra-University Transfer - [http://registrar.vanderbilt.edu/intra-university-transfers/](http://registrar.vanderbilt.edu/intra-university-transfers/). Peabody students must be in Peabody for two semesters before they may transfer to another Vanderbilt school. They may turn in the application to transfer to another college at any time, but the earliest that one’s application will be processed is at the end of April. Visit the IUT website for exact application due dates for each semester.

**DECLARATION OF SECOND MAJOR/MINOR**

Students wishing to declare a second or third major/minor through Peabody College may find the form online at [http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php](http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php). Students may declare a second major/minor at any point in time. Students wishing to declare a second or third major/minor through another Vanderbilt college must fill out a [Declaration of Major/Minor form](http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php), go to the applicable department, receive an adviser assignment, have the advisor sign the form, and **return the completed form to the Peabody Office of Academic Services (not 350 Buttrick), room 211 of the Peabody Administration Building.**

Students pursuing multiple majors and/or optional minors are limited in the amount of coursework that can be shared across their major and minor programs of study. If the major or minor is offered through a school other than Peabody, the amount of coursework that can be shared between the that major or minor and other majors or minors is determined by that school’s policies.

For a major offered through Peabody College, at least 21 credit hours need to be unique to that major. That is, 21 hours within the major cannot be used to count toward any other major or minor.

For a minor offered through Peabody College, at least 15 hours need to be unique to that minor.
LIBERAL EDUCATION CORE
All Peabody undergraduates complete the requirements of the Liberal Education Core program. This Liberal Education Core component is intended to provide students with a solid foundation in the arts and sciences. Courses identified to fulfill the Liberal Education Core requirement for each Peabody undergraduate major are listed in the current program descriptions in this Handbook and The Bulletin.

Courses used to satisfy these core requirements may also be counted toward the fulfillment of requirements for an academic major. Special topic courses are ordinarily not acceptable for meeting Liberal Education requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable for meeting the requirements for the Liberal Education Core. Students enrolled in Peabody College are expected to satisfy most Liberal Education Core requirements during the freshman and sophomore years. Although legitimate circumstances sometimes force the postponement of Liberal Education requirements, upper-level students are not expected to have a significant number of these requirements outstanding.

MAY SESSION
In the interval of several weeks between final examinations in the spring semester and the beginning of summer sessions, Vanderbilt offers educational travel opportunities and a variety of intensive courses that would be difficult to offer during a regular semester.

Students are permitted to take no more than one course during the May session. Housing and food services are available during the session.

SUMMER COURSES AT VANDERBILT
The ten-week summer session begins in early June and ends in early August. Peabody undergraduate courses offered during the Vanderbilt summer sessions are not intended to be comprehensive nor are they predictable. Peabody students are most likely to take basic Liberal Education Core courses. For students who plan to attend summer sessions, the best strategy for predicting the courses that will be offered in a given summer is to look at the previous summer’s offerings.

Students who do not advance in class standing at the end of the spring semester will be required to attend Vanderbilt summer school to make up the hours and/ or grade point average deficiencies.
ACADEMIC POLICIES

ACADEMIC PROBATION AND DISMISSAL
Peabody requires each student to maintain an academic record that will permit graduation according to a specified schedule. After achieving sophomore standing, the student may not be on academic probation for more than two semesters. The student whose academic record warrants a third semester of probation normally will be dismissed from the University. Students will be placed on academic probation, or may receive an academic warning, if any of the following conditions applies:

Freshmen:
1. The student’s cumulative grade point average falls below 1.800. Probation is removed (assuming there is no other reason for probation) when the student’s grade point average is raised to 1.800 or above.
2. The student fails to earn at least 12 hours in a regular semester as a freshman. Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress.
3. The student fails to achieve sophomore standing (24 cumulative hours and 1.800 cumulative grade point average) in the required two semesters. Probation is removed when the student achieves sophomore standing.
4. Freshmen who pass fewer than two regular courses in their first regular semester, or who earn a cumulative grade point average lower than 1.000 have so seriously compromised their academic standing that they may be required to take a probationary leave of absence during the spring semester.

Sophomores:
1. The student’s cumulative grade point average falls below a 1.800. Probation is removed (assuming there is no other reason for the probation) when the student’s grade point average is raised to 1.800 or above, except that at the end of the second regular semester the student must qualify for junior standing.
2. The student fails to earn at least 12 hours in a regular semester as a sophomore. Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress.
3. The student is placed on probation by the Undergraduate Administrative Committee for failure to make satisfactory progress toward the degree. Probation is removed when the specified conditions are met.
4. The student fails to achieve junior standing (54 hours and 1.900 cumulative grade point average) in the required two semesters after achieving sophomore standing. Probation is removed when junior standing is achieved.

Juniors:
1. The student’s cumulative grade point average falls below a 1.900. Probation is removed (assuming there is no other reason for the probation) when the grade point average is raised to 1.900 or above, except that at the end of the second regular semester the student must qualify for senior standing.
2. The student fails to earn at least 12 hours in a regular semester as a junior. Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress.
3. The student is placed on probation by the Undergraduate Administrative Committee for the failure to make satisfactory progress toward degree. Probation is removed when the specified conditions are met.
4. The student fails to achieve senior standing (84 cumulative hours and 2.000 cumulative grade point average) in the required two semesters after achieving junior standing. Probation is removed when senior standing is achieved.

Seniors:
1. The student’s cumulative grade point average falls below a 2.00. Probation is removed
when the grade point average is raised to 2.000 or above.

2. The student fails to earn at least 12 hours in a regular semester as a senior, unless the semester is one in which the student needs fewer than 12 hours in order to complete the requirements for graduation (see the section on Course Load). Probation is removed when the student earns at least 12 hours in a subsequent semester and/or is judged to be making satisfactory academic progress and/or completes the requirements for graduation.

**SUDDEN ACADEMIC INSUFFICIENCY**

Any student who fails by wide margin to reach prescribed levels of academic achievement, either at the end of a semester or at mid-semester, or who has been placed on probation more than once is reviewed by the Peabody Undergraduate Administrative Committee. The Committee considers each case within the general guidelines for maintenance of satisfactory academic standing and may take any of several actions, among which are the following:

- The student may be placed on probation or issued an academic warning.
- The student may be advised to take a leave of absence or to withdraw from the University.
- The student may be required to take an academic probationary leave of absence.
- The student may be dismissed from the University.

Under certain circumstances, a student who has been formally dismissed may be readmitted to Peabody. The Peabody Undergraduate Administrative Committee must review and approve any request for readmission.

**ALTERNATE TRACK**

Occasionally, students find that it will be necessary to reduce their normal course load due to medical reasons, varsity athletics, or other circumstances. The result is that they will earn the Bachelor of Science degree in nine or ten semesters instead of eight. In such cases, the student may request Alternate Track status (normally done during the sophomore year).

After discussing the Alternate Track option with his/her parents and faculty adviser, the student must complete and submit a “Request for Alternate Track” form to the Peabody Office of Academic Services. Along with the “Request for Alternate Track” form, the student is required to include a plan listing courses to be taken each remaining semester to complete all requirements for the degree.

Alternate Track does not alter the earned hours required to achieve sophomore, junior or senior class standing. A student on Alternate Track status must meet the following guidelines to avoid probation. The minimum requirements are:

<table>
<thead>
<tr>
<th>Year</th>
<th>Hours Per Semester</th>
<th>Total Earned Hours</th>
<th>GPA</th>

<tbody>
<tr>
<td>1st year</td>

APPEALS
1. Petitions for exceptions to academic policies, appeals of academic policy implementations by the Peabody Dean’s Office staff, and appeals of academic actions by the Chairman of the Peabody Undergraduate Administrative Committee (e.g., letters of dismissal) may be directed to the full Undergraduate Administrative Committee (UAC).

Petitions and appeals should be sent to:
Assistant Dean Monique Robinson-Nichols.
Phone: (615) 343-6947

2. A student may ask the UAC to reconsider a decision if the student has new information to offer. The Committee Chair will decide whether the full Committee will reconsider. Requests for reconsideration of UAC decisions should be sent to the above address.

3. A final negative decision of the Committee may be appealed to the Dean of Peabody, (at the above address) who may assign an Associate Dean to handle the matter on the Dean’s behalf. The Dean or Associate Dean will consult with the Committee and other relevant faculty or staff as part of the review decision.

4. Appeals beyond Peabody College should be directed to the University Provost’s Office.

Please visit The Vanderbilt University Student Handbook site: http://www.vanderbilt.edu/student_handbook/ for a description of the appeal process for non-academic matters.

AUDITING A COURSE
Regularly enrolled Peabody College students who want to audit courses in any of the undergraduate schools of the university complete the “Request to Audit” form from the Peabody Academic Services site (Forms for Download page). Return the completed form to 211 Peabody Administration Building where the staff will register the student for the class for zero credit hours. No permanent record is kept of the audit; the course is removed from your schedule at the end of the semester and will not appear on your transcript. Regular students may audit one class each semester free of charge.

CLASS ATTENDANCE
Students who must miss a class due to illness, personal reasons, or other reasons should notify the course instructor (prior to the class meeting if possible). In case of serious illness or personal emergency causing an absence from campus, the student may request that the Peabody Office of Student Affairs notify instructors. The Office of Student Affairs does not “excuse” a student from class; it will simply notify instructors of the student’s absence. The final decision of how to handle the absence is up to the course instructor. For further information, see the “Class Attendance” policy in the Peabody College section of the Undergraduate Catalog.

CLASS STANDING
In order to qualify for sophomore standing, a freshman must earn at least 24 hours with a grade point average of at least 1.8. A freshman who fails to achieve sophomore standing by the end of two regular semesters has one additional semester in which to qualify for sophomore standing. This additional semester must be completed during the summer session at Vanderbilt.
Listed below are the minimum requirements for reaching each classification:

<table>
<thead>
<tr>
<th>CLASS</th>
<th>HOURS</th>
<th>GPA</th>
<th>REGULAR SEMESTERS</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sophomore</td>
<td>24</td>
<td>1.8</td>
<td>2</td>
</tr>
<tr>
<td>Junior</td>
<td>54</td>
<td>1.9</td>
<td>4</td>
</tr>
<tr>
<td>Senior</td>
<td>84</td>
<td>2.0</td>
<td>6</td>
</tr>
</tbody>
</table>

Students must qualify for the next classification after two regular semesters. Failure to reach these next classifications will result in the student being placed on academic probation. A student who is placed on academic probation more than twice after reaching sophomore standing is subject to dismissal from the University.

**DEAN’S LIST**
The Dean’s List recognizes outstanding academic performance in a semester. Students are named to the Dean’s List when they earn a Grade Point Average of at least 3.500 while carrying 12 or more graded hours with no temporary or missing grades in a course (credit or no-credit), and no grade of F.

Dean’s List is applied once per semester (approximately 30 days after the end of each term) and will only be awarded retroactively in the posting of a student’s Vanderbilt (through the Global Education Office) study abroad work.

**INDEPENDENT STUDY REGULATIONS**
Intended for students in their junior and senior years, Independent Study courses, ranging from one to three hours of credit, are listed in the Schedule of Courses. Juniors or seniors wishing to take such courses must use the following procedure:

1. Students must be in academic “good standing” (may not be on probation or leave of absence).
2. Students must arrange the independent study with a full-time Vanderbilt faculty member who has agreed to supervise and grade this experience.
3. Students may enroll in up to three hours of independent study per semester.
4. Students must complete an Individual Learning agreement that includes a written study plan detailing the nature of the project and the amount of credit to be earned. The Individual Learning/Directed Study agreement must be approved by the instructor and the department chair (or the chair’s designee).
5. The deadline for submitting the form to the Peabody Office of Academic Services is the last day of the registration change period.
6. Registration occurs when the completed Individual Learning/Directed Study Agreement is submitted to the Peabody Office of Academic Services. Students are not able to register themselves for independent studies.

The following Peabody independent study options are listed in the Schedule of Courses:

- EDUC 3850
- ENED 3850
- FLED 3850
- HOD 3850
- HMED 3850
- MTED 3850
- PSY-PC 3850, 3860*
- SCED 3850
- SSED 3850
- SPED 3850

Students may not repeat independent study courses for grade replacement.

*PSY-PC 3860, Directed Research, is open to sophomores and second semester first year students.
PASS/FAIL
Students may elect to take courses in which they can receive the grade P (Pass). This grade is entered for the student enrolled under the P/F option who is awarded a grade of D- or higher. The grade P is neither counted in the grade point average nor used in the determination of honors. A failing grade will appear on the student record as F and will be counted in the student's grade point average. The following regulations apply to pass/fail:

1. Students must have completed two full semesters at Vanderbilt before being eligible to take a course pass/fail.
2. Students must be in good academic standing.
3. Students may elect to take no more than one course per semester pass/fail.*
4. Students must maintain registration for at least twelve graded hours in addition to the course they are taking or planning to take on a pass/fail basis or the pass/fail notation is removed.
5. Students may elect to take no more than three (3) courses pass/fail during their undergraduate career.*
6. No more than one course from any liberal core area may be taken pass/fail.
7. For students with a single, double major/minor, or interdisciplinary plan, courses in the department(s) of the major(s)/minor(s)/interdisciplinary plan or other courses counted toward the major(s)/minor(s) may not be taken pass/fail.
8. Liberal Education Core Courses that have been specifically identified by the student's primary major as needing to be taken on a graded basis may not be taken pass/fail. By program, these courses are:
   
   **Human and Organizational Development:** Courses taken to satisfy the 3-hour Liberal Core Economic requirement (i.e., Econ 1010, 1020, HOD 2260).
   
   **Child Development, Child Studies, and Cognitive Studies:** Courses taken to satisfy the 3-hour Liberal Core Statistics requirement (i.e., Econ 1500, PSY-PC 2110, PSY 2100).
   
   **Special Education:** PSY-PC 1250, PSY-PC 2600, EDUC 1220, SPED 1210, SPED 2120, SPED 2160, SPEDS 2430, SPEDH 3348.
   
   **Early Childhood Education:** ENED 2430, EDUC 3750, ENED 2100, MTED 2100, PSY-PC 1250, SSED 2100.
   
   **Elementary Education:** ENED 2430, EDUC 3750, ENED 2200, MTED 2200, SCED 2200, PSY-PC 1250.
   
   **Secondary Education:** PSY-PC 2550.

9. Pass/fail must be requested on the Pass/Fail Request form and submitted to the Peabody Office of Academic Services. Requests to change a course to pass/fail after the last day to add a course will not be approved.
10. Students enrolled in a course pass/fail may elect to change back to a graded status by the published deadline (approximately week eight of the semester).
11. When a student wishes to complete a major or minor in a field in which a grade of P has been received, the registrar converts this grade to the regular grade originally earned.

*NOTE: Courses that are only offered on a Pass/Fail basis by the University (e.g., certain field-experience courses) are not counted against the number of courses that a student may voluntarily elect to take on a pass/fail basis, either within or across semesters.

Transfer courses that were taken elsewhere and appear in a student’s degree audit as a “T” do not count against the total number of pass/fail classes that a student can take during their time at Vanderbilt. In addition, transfer courses that meet liberal core requirements do not limit the possibility of pass/fail courses to also meet liberal core requirements.
Seniors who have met all other criteria may declare a course pass/fail with fewer than 12 additional hours. This must take place senior year during the fall or spring in which they are not completing student teaching or the HOD Internship. This applies to only one semester of the student’s senior year. Registration for pass/fail with fewer than 12 hours must be processed through the Peabody Office of Academic Services. **Seniors with fewer than 12 graded hours are not eligible for the Dean’s List.**

**REPEAT COURSES**
If a course is repeated, only the last grade and credit hours earned will be used to calculate the grade point average and be creditable toward graduation. However, the original grade will appear on the transcript. Certain courses (e.g., special topics courses, directed study courses) may be repeated for credit when there is no duplication of content. Such courses may be repeated to replace a grade only when content of the original and repeated courses are the same. Courses must be repeated in a graded status. This policy also applies to Advanced Placement credit. Courses taken at Vanderbilt may not be repeated elsewhere for grade replacement; nor may courses taken elsewhere be repeated at Vanderbilt for grade replacement.

**DUPICATION OF COURSE CONTENT**
It is the responsibility of the individual student to avoid duplication in whole or in part of the content of any courses offered toward the degree. Such duplication may result in the withdrawal of credit. This policy also applies to Advanced Placement credit. Certain courses (e.g., ensemble, performance instruction, and directed study) are designated as repeatable as they contain evolving or iteratively new content. These courses may be taken multiple times for credit. If a course can be repeated, the number of credits allowable per semester should not exceed 3 credits without permission.

**STUDENT LEAVE OF ABSENCE**
A student desiring a leave of absence should obtain application forms and instructions from the Peabody Student Affairs Office. All students are eligible, provided they have not been dropped by the University and are not dropped at the end of the semester during which application is made. Students wishing to take coursework elsewhere for transfer credit during a regular semester must take a leave of absence expressly approved for this purpose (see below). Students who take leaves of absence for other reasons (e.g., medical or other personal reasons) cannot take coursework elsewhere for transfer credit without prior permission.

**TRANSFERRING COURSE WORK**
It is the student’s responsibility to provide all of the information needed by the College to assess the program for which transfer credit is requested. Work presented for transfer must be from an accredited college and is subject to evaluation in light of the degree requirements of the college. Work transferred to Vanderbilt from another institution will not be computed in the Vanderbilt grade point average but will count as earned hours toward the degree. No course in which a grade below C- was received will be credited toward a degree program offered by the College.

Transfer work will **NOT** replace a previously earned grade from a Vanderbilt course.

**Studying Elsewhere at Another Institution during the Regular Semester:**
Students enrolled in Peabody College may receive credit for a maximum of 15 hours during all total semesters (falls and springs) studied elsewhere.

1. The student must be in good standing and have at least a 2.7 cumulative GPA at the conclusion of the semester prior.
2. The student must take a leave of absence for the semester, which has been expressly approved for the purpose of taking transfer coursework.
3. Institution must be fully accredited.
4. Institution may **NOT** be a 2-year/community college.
5. The student may not travel through a program that is already offered through the Vanderbilt Global Education Office.
6. Transfer courses may not be part of the student’s final 24 credit hours at Vanderbilt.
7. Transfer credit for independent study coursework will be considered on an individual basis.
8. Credit will not be awarded for internships taken at other institutions.
9. Transfer courses may be used to satisfy Liberal Education Core requirements with no more than one transfer course in any single Core area (e.g., if you need 2 science courses in your Liberal Core, you may take 1 of them elsewhere).
10. Transfer courses may be used to satisfy any major/minor requirements.
11. Grades do not transfer into Vanderbilt as number/letter grades. They will appear as "T" on the transcript, and will not factor in your GPA. However, in order for a grade to transfer, you must make at least a C- and cannot have taken it Pass/Fail.

Steps to Take:
Please follow the steps detailed on the University Registrar’s Office website - https://registrar.vanderbilt.edu/transfer-credit.php

**Studying Elsewhere at Another Institution during the Summer:**
Students enrolled in Peabody College may receive credit for a maximum of 12 hours during summers at another fully accredited four-year institution.

The following conditions must be met to obtain pre-approval to take summer coursework elsewhere and complete the transfer of credit process:

1. The student must be in good standing and have at least a 2.0 cumulative GPA at the conclusion of the semester prior.
2. Institution must be fully accredited.
3. Institution may NOT be a 2-year/community college.
4. The student may not travel through a program that is already offered through the Vanderbilt Global Education Office.
5. Transfer courses may not be part of the student’s final 24 hours at Vanderbilt.
6. Transfer credit for independent study coursework will be considered on an individual basis.
7. Credit will not be awarded for internships taken at other institutions.
8. Transfer courses may be used to satisfy Liberal Education Core requirements with no more than one transfer course in any single Core area (e.g., if you need 2 science courses in your Liberal Core, you may take 1 of them elsewhere).
9. Grades do not transfer into Vanderbilt as number/letter grades. They will appear as "T" on the transcript, and will not factor in your GPA. However, in order for a grade to transfer, you must make at least a C- and cannot have taken it Pass/Fail.

Steps to Take:
Please follow the steps detailed on the University Registrar’s Office website - https://registrar.vanderbilt.edu/transfer-credit.php.

**ENROLLMENT IN APPROPRIATE COURSES TO FULFILL DEGREE REQUIREMENTS:**
Knowledge of university/college policies and regulations regarding academic matters are the responsibility of the individual student. Contact the Peabody Office of Academic Services if you have questions about the policies or procedures.

**EXTERNAL COURSEWORK WHILE ENROLLED AT VANDERBILT FULL-TIME DURING A REGULAR SEMESTER:**
Students enrolled full-time (i.e., carrying at least 12 credit hours) during a regular (Fall or Spring) semester are assumed to be engaged in full-time study at Vanderbilt. Such students are not
permitted to take additional coursework elsewhere, for transfer credit, during the semester. This includes online courses as well as courses offered by nearby institutions.
Frequently Asked Questions

1. Do I need to take all of the core liberal education classes?

   Yes. All Peabody students must take them. The core classes ensure that you broaden your knowledge and experience different challenges and opportunities to grow.

2. There are a lot of courses to choose from in the liberal education core. Which are the ones that I really am supposed to take?

   For the most part it is truly up to you which courses you take to fulfill the liberal core requirements. In a couple of cases, there are some restrictions on the courses you need to take to fulfill a particular requirement (for example, the Human and Organizational Development program requires that you take a philosophy course as part of the humanities requirement), but otherwise, all of the options listed under each requirement are excellent options for you to choose among. In selecting which courses to take, you might sample from areas in which you are considering a second major or a minor, and you might choose courses that are simply fun or interesting to you. Fulfilling the Liberal Education requirement represents a rather unique opportunity to explore intellectual disciplines to which you otherwise might never be exposed.

3. How do I change my major or add a second major/minor?

   Change of Major Forms are used when you decide which major you want or don't want to do anymore. You may change your first major or declare a second major or minor in March of your first year at VU. To change your major or declare a second major or minor within Peabody: Pick up the major change form in Academic Services, 211 Administration Bldg. or download it from the Peabody Office of Academic Services website http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php

   Visit the department of your proposed new major to obtain a new adviser.
   
   Human and Organizational Development: Vicki Scalf, Sony Building
   Psychology and Human Development: Ally Armstead, 103 Jesup
   Special Education: Dr. Andrea Capizzi, 303E MRL
   Teaching and Learning: Dr. Catherine McTamaney, 341 Wyatt

   Turn the form in to Peabody Academic Services, 211 Administration Bldg.

   To declare a second major/minor in the College of Arts and Science, Blair or Engineering:

   Pick up the major change form in Academic Services, 211 Administration Bldg. or download it from the Peabody Office of Academic Services website http://peabody.vanderbilt.edu/admin-offices/oas/downloads.php. The appropriate department will assign you a second major or minor adviser. If given multiple copies of the form, leave one copy of the form with the department. Bring the other to Peabody Academic Services, 211 Peabody Administration Building.

   To change your FIRST major to one in A&S, Blair or Engineering:
You will need to apply as an Intra-University Transfer. Information, deadlines, and the application is available here: http://registrar.vanderbilt.edu/intra-university-transfers/

4. I need to drop this class. When is the last day to drop?

There are different procedures and consequences for dropping courses early in the semester (during the change period) or later in the semester. Both types of situation, and their associated procedures and consequences, are discussed below:

A. Dropping Classes
During the Change Period, which is approximately the first week of classes (see the academic calendar) students may add a course, change sections, and drop with no entry on the record and register for Pass/Fail status. Students must access YES to drop a course. Professors do not drop classes for students.

B. Withdrawal from classes
After Change Period, and extending to the end of the eighth week of classes (see the academic calendar) a course may be dropped with the consent of the instructor and the student’s adviser. Withdrawal changes must be made by the student on a Course Drop Form, which is submitted to the Office of Academic Services, 211 Administration Bldg.

After the above deadlines, students may withdraw from a class only by submitting a Withdrawal Petition and obtaining administrative approval.

With any withdrawals after the initial change period, the course is still listed on the student’s transcript, but with the designation of “W” (indicating withdrawal from the course) instead of a letter grade.

5. If I withdraw from classes, are "W"s on my transcript a bad thing?

Not necessarily. If you only acquire a couple of “W”s over the course of your undergraduate career that will almost never be of any consequence. However, if you establish a pattern of frequently dropping courses after the change period, and acquire “W”s across several semesters, then people evaluating your transcripts, such as potential employers and graduate admissions committees might start to wonder about your ability to complete assignments. Thus, if you have to withdraw from classes once or twice over your undergraduate career, it isn’t something you need to worry about. At the same time, withdrawing from classes is not something that you want to do regularly.

6. How many credits do I need to graduate? What is a credit anyway? Is that the same as an “hour”?

The credit hour is a unit of measure for college credit. Hours refers to the amount of credit you receive for any given course. If a course is a 3 credit course, it generally meets for 3 hours of class time during the week for the entire semester. If you pass the course, you will have earned 3 hours of credit towards your degree. Most lecture courses are 3 hours of credit and most lab science courses are 4 hours of credit (3 hours of credit for the lecture and 1 hour of credit for the lab).

The minimum number of credits for a B.S. degree is 120 with all Liberal Education Core and major requirements satisfied. Some programs require more than 120 credits to complete all requirements. See your intended major for specific details.
For example: to receive a Vanderbilt degree with HOD major as your first major, you must earn a minimum of 120 hours. 120 hours divided by 8 semesters equals 15 hours per semester. In theory, if you average 15 hours per semester, you should earn 120 credit hours by the end of your 8th semester or 4th year. You should plan on taking somewhere between 14 and 17 hours each semester. You will be spending more time studying on your own, and less time actually sitting in class, than you did in high school. Of course, you must also enroll and pass the required courses for the major! While you are choosing courses to meet HOD requirements, you also need to keep an eye on the bottom line. Any AP / IB credit that you have earned will count towards the 120 hours required to graduate. If you have AP / IB credit, you may be able to lessen your course load some semesters.

7. Do I really need to show up to all classes?

Yes.

8. If I am taking classes for a major and a minor can I graduate with a major and come back to complete the minor?

Unfortunately, you cannot. The major and minor must be completed before you graduate, since both apply to the same bachelor's degree. Once you graduate, no further changes can be made to your academic record – be sure to keep up with it and make sure that it is correct.

9. My Undergraduate Handbook says a specific course is required for graduation. However, the prerequisites for that class have changed. Which prerequisites do I follow?

Always follow the prerequisites in place during the semester that you take the course, regardless of your year of entry.

10. Do I really have to meet all the prerequisites for a class?

Almost always, yes. Meeting prerequisites insure that students have the necessary background knowledge for the course and that they are prepared to study the subject. Professors will assume that all students have completed the prerequisites. If, as is sometimes the case, you believe that you have the requisite knowledge to take a class without having met the formal prerequisites, meet with the course instructor to discuss your situation. The professor can give you a clear sense of his/her expectations for the class, and can help you gauge whether or not you are really ready to take the class.

The YES registration system will NOT allow you to register for a class with a stated prerequisite if you have not previously taken that class.

11. Why do I need advising and how do I choose an adviser? If I don’t know my major or want to change it, can someone help me find one?

Advisers can help you explore your interests and can share information that will help you choose a major or minor, explore possible career paths, and help you to stay on track in your studies. See your adviser several times during your studies to check on your progress, choose classes, etc. If you wish to change your adviser, there is a form to do so in the Academic Services Office and online.
12. How many pass/fail (P/F) classes can I take in my major? What classes can I take this way?

The university allows you to take up to a total of three courses on a pass/fail basis during your undergraduate career. Freshman may not elect to take courses pass/fail. Courses in your major or minor (even if they don’t count toward a specific requirement) MAY NOT be taken pass/fail.

See the academic policy section of this handbook for a full description of the pass/fail policy.

13. If I take a second major in the college of Arts and Sciences, do I need to complete the AXLE requirements in addition to the Peabody Liberal Core courses?

No. In order to complete a second major in the College of Arts and Sciences (A&S) as a Peabody student, all you need to do is to complete the core requirements (and any prerequisites) listed for that major (usually between 27 and 36 hours). AXLE is the liberal education requirement for A&S students. As a Peabody student taking a second major in A&S you are still a Peabody student, and therefore you need to complete only the Peabody liberal core requirements (LEC) for your first Peabody major.

14. Can I study abroad and get credit for VU courses?

Yes, there are a number of VU Abroad programs which allow you to take courses and earn residence credits that apply directly to your LEC or major. For more information contact the Vanderbilt Global Education Office; telephone 615-343-3139; or on the Web at: http://www.vanderbilt.edu/geo/

If you wish to participate in a non-Vanderbilt program, please see the “Semester Elsewhere” section of this handbook or visit the Peabody Academic Services Office, 211 Peabody Administration for the forms and explanation of the process/policies.

We do not make suggestions or recommendations regarding non-Vanderbilt programs. You will need to find a program on your own.

15. What if I don’t agree with the final grade I get in a class?

Meet with the relevant professor during office hours to review the grade. She or he has final say about your grade. If there is a grade error, a Change of Grade Petition is completed by the professor and it is submitted to the Peabody Office of Academic Services, 211 Administration Bldg.

16. Why was I placed on probation? What will happen next?

Students placed on academic probation will be notified by letter from the Dean explaining this status and what action is necessary to remove the probation.

17. How do I calculate my GPA?

Calculate the GPA by finding the grade points for each grade obtained in a course, then multiply that number by the number of credits for the course (i.e., An A- is 3.7 grade points x 3 credits = 11.1 grade points.) Do this for each course taken, then add all the grade points and all the credits, and divide the grade points by the credits. This is the GPA.

Use the information below:
A = 4.0  B- = 1.7  D+ = 1.3
A- = 3.7  C+ = 2.3  D  = 1.0
B+ = 3.3  C  = 2.0  D-  = 0.7
B  = 3.0  C-  = 1.7  F & CR/NC = 0.0

18. I am a pre-med/nursing/etc. student. Where do I go for help on medical or nursing school requirements?

Vanderbilt has a Health Professions Advisory Office that will help guide you on what requirements you need for a variety of careers and graduate study.

THE HUMAN AND ORGANIZATIONAL DEVELOPMENT PROGRAM
Department of Human and Organizational Development

The Human and Organizational Development (HOD) major prepares students to solve human problems in organizations and communities. Doing so requires knowledge of human development, group dynamics, organizational theory and behavior, economics, public policy, statistics, and methods of inquiry. The curriculum is planned to ensure that students obtain a strong foundation in science and liberal arts, with an emphasis on developing writing, oral presentation, and analytic skills.

In addition to the core curriculum, students select a HOD track. The track options include: Community Leadership and Development; Health and Human Services; International Leadership and Development; Leadership and Organizational Effectiveness; and Education Policy. Many students also add an additional major or minor administered by the respective departments of those programs.

The HOD program privileges an active learning approach to education. Students learn new ideas and concepts through seminars, simulations, case studies, field experiences, and interaction with professionals in the field. In addition, students are required to complete a semester-long internship in order to deploy the core competencies of HOD: understanding and solving problems in organizations and communities. Through the coursework that accompanies the internship, students integrate and apply concepts from earlier classes to analyze organizational performance and complete a project that enhances the effectiveness of the organization. Because the student chooses the internship placement, this experience also provides valuable vocational and career development in the student’s field of interest. Internship sites include Nashville, Chicago, New York, San Francisco, Washington, D. C., and London, England.

HOD graduates of the program assume positions in business, government agencies, social enterprises, and non-profit organizations. In addition, the HOD major is an excellent foundation for students interested in graduate or professional training in business, community development, counseling, divinity, education, health promotion, human resource development, law or medicine.

The core curriculum is designed to help students:

1. Understand the basic principles and typical patterns of human development across the life cycle and use this knowledge to understand their own behavior and the behavior of others;

2. Understand the principles of group dynamics and use this knowledge to provide leadership and facilitate decision making in small group settings;

3. Understand theories of organizations and apply them to the solution of organizational problems;

4. Apply quantitative and qualitative methods of systematic inquiry and analysis;

5. Understand basic economics including monetary and fiscal theory;

6. Understand public policy processes and the factors that influence policy making;

7. Understand the ethical dimensions of personal and organizational decisions and apply this understanding to analyze social issues and make professional and personal decisions;
8. Develop enhanced skills of synthesis including the ability to integrate ideas from various sources, to appreciate diversity, and to design innovative programs;

In addition, the program helps students develop the following skills:

1. Written communication - with emphasis on developing a clear, concise, expository style and mastering the practical forms used in professional situations;

2. Oral presentation – with emphasis on making informative and persuasive presentations with the effective use of technology and media;

3. Analytic thinking - with emphasis on applying analysis, creative thinking, and the skills of systems thinking to the recognition, definition, and solution of personal, professional, organizational, and social problems;

4. Interpersonal communication - with emphasis on inquiry, advocacy, and conflict resolution skills;

5. Leadership - with emphasis on motivating others, managing talent, and teamwork.

HOD Honors Program

The HOD Honors Program is designed for highly motivated students who want to pursue intensive research. It offers outstanding undergraduate HOD majors an opportunity to become involved in research teams with professors and graduate students. The program will help students develop skills in empirical research methods, writing, and presentation to provide a firm foundation for advanced graduate or professional training. The HOD Honors Programs requires a serious time commitment to a research project.

Application: Students may apply for the honors program at any time from the second semester of their sophomore year to the second semester of their junior year. The application must be signed by the faculty member with whom the student will work, and will outline the nature of the research project, which will ordinarily be an extension of the faculty member’s ongoing research. Students must have completed HOD 1250, HOD 1300, HOD 2100, HOD 2500, and statistics (PSY-PC 2110, PSY 2100, or Econ 1500) and have an overall GPA of at least 3.6, across all classes, as of the end of the term in which they apply. This GPA must be maintained to graduate with honors. Applications will be evaluated by the Honors Committee, who will decide on admission, taking into consideration the numbers of applicants.

Requirements: Upon admission students will complete two semesters of honors seminar (for six total hours of credit), which can substitute for advanced electives in any track. In the course, they will learn advanced research methods. In addition to the honors seminar, the student will work with the faculty sponsor on research for up to ten hours per week. Students must complete an empirical (quantitative or qualitative) honors thesis that is approved by two readers, and publicly present this work. Although not required, honors projects may be coordinated with HOD internships and the honors seminar is the one course that, with permission of both the instructor and Internship Director, may be taken in the same semester as internship. Honors theses are generally 25-35 double-spaced pages, including abstract and references, and should be in APA format. Students are additionally encouraged to attend departmental colloquia and to take at least one graduate course in their area of interest.

Awards of departmental honors in HOD will depend on successful completion of the course and the thesis. Highest honors may be awarded by vote of the Honors Committee.
HOD CURRICULUM

The curriculum in HOD includes a set of core courses, liberal education courses, track courses, and the internship experience (which is taken for either 12 credit hours in the summer or 15 credit hours during the fall or spring semesters).

HOD CORE COURSES

- HOD 1250, Applied Human Development (3 hours)
- HOD 1300, Small Group Behavior (3 hours)
- HOD 2100, Understanding Organizations (3 hours)
- HOD 2400, Talent Management and Organizational Fit (3 hours)
- HOD 2500, Systematic Inquiry (3 hours)
- HOD 2700, Public Policy (3 hours)

LIBERAL EDUCATION COURSES

- Economics (3 hours): ECON 1010, 1020, OR HOD 2260
- Calculus (3 hours): MATH 1100, 1200, 1201, 1300, OR 1301
- Statistics (3 hours): PSY-PC 2110, ECON 1500, OR PSY 2100
- Philosophy (3 hours): PHIL 1005 (recommended) or any other philosophy course
- Communications (6 hours): see liberal education course options
- Humanities (6 hours): must include one non-philosophy course; see liberal education course options
- Natural Science (7 hours): must include one lab science; see liberal education course options
- Social Science (6 hours): must include one non-economics course; see liberal education course options
- Liberal Core electives (3 hours)

TRACK COURSES

Students take 15 hours of coursework related to one of five tracks described on the following pages.

INTERNERSHIP

- HOD 4950, Internship (3-6 hours)
- HOD 4951, Advanced Seminar (3 hours)
- HOD 4952, Theoretical Application (3 hours)
- HOD 4953, Senior Project (3 hours)

HOD Track Summaries

At the end of their sophomore year, students in the Human and Organizational Development program select one of the following five areas of concentration (“tracks”) in accordance with their general career focus:

- Community Leadership and Development
- Health and Human Services
- International Leadership and Development
- Leadership and Organizational Effectiveness
- Education Policy

Each 15-hour track consists of a nine-hour core and six hours of additional track level courses called “HOD track electives.” The two HOD track electives are not limited to courses within the HOD track the student has declared. HOD track electives are any HOD, HODE, HODC, HODH, HODI, and HODL courses from 3000 - 4999 excluding 3850, 3860, 3870, 4950, 4951, 4952, 4953, 4960 and 4978. HOD track electives taken abroad through Vanderbilt University’s Global Education Office are numbered HOD 2051.

Community Leadership and Development

The Community Leadership and Development (CLD) track prepares students for community leadership in a globally changing world. The CLD track focuses on developing skills and knowledge for careers in community organizations, for-profit organizations in the public and private sectors, government and policy organizations, nonprofit agencies, housing, and community development banking. Students prepare themselves for immediate entry in staff positions or graduate study in law, policy, journalism, education, the social sciences, and related fields, obtaining applied professional experience in such venues as the Center for Community Studies, agencies in state government or surrounding counties, and selected community agencies and organizations. This track is closely connected to the master’s program in Community Development Action.

The nine-hour CLD track core requires 3 of the following 5 courses:

- HODC 3202, Community Development Theory
- HODC 3232, Ethics for Human Development Professionals
- HODC 3342, Introduction to Community Psychology
- HODC 3352, Philanthropy and Social Problem Solving
- HODC 3650, Community Development Seminar (may be repeated for credit with change of topic)

In addition, CLD track students are required to select six hours of track electives. HOD track electives are any HOD, HODE, HODC, HODH, HODI, and HODL courses from 3000 - 4999 excluding 3850, 3860, 3870, 4950, 4951, 4952, 4953, 4960 and 4978. HOD track electives taken abroad through Vanderbilt University’s Global Education Office are numbered HOD 2051.

Health and Human Services

The Health and Human Services (HHS) track focuses on developing knowledge and skills for positions in service professions such as counseling, social work, medicine, dentistry, health policy, allied medical sciences, athletic training, physical therapy, and health promotion. It is a versatile
track that provides students with a broad-based curriculum to pursue a wide range of career possibilities in the growing fields of health and human services. The demand for health and human service related professionals continues to increase due to a growing number of elders who require more services, advances in medical technology; the entrance of private industry into the health care delivery system; and the expansion of wellness and prevention programs.

HHS students, who plan to work in health and human service settings or go on to graduate or professional schools, have a choice of three options:

1. Pre-health Professions (development of entry-level knowledge and skills for health sciences professions including dentistry, medicine, nursing, occupational therapy, and physical therapy);

2. Health Policy and Administration (related roles include health care administrator, health specialist, and health policy analyst); and

3. Human Services (e.g., counseling, social work).

The nine-hour HHS track core requires 3 of the following 6 courses:

- HODH 3201, Introduction to Human Services
- HODH 3211, Introduction to Counseling
- HODH 3221, Health Service Delivery to Diverse Populations
- HODH 3231, Introduction to Health Services
- HODH 3241, Introduction to Health Policy
- HODH 3650, Health & Human Services Seminar (Rotating topics: only one HHS seminar will count in the HHS track core)

In addition, all HHS track students take six hours of track electives. HOD track electives are any HOD, HODE, HODC, HODH, HODI, and HODL courses from 3000 - 4999 excluding 3850, 3860, 3870, 4950, 4951, 4952, 4953, 4960 and 4978. HOD track electives taken abroad through Vanderbilt University’s Global Education Office are numbered HOD 2051.

**International Leadership and Development**

The International Leadership and Development (ILD) track provides participants an empirical and theoretical basis for understanding and addressing issues of human and organizational development in the international arena. The track encompasses multilateral development institutions, international development policies, and community development processes in international perspective. The ILD track focuses on the major elements of the globalization process: modern international financial architecture, global non-government organizations and social movements, transnational corporations and international trade, cross-cultural immigration, and the emergence of global networks and their significance for human and organizational development at the community level. It is expected that the HOD internship requirement will be satisfied in an international agency, organization or setting, with language skills acquired separately that are appropriate to the work domain.

Students who complete an HOD major in the ILD track will be prepared for entry-level positions in transnational business settings, relevant government agencies, and foundations, community development organizations or non-governmental organizations with international scope. Students also will be able to understand and follow debates over international development policy. Lastly, students will be well positioned for graduate training leading to careers in multilateral development agencies through such graduate majors as Political Science, Development Economics, Public
Administration, Anthropology, Community Research and Action, Comparative Education, or Law.

The nine-hour ILD track core requires 3 of the following 8 courses:

- HODI 3200, Global Dimensions of Community Development
- HODI 3210, Leadership and Change in International Organizations
- HODI 3220, International Organizations and Economic Development
- HODI 3230, Education and Economic Development
- HODI 3240, Effectiveness in International For-Profit Organizations
- HODI 3250, Building Knowledge Economics in Asia
- HODI 3260, Education in the Asia-Pacific Region: Development, Reform, and Innovation
- HODI 3270, Global Sustainable Development

In addition, all ILD track students take six hours of track electives. HOD track electives are any HOD, HODE, HODC, HODH, HODI, and HODL courses from 3000 - 4999 excluding 3850, 3860, 3870, 4950, 4951, 4952, 4953, 4960 and 4978. HOD track electives taken abroad through Vanderbilt University’s Global Education Office are numbered HOD 2051.

Leadership and Organizational Effectiveness

The Leadership and Organizational Effectiveness (LOE) track focuses on developing knowledge and skills to enhance the performance of individuals, groups, and organizations. Many of the students in this track are preparing for leadership or consulting roles in the public, private, and nonprofit sectors. Within Peabody College, this track is intellectually and professionally connected to the graduate programs of the Department of Leadership, Policy, and Organizations.

The nine-hour LOE track core includes the following required courses:

- HODL 3204, Leadership Theory and Practice (prerequisite: HOD 2100; concurrent enrollment allowed)
- HODL 3234, Advanced Organizational Theory (prerequisite: HOD 2100; concurrent enrollment allowed)

1 course chosen from the following 5 options:

- HODL 3224, Analyzing Organizational Effectiveness
- HODL 3244, Introduction to Human Resource Development
- HODL 3254, Human Resource Management
- HODL 3264, Evidence-based Practice in Organizations (prerequisite: HOD 2100; concurrent enrollment allowed)
- HODL 3274, Managing Organizational Change (prerequisite HOD 3204 or HOD 3234; concurrent enrollment allowed)

In addition, all LOE track students take six hours of track electives. HOD track electives are any HOD, HODE, HODC, HODH, HODI, and HODL courses from 3000 - 4999 excluding 3850, 3860, 3870, 4950, 4951, 4952, 4953, 4960 and 4978. HOD track electives taken abroad through Vanderbilt University’s Global Education Office are numbered HOD 2051.

Education Policy

The Education Policy (EP) track will provide students with a scholarly and applied understanding of public policy, with an explicit focus on educational policy. The EP track will provide the content knowledge, methods, and analytical skills to enable students to situate educational policymaking in a broader social, political, and economic context. Graduates will be prepared for a variety of careers in learning organizations and in government; in the nonprofit sector; in advocacy groups; and in
research and consulting firms. The EP track will also provide graduates with excellent training for either professional or graduate study in public policy, in education, or in a related social science field.

The nine-hour EP track core consists of the following required courses:

- HODE 3205, Education Policy Analysis Methods (prerequisite HOD 2700 or PSCI 1100)
- HODE 3215, Education and Public Policy (prerequisite HOD 2700 or PSCI 1100)
- HODE 3225, Introduction to Public Finance of Education

In addition, all EP track students take six hours of track electives. HOD track electives are any HOD, HODE, HODC, HODH, HODI, and HODL courses from 3000 - 4999 excluding 3850, 3860, 3870, 4950, 4951, 4952, 4953, 4960 and 4978. HOD track electives taken abroad through Vanderbilt University's Global Education Office are numbered HOD 2051.

**Relationship of HOD Tracks to Fifth-Year Master's Programs**

HOD tracks provide excellent preparation for advanced study in one of Peabody's fifth-year master's programs. Students wishing to pursue graduate study may apply in their junior year and, if admitted, begin taking graduate courses in their senior year, thus making it possible to complete most Peabody master's programs in one additional year of study after completion of their undergraduate degree. Currently, the following fifth-year master's programs are offered in:

- Child Studies
- Community Development and Action
- Education Policy
- Higher Education Administration
- International Education Policy and Management
- Leadership and Organizational Performance
- Teacher Licensure programs in Elementary or Special Education
The HOD Capstone Internship

The HOD Capstone Internship is the culminating event in the students’ undergraduate experience. This graduation requirement is a 32 hour a week, semester-long organizational experience completed in the senior or second semester junior year. However, the purpose of the HOD Internship is academic, not vocational. This experience is designed to allow students an opportunity to apply and strengthen the core competencies of the HOD degree in an organizational setting. The program is designed to evaluate whether the students can use what they have learned at Vanderbilt on the job and in everyday life.

In addition to the work on-site, interns participate in a weekly 3-hour seminar designed to help students take theories, concepts, techniques and tools from earlier coursework and apply them in a “real-world” experience. While the weekly seminar is only 3 hours, students are enrolled in 4 courses, earning 15 credit hours for the HOD Internship experience (12 hours for the summer semester). The academic credit earned is awarded for the coursework that accompanies the internship and each course has specific learning objectives and requirements:

- **HOD 4950, Internship in Human and Organizational Development:**
  6 credit hours fall/spring; 3 credit hours summer
  This credit is awarded to the activities associated with the performance at the internship site.
  This is pass/fail credit.

- **HOD 4951, Advanced Internship Seminar:** 3 credit hours - graded
  This course assesses ability to apply self-directed learning skills in an organizational learning situation and to use key theories of human and organizational behavior to understand, evaluate, and respond to personal work experiences.

- **HOD 4952, Theoretical Applications:** 3 credit hours - graded
  This course assesses the ability to demonstrate and apply data driven decision making and organizational analysis skills.

- **HOD 4953, Senior Project:** 3 credit hours - graded
  This course assesses the ability to demonstrate problem solving and project management competencies associated with the organizational development process.

The HOD Internship can be performed in one of the six cities in which we have established formal programs: Nashville, Chicago, New York, Washington D.C., San Francisco, and London, England. The HOD Department retains adjunct faculty in these cities who conduct the weekly seminar.

The HOD Internship Office is a resource available to help students maximize the learning potential of this exciting aspect of the HOD Degree. The HOD Internship Office maintains a variety of diverse pre-approved internship opportunities in numerous fields to allow students to pursue their vocational interests and academic goals. The Internship Office faculty and staff will provide guidance and counseling for students in their internship search. However, the internship search process mirrors the job search process and students choose their own internships. Students are not placed by the HOD Internship Office. All cities listed offer quality internship opportunities that will synthesize the students’ undergraduate learning and prepare them for their future endeavors.

Students will receive additional information about the HOD Internship throughout their HOD experience. Additional information can be found on the HOD Internship webpage at the HOD Internship webpage.

Liberal Core Elective (3 hours):
Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet liberal education core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable to meet Liberal Education Core requirements.

Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement areas. **Exception:** Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.

English 1100 requirement:
English 1100 is required unless students have satisfied one of the following:

1. SAT
   a. Reading score of at least 27
   b. Writing and Language score of at least 28
   c. Evidence-Based Reading and Writing score of at least 660
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above
3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree.

*Academic credit is not awarded for SAT or ACT test scores.*

Writing Requirement:
All first year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

**Note:** First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First Year Seminars during the first week of the fall and spring semesters if the courses are open.

Every track requires that all HOD majors take 2 additional track level courses called “HOD track electives.” The two HOD track electives are not limited to courses within the HOD track the student has declared. HOD track electives are any HOD, HODE, HODC, HODH, HODI, and HODL courses from 3000 - 4999 excluding 3850, 3860, 3870, 4950, 4951, 4952, 4953, 4960 and 4978. HOD track electives taken abroad through Vanderbilt University’s Global Education Office are numbered HOD 2051.

Community Leadership and Development Track [15 hours]
The nine-hour CLD track core requires 3 of the following 5 courses:
HODC 3202 Community Development Theory
HODC 3232 Ethics for Human Development Professionals
HODC 3342, Introduction to Community Psychology
HODC 3352, Philanthropy and Social Problem Solving
HODC 3650, Community Development Seminar (topics vary; only one CLD seminar will count in the CLD track core)

Health and Human Services Track [15 hours]
The nine-hour HHS track core requires 3 of the following 6 courses:
HODH 3201 Introduction to Human Services
HODH 3211 Introduction to Counseling
HODH 3221 Health Service Delivery to Diverse Populations
HODH 3231 Introduction to Health Services
HODH 3241 Introduction to Health Policy
HODH 3650 Health & Human Services Seminar (topics vary; only one HHS seminar will count in the HHS track core)

International Leadership and Development Track [15 hours]
The nine-hour ILD track core requires 3 of the following 8 courses:
HODI 3200 Global Dimensions of Community Development
HODI 3210 Leadership and Change in International Organizations
HODI 3220 International Organizations and Economic Development
HODI 3230 Education and Economic Development
HODI 3240 Effectiveness in International For-Profit Organizations
HODI 3250 Building Knowledge Economics in Asia
HODI 3260 Education in the Asia-Pacific Region: Development, Reform, and Innovation
HODI 3270 Global Sustainable Development

Leadership and Organizational Effectiveness Track [15 hours]
The nine-hour LOE track core includes the following required courses:
HODL 3204 Leadership Theory and Practice (prerequisite: HOD 2100)
HODL 3234 Advanced Organizational Theory (prerequisite: HOD 2100)

Plus 1 course chosen from the following 5 options:
HODL 3224 Analyzing Organizational Effectiveness
HODL 3244 Introduction to Human Resource Development
HODL 3254 Human Resource Management
HODL 3264 Evidence-based Practice in Organizations (prerequisite HOD 2100; concurrent enrollment allowed)
HODL 3274 Managing Organizational Change (prerequisite HODL 3204 or HODL 3234)

Education Policy Track [15 hours]
The nine-hour EP track core has the following required courses:
HODE 3205 Education Policy Analysis Methods (prerequisite HOD 2700 or PSCI 1100)

POTENTIAL PEABODY SECOND MAJORS

For students with a First Major in Human and Organizational Development
(21 unique hours required for Peabody second majors)

Child Development (CD) (30 hours)
(See the CD major requirement pages for all required classes)

Courses that may be applied to both majors:
- HODC 3232 and HODC 3342 may be used for CD electives
- HOD 2500 may be used for the CD methods requirement
- PSY-PC or PSY courses used to satisfy the HOD Liberal Education core social studies area as CD electives

Students may only apply nine hours from the courses used for the Human and Organizational Development major to fulfill the Child Development second major.

Child Studies (CST) (36 hours)
(See the CST major requirement pages for all required classes)

Courses that may be applied to both majors:
- HOD 2500 may satisfy the CST Research Methods requirement
- HODH 3221, HODC 3202, and/or HODC 3342 may be used to partially satisfy the Families, Community, & Diversity CST area or be used in the CST elective category
- HODC 3232 may also be used as a CST elective course.
- PSY-PC or PSY courses used to satisfy the H&OD Liberal Education core social studies area may be used to partially satisfy CST Area categories or CST electives

Students may only apply a maximum of fifteen hours from the courses used for the Human and Organizational Development major to fulfill the Child Studies second major.

Cognitive Studies (CGS) (33 hours)
(See the CGS major requirement pages for all required classes)

Courses that may be applied to both majors:
- Six hours of HOD 2500 and HODC 3222 may be used to satisfy CGS Methods of Inquiry
- PSY-PC or PSY courses used to satisfy the H&OD Liberal Education core social studies area may be used to partially satisfy CGS Area categories or CGS electives
- HODC 3232 and HODC 3342 may also be used as CGS elective courses.

Students may only apply a maximum of twelve hours from the courses used for the Human and Organizational Development major to fulfill the Child Studies second major.

Note: Students who want to double-major in Human and Organizational Development and Early Childhood Education, Elementary Education or Special Education must take H&OD as their second major, due to state teacher licensure regulations.
1) All of these choices are overwhelming! How do I start putting my fall schedule request together?

The **required fall course** for first-year HOD majors is **HOD 1250-01** (3 credit hours). As an HOD major, you will be automatically enrolled in HOD 1250-01. You should choose 3 to 4 additional courses. Review the suggested schedule in this section.

If you are required to take English 1100 as listed below (#2), be sure to put it on your fall schedule.

Then think about getting started on your Liberal Education Core requirements.

If you are considering economics as a second major or minor, refer to question #6 below for math recommendations.

If you consider yourself to be pre-med, refer to question #7. Some of the Liberal Education Core courses in your first semester could be a writing course, a math course and/or a philosophy course, but any could be postponed to the spring semester or your 2nd year. In general, your HOD Liberal Ed Core courses should be completed by the end of your 4th or 5th semester.

2) Am I required to take English 1100?

English 1100 is required unless you have satisfied one of the following:

1. SAT I Critical Reading and Writing combined test score of 1220 or above with a minimum test score of 500 in each component
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above
3. AP / IB English test scores of 4 and 6 respectively

If you do not satisfy one of the above, then you must register for English 1100 for the fall semester.

3) Am I required to take a math course?

HOD majors are required to take one math course and one statistics course. Students may receive math credit for AP or IB test depending on the score(s) received. Refer to "**Advanced Placement & International Baccalaureate Test Score Credit**" section of the Peabody catalog (vanderbilt.edu/catalogs). Students who score 5 on the AP statistics test receive credit for Math 1010. Math 1010 **DOES NOT FULFILL** the statistics requirement for the HOD major. All HOD majors must take a statistics course. Choices are PSY-PC 2110, ECON 1500 or PSY 2100. ECON 1500 and PSY 2100 have prerequisites which you can view on YES.

4) Where should I have my AP/IB test scores sent?

AP / IB test scores should be sent directly to Vanderbilt University Office of Undergraduate Admissions from the testing agency prior to your first semester of enrollment to obtain credit.

5) I have not received the scores for my AP/IB tests yet. How do I know which courses to request?

You may have taken AP tests in your sophomore or junior year and already know those test results. You can look on the AP/IB chart in this handbook to see the exact Vanderbilt course credit you will
earn. AP / IB tests results for tests taken in May will not be available until July. If you feel that you
are likely to receive AP / IB credit, then you can choose to register for other courses. When YES
reopens in July, you can adjust your schedule accordingly. Some students prefer to register for a
course and then drop the course if they received a high enough score to receive credit.

6) I am planning on either a double major or a minor in economics and the information for
economics majors/minors states that one semester of calculus is required. Will Math
1100, Survey of Calculus, prepare me adequately for the economics courses I will
eventually take or is Math 1200/1300 a better choice?

Although Math 1100 meets the minimum requirements, Professor Malcolm Getz, the Director of
Undergraduate Studies for Economics, recommends Math 1200/1300. “It [Math 1200] is a three
credit course that more easily allows going on to 1201 should you choose to do so...We find that
students who complete two semesters of calculus on average earn whole letter grade higher grade
in 3010 (A rather than B). The amount of calculus used in upper level electives differs from course to
course and instructor to instructor. More [economic] electives will be open to you with more math.”
Information on the requirements for the undergraduate economics major/minor can be found at
https://as.vanderbilt.edu/econ/undergraduate

7) I am pre-med. What courses do I need to take?

Generally, the minimum required courses for consideration to medical school include 1 year of the
following courses: English, biology, general chemistry, organic chemistry, and physics. All of the
sciences should be taken with the appropriate labs and recitations. The Health Professions Advisory
Office (HPAO) at Vanderbilt is also recommending a semester of biochemistry and an introductory
statistics course (stats is also required for the HOD Liberal Education Core).

In addition to the required HOD course (HOD 1250), most HOD majors on a pre-med track will start
out with general chemistry (Chemistry 1601, 1601L) and then add 1 or 2 additional courses that will
go towards the HOD Liberal Education Core. You might consider adding a math course and/or an
English course. It is strongly suggested that sometime early in the fall you contact Health
Professions Advisory Office about the suggested course sequence for the science courses and how
HPAO advising works. You could even contact that office now if you’d like. The office number is
(615) 322-2446.

HPAO 2017 Annual Report
INTRODUCTION

The child development major is designed for students who wish to study children (infancy through adolescence) and the major family, cultural, peer, school, and neighborhood contexts in which they live. The major is designed to provide a strong background in the social and behavioral sciences related to child development, a focused understanding of the scientific study of children and the contexts in which they develop, and opportunities for supervised and independent research on aspects of child development in ways that enable students to link theories and prior research to research design and data on children’s development.

The major is excellent preparation for graduate study in selected social science and professional fields (e.g., psychology, medicine, nursing, education, public policy) and offers an excellent complementary (or second) major for undergraduate students simultaneously pursuing a major in cognitive studies, elementary education, human and organizational development, psychology, or special education.

The child development curriculum is designed to ensure that students develop a background in the liberal arts and sciences; a clear understanding of the theories, major research findings, and research methods central to the field of child development; and an area of focus or expertise in child development. Development of background in the liberal arts & sciences occurs within the context of the Liberal Education Core, composed of required and elective courses in communications, humanities, mathematics, natural sciences, and social sciences. A clear understanding of theory and research central to the field is developed through the major core courses. These include an overview of child development, courses focused on the domains of psychological processes central to human development (cognition; social and personality development), courses related to major epoch of child development (infancy and adolescence), and courses devoted to the major research methodologies in the field (experimental, observational, psychometric). Students select an area of concentration (major elective area) to complement their knowledge of the field as a whole.

THE HONORS PROGRAM IN CHILD DEVELOPMENT

The Honors Program in Child Development offers qualified majors the opportunity to conduct individual research projects in collaboration with faculty members. This research experience culminates in the writing and public presentation of a senior thesis. Students who major in Child Development are eligible to apply for the Honors Program at the end of their sophomore year if they have an overall grade point average of at least 3.2 and a 3.2 in Child Development courses. Students who are accepted, complete the program successfully, and have a final grade point average of at least 3.2 will receive either Honors or Highest Honors in Child Development. Successful participation in the program should substantially aid those intending to do graduate work. More specific information concerning admission to and the requirements of the Honors Program is available from Professor John Rieser, Coordinator of the Psychology Honors Program for the Department of Psychology and Human Development.

Liberal Core Elective (3 hours):
Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet Liberal Education Core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable to meet Liberal Education Core requirements.

Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement areas. Exception: Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.

English 1100 requirement:
English 1100 is required unless students have satisfied one of the following:
1. SAT
   a. Reading score of at least 27
   b. Writing and Language score of at least 28
   c. Evidence-Based Reading and Writing score of at least 660
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above
3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree. Academic credit is not awarded for SAT or ACT test scores.

Writing Requirement:

All first year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

Note: First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First Year Seminars when open registration begins after the initial registration period has ended.

POTENTIAL PEABODY SECOND MAJORS
For students with a First Major in Child Development
(21 unique hours required for Peabody second majors)

Note: Due to overlapping courses, Child Studies cannot be a second major to Child Development.

Cognitive Studies [CGS] (33 hours)
(See the CGS major requirement pages for all required classes)
Students may not use more than 12 hours from the CD major in the CGS major.

A first major in Child Development and a second major in Cognitive Studies will require a minimum of 54 credit hours.

Human and Organizational Development [H&OD] (45-48 hours)
(See the H&OD major requirement pages for all required classes)

Courses that may be applied to both majors:
• 3 credit hours from HODI 3200, 3210, 3220, 3230, 3875, HODC 3202, in the CD Cultural Studies area of the Liberal Education core may be used in partial fulfillment of a track core or a track elective
• HODC 3232 and 3342 in the CD social science area of the Liberal Education Core may be used in partial fulfillment of a track core or as track electives

Note: Students who want to double-major in Child Development and Early Childhood Education, Elementary Education or Special Education must take Child Development as their second major, due to state teacher licensure regulations.
CHILD STUDIES
Department of Psychology and Human Development

INTRODUCTION

Peabody has long had great strengths in the area of Child Studies. The 36 hour interdisciplinary major in Child Studies draws on courses from Psychology, Education, Special Education, and Human and Organizational Development. The major is excellent pre-professional preparation for students interested in Psychology or Education, in Law (e.g., Child and Family advocacy), or in various health related areas (e.g., Medicine, Nursing, Child Life Specialist) involving children. It is also appropriate for students who are interested in gaining a broader understanding of children and families in contemporary society. The major areas covered are: Developmental Psychology, Learning, Research Methods, Language and Literacy, and Families, Community and Diversity. Interested students should discuss the program with Leigh Wadsworth, Director of Undergraduate Studies.

THE HONORS PROGRAM IN CHILD STUDIES

The Honors Program in Child Studies offers qualified majors the opportunity to conduct individual research projects in collaboration with faculty members. This research experience culminates in the writing and public presentation of a senior thesis. Students who major in Child Studies are eligible to apply for the Honors Program at the end of their sophomore year if they have an overall grade point average of at least 3.2 and a 3.2 in Child Development courses. Students who are accepted, complete the program successfully, and have a final grade point average of at least 3.2 will receive Honors or Highest Honors in Child Studies. Successful participation in the program should substantially aid those intending to do graduate work. More specific information concerning admission to and the requirements of the Honors Program is available from Professor John Rieser, Coordinator of the Psychology Honors Program for the Department of Psychology and Human Development.

Liberal Core Elective (3 hours):

Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet liberal education core requirements. These courses require prior approval as substitute courses.

67
Independent study courses are not acceptable to meet Liberal Education Core requirements.

Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement areas. Exception: Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.

**English 1100 requirement:**

English 1100 is required unless students have satisfied one of the following:

1. SAT
   a. Reading score of at least 27
   b. Writing and Language score of at least 28
   c. Evidence-Based Reading and Writing score of at least 660

2. ACT English test score of 27 or above and an ACT writing test score of 19 or above

3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree. *Academic credit is not awarded for SAT or ACT test scores.*

**Writing Requirement:**

All first year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

**Note:** First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First Year Seminars when open registration begins after the initial registration period has ended.

POTENTIAL PEABODY SECOND MAJORS
For students with a First Major in Child Studies
(21 unique hours required for Peabody second majors)

Note: Due to overlapping courses, Child Development cannot be a second major to Child Studies.

Cognitive Studies (CGS) (33 hours)
(See the CGS major requirement pages for all required classes)

Courses that may be applied to both majors:
- PSY-PC 2170 or PSY 2150 in the 12 hour CGS Core and CST 3 hour Research Methods
- PSY-PC 2120 if taken in the CST Liberal Core Mathematics area may be used in partial fulfillment of the CGS Methods of Inquiry Requirement
- When selecting elective classes, remember that 21 hours must be unique to the second major.

A first major in Child studies and a second major in Cognitive Studies will require a minimum of 57 credit hours.

Human and Organizational Development (H&OD) (45-48 hours)
(See the H&OD major requirement pages for all required classes)

Courses that may be applied to both majors:
- HOD 2500 in the H&OD Major Core and in the CST Research Methods Area
- Six credit hours from HODH 3221, 3202, or 3212 from the Families, Community and Diversity area could be used to partially satisfy a track core or be used as track electives
- 3 credit hours from HODC 3200, 3210, 3220, 3230, 3875, 3202 in the CST Cultural Studies area of the Liberal Education core may be used in partial fulfillment of a track core or a track elective
- HODC 3232 and 3342 in the CST social science area of the Liberal Education Core may be used in partial fulfillment of a track core or as track electives

Note: Students who want to double-major in Child Studies and Early Childhood Education, Elementary Education or Special Education must take Child Studies as their second major, due to state teacher licensure regulations.
INTRODUCTION

The cognitive studies program provides students the opportunity to study human learning, remembering, thinking, reasoning, and problem solving. A major focus is on ways to maximize one's own learning abilities and problem-solving skills, and on ways of helping other people to learn.

This program is for persons who are intellectually curious and motivated to participate actively in the learning process. Students will be asked to lead discussions, present critical reviews of research, conduct their own research projects, and to translate theory into practice. Each student must complete a minimum of 33 hours of course work and related independent studies in the major. The curriculum is planned to ensure that students receive a strong background in both science and the liberal arts, with an emphasis on problem-solving and complex decision-making. The courses in the core curriculum focus on various aspects of human cognition, including communication, cognitive development, basic cognitive processes, applications of theories of knowledge, and socio-cultural aspects of learning. Students are encouraged to pursue a second major or develop an area of concentration that is consistent with their career plans. Choice of this major or concentration area is made by the student in consultation with the adviser. The major also emphasizes an appreciation of the scientific method and the research process, and numerous opportunities exist to pursue independent study in close collaboration with faculty members.

Leadership and success in our society will depend increasingly on one's ability to process complex information, solve difficult problems using systematic analysis, and facilitate the learning of others. Cognitive studies, therefore, is a "practical major" that prepares students to be effective in almost any career. Students completing the cognitive studies program also are excellent candidates for graduate study in a variety of fields, depending on their chosen area(s) of expertise.

THE HONORS PROGRAM IN COGNITIVE STUDIES

The Honors Program in Cognitive Studies offers qualified majors the opportunity to conduct individual research projects in collaboration with faculty members. This research experience culminates in the writing and public presentation of a senior thesis. Students who major in Cognitive Studies are eligible to apply for the Honors Program at the end of their sophomore year if they have an overall grade point average of at least 3.2 and a 3.2 in Cognitive Studies courses. Students who are accepted, complete the program successfully, and have a final grade point average of at least 3.2 will receive either Honors or Highest Honors in Cognitive Studies. Successful participation in the program should substantially aid those intending to do graduate work. More specific information concerning admission to and the requirements of the Honors Program is available from Professor John Rieser, Coordinator of the Psychology Honors Program for the Department of Psychology and Human Development.

Liberal Core Elective (3 hours):
Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet liberal education core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable to meet Liberal Education Core requirements. Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement
areas. **Exception:** Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.

**English 1100 requirement:**

English 1100 is required unless students have satisfied one of the following:

1. SAT  
   a. Reading score of at least 27  
   b. Writing and Language score of at least 28  
   c. Evidence-Based Reading and Writing score of at least 660  
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above  
3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree.  

*Academic credit is not awarded for SAT or ACT test scores.*

**Writing Requirement:**

All first year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

**Note:** First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First Year Seminars when open registration begins after the initial registration period has ended.

POTENTIAL PEABODY SECOND MAJORS
For students with a First Major in Cognitive Studies
(21 unique hours required for Peabody second majors)

Child Development (CD) (30 hours):
(See the CD major requirement pages for all required classes)

Students may only apply nine hours from the courses used for the Cognitive Studies major to fulfill the Child Development second major.

A first major in Cognitive Studies and a second major in Child Studies will require a minimum of 54 credit hours.

Child Studies (CST) (36 hours)
(See the CST major requirement pages for all required classes)

Courses that may be applied to both majors:
- PSY-PC 2170 or PSY 2150 in the CST 3 hour Research Methods and 12 hour CGS Core
- PSY-PC 2120 if taken in the CST Liberal Core Mathematics area may be used in partial fulfillment of the CGS Methods of Inquiry Requirement
- When selecting elective classes, remember that 21 hours must be unique to the second major.

Human and Organizational Development (H&OD) (45-48 hours)
(See the H&OD major requirement pages for all required classes)

Courses that may be applied to both majors:
- 3 credit hours from HODI 3200, 3210, 3220, 3230, 3875, HODC 3202 in the CGS Cultural Studies area of the Liberal Education core may be used in partial fulfillment of a track core or a track elective
- HODC 3232 and 3342 in the CGS social science area of the Liberal Education Core may be used in partial fulfillment of a track core or as track electives

Note: Students who want to double-major in Cognitive Studies and Early Childhood Education, Elementary Education or Special Education must take Cognitive Studies as their second major, due to state teacher licensure regulations.
Psychology & Human Development FAQ:

1. As a Cognitive Studies, Child Development, or Child Studies major, am I required to take a second major?

No. A second major is not required for any of these programs. However, the possibility of taking a second major is very compatible with all three programs, and many students opt to take a double major to reflect their intellectual and/or career interests. Whether or not you take a double major is up to you, but it is an issue that your academic adviser will be very happy to discuss with you.

2. What are all the different “Independent Study” courses?

Several different courses offered through the Department of Psychology and Human Development are “experiential,” in that they consist primarily in engaging in supervised “hands-on” activities in something other than a traditional classroom setting. Each course reflects a somewhat different type of experience:

-- PSY-PC 3870, Fieldwork in Psychology, is a vehicle by which interested students can participate in an internship at an off-campus site.

-- PSY-PC 3850, Independent Study, encompasses a variety of learning experiences, including serving as a Teaching Assistant in order to learn about the process of college teaching and learning, as well as student-initiated educational projects, such as writing a thesis on a relevant topic based on library or archival research.

-- PSY-PC 3860, Directed Research, involves engaging in psychological research as a member of a research lab under the supervision of a faculty sponsor.

-- PSY-PC 3980, Honors Seminar, is a research-based course for students admitted to the Psychology Honors Program, under which they conduct the research for, and write, their Senior Honors Thesis.

3. How much academic credit can I get from taking these “experiential” courses?

Each of these courses (PSY-PC 3870, 3850, 3860 and 3980) can be repeated freely as general electives counting toward graduation. However, there are restrictions on how much credit from these courses can serve as elective credit within the Cognitive Studies, Child Development, and Child Studies majors. PSY-PC 3870 does not serve as an elective within any of these majors; the remaining courses (PSY-PC 3850, 3860, and 3980) can serve as electives within all three majors. However, for all three majors, only a total of six hours from among the eligible courses, in any combination, can be used as elective credit within the major. In addition to this elective credit, 3 hours of credit from either PSY-PC 3860 or PSY-PC 3980 can be used as the second required research methods course in the Child Development major, or as one of the Methods of Inquiry courses in the Cognitive Studies major. This latter option is not available for the Child Studies major because only one research methods course is required.

4. How do I register for these “experiential” courses?
Registering for these courses is somewhat different than for traditional classroom-based courses. For PSY-PC 3980 the student needs to be admitted to the honors program in order to be eligible to register for that course. However, eligible students can register for both of these courses in the normal fashion on YES.

For PSY-PC 3870, 3850, and 3860 the student must complete an Individual Learning Agreement in collaboration with his or her faculty sponsor, have this agreement approved by the Director of Undergraduate Studies; and then have it turned in to the Peabody Office of Academic Services, 211 Administration Bldg. for entry into YES. The Individual Learning Agreement can be downloaded from: http://peabody.vanderbilt.edu/docs/pdf/oas/OAS_ILA.pdf

Please turn the form in to Ms. Ally Armstead, Education Coordinator for Psychology & Human Development, in Jesup Room 103; she will pass the form on to the DUS for approval and send it to the Office of Academic Services.
SPECIAL EDUCATION MAJOR
Department of Special Education

The major in Special Education prepares the student for a variety of roles and settings for teaching persons with disabilities. All Special Education majors must complete the Liberal Education Core Requirements, the Special Education Area of Concentration Requirements, and the Related Area of Study Requirements. The student must choose an area of concentration explained below. Students may select two areas of concentration if they have not selected a dual major in another area.

Special Education Severe Disabilities Program/Comprehensive

A program of studies designed to prepare teachers for Tennessee Comprehensive Licensure with K-12 Endorsement to serve children and young adults with intellectual disabilities, multiple disabilities, and autism. These learners require a comprehensive educational approach to meet their academic, daily living, and social needs. During their early years, the focus is on communication, social, motor, functional academic, and adaptive behavior skills. In later years, the focus is on vocational, community and daily living skills. Potential jobs include special education classroom teacher, consultant teacher, community-based transition teacher, or job coach.

Special Education High Incidence Program/Interventionist K-8 and/or 6-12

A program of studies designed to prepare teachers for Tennessee Interventionist Licensure with K-8 and/or 6-12 Endorsement to serve children and young adults with high-incidence disabilities (i.e., learning disabilities, behavior disorders, mild intellectual disabilities, ADHD, high-functioning autism), who require a modified curriculum. The program prepares teachers to become skilled instructors in reading, math, and content area modifications, and to manage inappropriate school behavior. Graduates work in resource rooms, specialized classrooms, and inclusive classrooms in public and private schools, clinics, and hospitals.

(*subject to change based on revision to state licensure guidelines; Teacher candidates will be informed of any changes)
**Dual Majors**

Students majoring in one of the three program areas of special education may pursue a second major or area of licensure. Students who choose the dual licensure program of studies must fulfill the requirements of both areas including both Liberal Education Cores. The following majors have been identified as particularly appropriate for students whose primary major is Special Education, although other majors may be possible with careful planning and adviser support from all major areas.

Other Concentration Areas within Special Education: this allows students to consider dual endorsement in more than one area of Special Education

- **Human and Organizational Development**: appropriate for students interested in careers that involve finding solutions to human problems in organizations and communities.

- **Child Development**: designed for students who wish to study children (infancy through adolescence) and the major family, cultural, peer, school, and neighborhood contexts in which they live. The major is designed to provide a strong background in the social and behavioral sciences related to child development, a focused understanding of the scientific study of children and the contexts in which they develop.

- **Child Studies**: Like Child Development, the Child Studies major focuses on the developing child (infancy through adolescence), but with more of an applied focus. In particular, the Child Studies major is designed to examine the implications of what we know about children and their development for teaching and learning. Thus, it is an excellent second major for future educators.

- **Cognitive Studies**: provides students the opportunity to study human learning, remembering, thinking, reasoning, and problem solving. A major focus is on ways to maximize one’s own learning abilities and problem solving skills and on ways of helping others learn.

- **Various Arts & Science Majors**: Students should work with their SPED advisor and their A&S advisor to identify the proper sequence of courses.

Course requirements for potential second areas of concentration and dual majors can be found later in this handbook. Additional information regarding the scheduling of the student’s program may be obtained from the adviser. A matrix listing the sequence for each area of special education may also be found later in this handbook. Students should follow the Sequence of Courses when planning.

Students may also combine their Special Education Major with majors in other Colleges (e.g., Arts and Science, Blair) of the University. Students interested in this should contact the Director of Undergraduate Studies for the Department of Special Education.
THE HONORS PROGRAM IN SPECIAL EDUCATION

The Honors Program in Special Education offers qualified majors the opportunity to gain experience in conducting research in collaboration with a faculty mentor. This experience culminates in the writing and presentation of an honors project. Students who major in Special Education are eligible to apply for the Honors Program in Special Education in the spring of their sophomore year if they have an overall grade point average of 3.5 by March 1st of the sophomore year and have met the requirements regarding their disposition across their SPED courses. Application review will not only consider the student’s GPA but will include review of student course and field dispositions and consideration of fit with the selected faculty mentor programs. The Honors Program requires a substantial time commitment. Students should be aware that participation in the Honors Program is quite time-intensive and represents a substantial commitment of time and effort across at least two semesters. Therefore, potential participants must carefully consider whether they are able to, and want to, devote the required time and energy to this program. Students who are accepted into the Honors Program in Special Education, who successfully complete the Program, maintain the required grade point averages, and course and field dispositions met all requirements, will graduate with “Honors” in Special Education. Students interested in the Honors Program in Special Education should contact Professor Andrea Capizzi for more information: Andrea.capizzi@vanderbilt.edu.

Liberal Core Electives (10-11 hours):
Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet liberal education core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable to meet Liberal Education Core requirements.

Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement areas. Exception: Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.

*Using courses with the subject area “EDUC” or ending in __ED (eg., ENED, SCED, MTED, HMED, etc.) to meet elective liberal core requirements do not cause problems for teacher
licensure in the state of Tennessee. However, if seeking licensure in a different state, it is possible that some states will not recognize such courses as liberal arts courses.

**English 1100 requirement:**

English 1100 is required unless students have satisfied one of the following:

1. SAT
   a. Reading score of at least 27
   b. Writing and Language score of at least 28
   c. Evidence-Based Reading and Writing score of at least 660
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above
3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree.

*Academic credit is not awarded for SAT or ACT test scores.*

**Writing Requirement:**

All first-year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

SPEDS 3667 or SPEDH 3777, taken in fall semester of the Senior year count as the second W course.

*Note:* First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First Year Seminars when open registration begins after the initial registration period has ended.

**COMPREHENSIVE EXAM**

High Incidence Exam
Required Steps for Obtaining Licensure in Special Education

It is a Tennessee licensure requirement that all students seeking initial teacher licensure at the bachelor’s degree level must demonstrate proficiency in reading comprehension, language arts, and mathematics. Students who apply for admission to a teacher education program (Screening I) must meet this requirement by either: (1) attaining an SAT > 1020 or ACT > 22, or (2) passing the PRAXIS I tests before the departments can review their applications. Application materials for the PRAXIS I tests are available online at www.ets.org/praxis.

Students should be aware that attaining the minimum scores does not guarantee admission to Vanderbilt’s teacher education programs. Minimum scores set by the state for PRAXIS I tests are as follows: Math – 150; Reading – 156; Writing – 162.

SECURITY CLEARANCE REQUIREMENT

As of the start of Fall Semester, 2017, all students matriculating into Peabody College must have security clearance. In addition, all students from any Vanderbilt school must have security clearance if they take any Peabody course involving interaction with minors or other vulnerable populations, or if they engage in Peabody research or Peabody programs/related activities that require security clearance. Obtaining this security clearance involves being fingerprinted through an external agency for a criminal background check by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation. Students are responsible for paying the fees for this process. Students must complete the fingerprinting that starts the clearance process no later than the end of the first two weeks of the semester in which the fingerprinting becomes required. Detailed instructions for completing the security clearance process can be found on the Peabody Background Clearance Office website: http://peabody.vanderbilt.edu/admin-offices/bco/index.php. Vanderbilt students may not participate in any Peabody College-related activities involving PreK-12 students or vulnerable adults until their background clearance is finalized at Peabody.

ADMISSION TO THE TEACHER EDUCATION PROGRAM (Screening I)

Each student seeking teacher licensure must be formally admitted into the teacher education program (Screening I) for review by the faculty of the department(s) in which endorsement(s) is/are sought. Candidates normally apply for Screening I during the fall of the junior year (candidates should consult their Program Director for timelines in their program area). Deadlines are February 1 in the spring and October 1 in the fall. Students who transfer more than 24 hours to Vanderbilt from another institution must apply for admission into the teacher education program by the screening deadline of their second semester at Vanderbilt.

Deadlines to apply for admission into the teacher education program each semester are:

October 1st and February 1st (Note: If either of these dates fall on a weekend, the deadline will be moved to the following Monday.)

Students MUST apply for Screening I at least one semester prior to completing Screening II (discussed in the next section).

The online application is at http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_for_undergraduate_students/screening.php. It is the student’s responsibility to complete the application by the deadline, which is enforced. After an initial review in the Office of
Teacher Licensure, eligible applications will be forwarded to the appropriate department(s) for faculty review and vote. During the initial Screening I meeting, the faculty will review materials submitted by each applicant as well as discuss each applicant’s performance and participation in coursework and field work. During this initial meeting concerns raised by the faculty will be documented and shared directly with the student(s) concerned. This will enable the student time address the concerns raised throughout the semester. The final vote by faculty regarding a Screening I application will be taken at the end of the semester in which the student applies for Screening I. Students will be notified of the results of the final departmental vote.

Criteria for formal admission to teacher education (Screening I) are:

A. Specific Criteria (*subject to change based on revision to state licensure guidelines; Teacher candidates will be informed of any changes)

1) 1020 SAT (combined verbal and math) or 22 ACT (Composite Score) (or passing scores on the PRAXIS I tests)

2) A minimum cumulative grade point average of 3.00.

3) Successful completion of EDUC 1220, SPED 1210, and each professional education course with a minimum grade of C+.

B. Specific Faculty Evaluation Criteria

These criteria rest on the professional judgment of faculty members. Whether a student meets them or not is determined by a vote of appropriate faculty.

1) Endorsement by the appropriate faculty that the applicant has demonstrated that he/she possesses the academic qualifications expected of Vanderbilt teacher education candidates in areas in which teacher licensure is sought.*

2) Endorsement by the appropriate faculty that the applicant has demonstrated that he/she possesses the personal and character traits expected of Vanderbilt teacher education candidates in the areas in which teacher licensure is sought.*

Students should be aware that departmental reviews are important steps in the screening process and that admission to the teacher education program and student teaching are not automatic with the attainment of a certain minimum grade point average and the completion of required courses. In the evaluation of a candidate’s suitability for teaching, faculty members take into consideration such things as:

1. Dependability (as evidenced by good attendance in classes and practica, as well as the completion of required assignments and procedures on time)
2. Professional and ethical behavior (honesty, acceptance of responsibility, emotional maturity, etc.).
3. Attitude and interpersonal skills (including the ability to work with children and peers).
4. Academic competence. It is possible for a student to meet minimum grade point requirements and pass all courses and still have specific academic weaknesses which might cause denial of admission.
In order to help Department of Special Education faculty to make these evaluations, Screening I applicants must meet with faculty and individuals from local schools/agencies for a brief interview. Following the interview, faculty will submit a form directly to Professor Andrea Capizzi, Director of Undergraduate Studies.

During the Screening I meeting, Department of Special Education faculty will review materials submitted for each applicant as well as discuss each applicant’s performance and participation in course work and field work. Students will be notified in writing of the results of the departmental vote. In instances where there is a negative decision, a student wishing to appeal must do so in writing to the chairperson of the department denying the application. If the initial decision is upheld and the student wishes to continue the appeal. A written petition should be filed with the Undergraduate Administrative Committee of Peabody College.

**FIRST AID AND CPR REQUIREMENT**

To meet state standards, each licensure student must complete first aid and CPR training as a prerequisite to applying for Screening II (admission to student teaching). Training must have been completed no more than two years previous to completion of the SPED licensure program. Information is detailed at [http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/index.php](http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/index.php) . A copy of both first aid and CPR cards must be submitted in the Office of Teacher Licensure prior to or during the Screening II online application process.

**ADMISSION INTO STUDENT TEACHING AND REQUESTING A STUDENT TEACHING PLACEMENT (SCREENING II)**

The semester prior to the one in which a student plans to student teach, he/she must apply for student teaching (Screening II) and request student teaching placements. The student should be enrolled in any remaining required prerequisite courses. The deadlines to apply are October 1st and February 1st. (Note: if either of these dates falls on a weekend the deadline is moved to the following Monday.) Late applications will not be accepted. The screening application form is at [http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_for_undergraduate_students/screening.php](http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_for_undergraduate_students/screening.php) . The applications will be processed in the Office of Teacher Licensure, and if eligible, forwarded to the appropriate faculty for review and vote. It is the student’s responsibility to complete the application at the appropriate time.

**Students must apply for Screening I at least one semester prior to completing Screening II.**

The criteria that must be met for a student to be admitted into student teaching are as follows:

1) Admission to a teacher education program (passing of Screening I)

2) At least second semester junior standing

3) Successful completion (C+ or above) in each professional education course prerequisite to student teaching

4) A minimum cumulative grade point average of at least 3.00

5) First Aid and CPR cards copied & submitted before or with Screening II application
6) Satisfactory performance (C+ or above) in course work in areas in which teacher licensure is sought (any secondary education major who receives a grade lower than a C in the second major MUST meet with his/her academic adviser in the Department of Teaching and Learning to discuss implications for Screening II)

7) Approval by the appropriate faculty. (A student seeking a secondary education endorsement must be approved also by the Department of Teaching and Learning and the College of Arts and Science faculty in the department in which the student majors and seeks a second endorsement.)

Students should be aware that departmental reviews are important steps in the screening process and that admission to the teacher education program and student teaching are not automatic with the attainment of a certain minimum grade point average and the completion of required courses. In the evaluation of a candidate’s suitability for teaching, faculty members take into consideration such things as:

1) **Dependability** (as evidenced by good attendance in classes and practica and the completion of required assignments and procedures on time)

2) **Professional and ethical behavior** (honesty, acceptance of responsibility, emotional maturity, etc.)

3) **Attitude and interpersonal skills** (including the ability to work with children and peers)

4) **Academic competence.** It is possible for a student to meet minimum grade point requirements and pass all courses and still have specific academic weaknesses that might cause denial of admission. Students seeking licensure must be approved by each department through which licensure is sought. Secondary licensure candidates should contact an adviser or the Director of Undergraduate Studies in the appropriate Arts and Science department to be informed of any specific departmental requirements or standards above the minimum requirements for licensure in that major.

Each Screening II application must be accompanied by additional documents. Faculty in the Department of Special Education require that the following materials be submitted electronically directly to TaskStream at the time of submitting the Screening II application.

1) Professional resume

2) Philosophy of Teaching Statement

In addition, a copy of first aid and CPR cards should be submitted to amanda.vandoorn@Vanderbilt.Edu

During the Screening II meeting, faculty in the Department of Special Education review materials submitted by each applicant, discuss each applicant’s performance and participation in course work and practica, and discuss the type of student teaching placements most appropriate for each applicant given his/her prior experience. Students who are approved to student teach will receive notification of their student teaching placements no later than during the Student Teacher Orientation at the beginning of the student teaching semester. There also is a required one-hour orientation with the Office of Teacher Licensure prior to the end of the Screening II semester.
Students who have passed Screening II are assigned two student teaching placements in the Nashville area.

**TEACHER EDUCATION EXPENSES**

Candidates in our Teacher Preparation Program are responsible for the following estimated additional expenses:

*Candidates who are seeking dual endorsements with through Teaching and Learning (i.e., double majoring in Early Childhood Education or Elementary Education) will have additional fees associated with their second major.

**TaskStream**

Peabody Teacher Education Candidates are required to purchase a subscription to TaskStream. TaskStream is a web-based software company that will allow candidates to upload key assessments throughout their program. All candidates in Special Education programs are required to subscribe to TaskStream. Data from key assessments and field-based evaluations will be used to document candidate performance across their program and to make program-wide improvements. All key assessment assignments will be labeled as “key assessment” on the course syllabus. Failure to upload a key assessment will result in an incomplete in the course. All key assessments must be uploaded no later than the last day of class.

**STUDENT TEACHING**

Students who have passed Screening II to student teach the next semester must register for 12 semester hours of credit (9 hours of student teaching and 3 hours of seminar). State and district policy prohibits student teachers from taking any additional hours during the student teaching semester. **NO OTHER HOURS OR COURSES MAY BE TAKEN WITH STUDENT TEACHING.**

The 15 weeks of full-time student teaching will be divided into two placements. These placements will be based on each student’s major(s) or area(s) of concentration. Required orientations during the student teaching semester are scheduled by the particular program director. Observance of holidays during fall or spring semesters of student teaching is done according to the calendar of the school district where student teaching is performed. This means that the student teacher’s holidays may not coincide with those recognized at Vanderbilt during the student teaching semester. The VU Director of Residential and Judicial Affairs may be of assistance if there are anticipated housing complications during the student teaching semester.

One of the most important benefits to successful student teaching is the weekly supervision and visit from a Peabody supervisor during the student teaching semester. This design for supervision and frequent communication about student teaching performance requires that student teaching placements are within
the Nashville area. During the 15-week student teaching semester, students travel daily to their student teaching site and once a week return to Peabody to participate in an afternoon seminar.

To be eligible for a teaching license in Tennessee and other states, a graduate must earn a positive recommendation from the University. The University's recommendation of a candidate is based upon the following:

1) Maintaining the grade point average required for admission to teacher education (3.0 on a 4.0 scale)

2) Conferral of the bachelor’s degree

3) Achieving at least the minimum required scores on the PRAXIS II examinations. **The student must have official score reports sent by ETS to Vanderbilt (code 1871).** Testing requirements change frequently; check instructions in the Office of Teacher Licensure before registering to take PRAXIS exams.

4) Receiving positive recommendation from the department(s) of the education major(s) by the faculty as a result of the student teaching experience. (A “Pass” for student teaching does not guarantee a favorable recommendation.)

5) Completing an exit meeting with the Director of Teacher Licensure, including completion of required forms for transcripts and licensure application.

6) First aid and CPR certification done within two years prior to licensure recommendation.

Vanderbilt is accredited by the Southern Association of Colleges and Schools (SACS) and the Council for the Accreditation of Educator Preparation (CAEP). Our teacher education programs also are approved by the Tennessee Department of Education and by national professional organizations corresponding with endorsement programs we offer—such as the Council on Exceptional Children (CEC).

**APPLICATION FOR LICENSURE AND UNIVERSITY RECOMMENDATION FOR LICENSURE**

All students completing a teacher education program at Vanderbilt are strongly advised to apply for a teaching license in Tennessee whether or not they plan to teach in this state. In addition, licensure can be obtained in other states. Students should be aware that each state has its own set of requirements and that our program requirements are designed to ensure eligibility of a teaching license in Tennessee. While Tennessee maintains interstate agreements with forty states, states do have different requirements which change frequently. Please pay specific attention to whether the state in which you would like a license will accept pass/fail grades. If you anticipate wanting to teach in a state other than Tennessee please look at the Office of Teacher Licensure page regarding licensure in other states: [http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_in_other_states.php](http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_in_other_states.php). Please also be sure to consult with your adviser and the Office of Teacher Licensure. The student is responsible for applying for licensure through the Peabody Office of Teacher Licensure. A required exit meeting to complete licensure application forms for Tennessee is scheduled for Monday evening the last week of student teaching.

**EdTPA**

All students seeking Tennessee initial licensure are required to complete the requirements of the EdTPA. This will be completed during student teaching and will be submitted for scoring prior to completion of student teaching. Registration information will be discussed during student teaching seminar. Information may be found at [http://edtpa.aacte.org](http://edtpa.aacte.org). A qualifying score of 42 is required for Tennessee state licensure...
(score of 37 prior to December 31, 2018). More information on the edTPA can be found at

PRAXIS EXAMS (Vanderbilt Recipient Code is 1871)

All students seeking Tennessee initial teacher licensure must pass required examinations. See the list of
required tests for Tennessee at https://www.ets.org/praxis/tn/requirements. Students are required to take
multiple tests, depending on their endorsement. Registration and scheduling information may be found at
www.ets.org/praxis. It is recommended that, for May graduation, all PRAXIS II testing is completed
before the student teaching semester so that scores will arrive at Vanderbilt prior to commencement,
allowing the licensure recommendation to be made to state offices as soon as the degree is conferred.
Delaying testing causes delay in licensure recommendation, which may cause delays in a graduate’s
eligibility to sign a contract for a teaching position in Tennessee or other states.

Because testing requirements change irregularly and frequently, check with the Office of Teacher
Licensure prior to registering for EdTPA and PRAXIS exams. Although passing PRAXIS II and
EdTPA exams for licensure is not a graduation requirement, it is required for licensure in Tennessee.
Even if a student does not plan to teach in Tennessee, having a Tennessee teaching license serves as a
basis upon which applications for licensure can be made in other states where a student is interested in
teaching. Vanderbilt does not require that PRAXIS II exams are prerequisite to entering student teaching;
however, it is recommended that students register for all required tests at the beginning of the senior year
to ensure a seat at the preferred testing center and to request financial aid, if desired, from ETS to cover
part of the testing fees. Testing early also allows for time to retake any tests, if necessary, and still have
passing scores reported prior to graduation. For most endorsements (i.e., elementary, English, Special
Education), testing must be done on at least two test dates because there are too many tests to take on
only one test date. Most students begin testing prior to the student teaching semester and finish testing
during student teaching. Required tests for Tennessee licensure, test dates and registration deadlines
are detailed at http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/index.php.

Peabody’s Education Majors

For over a century, Peabody’s programs in teacher education have been recognized nationally. The programs differ from that of other schools of education not only because of the excellent quality of course work and multiple practicum experiences, but also because of the well-planned and carefully selected student teaching placements. In addition, nearly every faculty member currently is researching the teaching and learning of children, yielding new information and opportunities to practice newly researched methods of working with children of every need and ability. Peabody faculty members are noted nationally for their expertise and frequent contributions to national publications and professional meetings as well as consulting roles with government agencies in the field of education.

Majors that can lead to a bachelor’s degree and teacher licensure in four years are available in:

- Early Childhood and Elementary Education
  - Early Childhood Specialization (children in preschool through grade 3)
  - Elementary Education Specialization (children in kindergarten through grade 5)
- Secondary Education (adolescents in grades 6-12)

If programs are carefully planned beginning with the freshman year, all requirements can be met within the usual four-year undergraduate program. In some cases, particularly when a student enters teacher education after the first semester of the freshman year, additional coursework beyond what is normally done within four years may be required.

Most students who enter teacher education at Peabody have worked with children as camp counselors, team coaches, swimming teachers, or volunteers (although such prior experience is not mandatory). Because of the many opportunities to visit schools to observe and have limited participation during some education courses and practica, students gain early insights into the profession of teaching. For those students who complete the program and are licensed in Tennessee, teaching can be possible by interstate contractual agreement in most other states and overseas. Teachers who have graduated from Peabody can be found all over the world teaching children of all ages and abilities, nationalities, religions, socio-economic conditions, and cultures in careers ranging from preschool teachers to school superintendents and state and national officials.

Required Steps for Obtaining Licensure in Early Childhood, Elementary, or Secondary Education

BASIC SKILLS REQUIREMENT (PRAXIS I: Core Academic Skills for Educators)

It is a Tennessee licensure requirement that all students seeking initial teacher licensure at the bachelor’s degree level must demonstrate proficiency in reading comprehension, language arts, and mathematics. Students who apply for admission to a teacher education program (Screening I) must meet this requirement by either (1) attaining an SAT > 1020 or ACT > 21, or (2) passing the PRAXIS I tests before the departments can review their applications. Application materials for the PRAXIS I tests are available on line at www.ets.org/praxis.

Students should be aware that attaining the minimum scores does not guarantee admission to Vanderbilt’s teacher education programs. Minimum scores set by the state for PRAXIS I tests are as follows:

- Computer Delivered Core Academic Skills for Educators Tests
  - Reading - 156
  - Writing - 162
  - Mathematics - 150

SECURITY CLEARANCE REQUIREMENT

As of the start of Fall Semester, 2017, all students matriculating into Peabody College must have security clearance. In addition, all students from any Vanderbilt school must have security clearance if they take any Peabody course involving interaction with minors or other vulnerable populations, or if they engage in Peabody research or Peabody programs/related activities that require security clearance. Obtaining this security clearance involves being fingerprinted through an external agency for a criminal background check by the Tennessee Bureau of Investigation and the Federal Bureau of Investigation. Students are responsible for paying the fees for this process. Students must complete the fingerprinting that starts the clearance process no later than the end of the first two weeks of the semester in which the fingerprinting becomes required. Detailed instructions for completing the security clearance process can be found on the Peabody Background Clearance Office website: http://peabody.vanderbilt.edu/admin-offices/bco/index.php. Vanderbilt students may not participate in any Peabody College-related activities involving PreK-12 students or vulnerable adults until their background clearance is finalized at Peabody.

ADMISSION TO THE TEACHER EDUCATION PROGRAM (Screening I)

Each student seeking teacher licensure must be admitted into the teacher education program (Screening I) of the department he/she wishes to enter.

Elementary and Early Childhood Education: The online applications must be submitted before the February 1st screening deadline during the spring semester of the sophomore year. However, with consent of the student’s faculty adviser, application for admission into teacher education may be made as late as October 1st of the first semester of the junior year. Students who transfer more than 24 hours to Vanderbilt from another institution must apply for admission into the teacher education program by the screening deadline of their second semester at Vanderbilt.
 Secondary Education: Students should apply for Screening I in the semester immediately after they complete the sophomore practicum (EDUC3871). They must declare a second major before applying for Screening I.

Deadlines to apply for admission into the teacher education program each semester are October 1st and February 1st (Note: If either of these dates fall on a weekend, the deadline is moved to the following Monday).

Students MUST apply for Screening I at least one semester prior to completing Screening II (discussed in the next section).

The online application is at [http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_for_undergraduate_students/screening.php](http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_for_undergraduate_students/screening.php). It is the student’s responsibility to complete the application by the deadline, which is enforced. After an initial review in the Office of Teacher Licensure, eligible applications will be forwarded to the appropriate department(s) for faculty review and vote. During the initial Screening I meeting, the faculty will review materials submitted by each applicant as well as discuss each applicant’s performance and participation in coursework and field work. During this initial meeting concerns raised by the faculty will be documented and shared directly with the student(s) concerned. This will enable the student time to address the concerns raised throughout the semester. The final vote by faculty regarding a Screening I application will be taken at the end of the semester in which the student applies for Screening I. Students will be notified of the results of the final departmental vote. Criteria for formal admission to teacher education (Screening I) are:

**A. Specific Criteria**

1) 1020 SAT or 21 ACT (or passing scores on the PRAXIS I tests)
2) A minimum cumulative grade point average of 2.75 on the 4.0 system.
3) Successful completion of EDUC 1220 and SPED 1210 with a minimum grade of C+ in each professional education course.

**B. Specific Faculty Evaluation Criteria**

These criteria rest on the professional judgment of faculty members. Whether a student meets them or not is determined by a vote of appropriate faculty.

1) Endorsement by the appropriate faculty that the applicant has demonstrated that he/she possesses the academic qualifications expected of Vanderbilt teacher education candidates in areas in which teacher licensure is sought.*
2) Endorsement by the appropriate faculty that the applicant has demonstrated that he/she possesses the personal and character traits expected of Vanderbilt teacher education candidates in the areas in which teacher licensure is sought.*

*An undergraduate student seeking secondary education endorsement must be approved by the Peabody Department of Teaching and Learning and will also be reviewed by the faculty of the College of Arts and Science department in which the student majors for the secondary education endorsement.

Students should be aware that departmental reviews are important steps in the screening process and that admission to the teacher education program and student teaching are not automatic with the attainment of a certain minimum grade point average and the completion of required courses. In the evaluation of a candidate’s suitability for teaching, faculty members take into consideration such things as:

1) Dependability (as evidenced by good attendance in classes and practica, as well as the completion of required assignments and procedures on time)
2) Professional and ethical behavior (honesty, acceptance of professional responsibility, emotional maturity, etc.)
3) Attitude and interpersonal skills (including the ability to work with children and to collaborate with peers as well as intellectual curiosity and a disposition for reflection and self-critique).

4) Academic competence. It is possible for a student to meet minimum grade point requirements, pass all courses, and still have specific academic weaknesses which might cause denial of admission.

**Students seeking teacher licensure must be approved by each department through which licensure is sought.** Secondary licensure candidates should contact an adviser or the Director of Undergraduate Studies in the appropriate Arts and Science department(s), to be informed of any specific departmental requirements or standards beyond the minimum requirements for licensure.

In order to help Department of Teaching and Learning faculty to make these evaluations, Screening I applicants must meet with faculty and individuals from local schools/agencies for a brief interview/review. Following the interview, faculty will submit a form directly to the appropriate program director.

During the Screening I meeting, Department of Teaching and Learning faculty will review materials submitted for each applicant as well as discuss each applicant’s performance and participation in course work and field work. Students will be notified in writing of the results of the departmental vote. In instances where there is a negative decision, a student wishing to appeal must do so in writing to the chairperson of the department denying the application. If the initial decision is upheld and the student wishes to continue the appeal, a written petition should be filed with the Undergraduate Administrative Committee of Peabody College.

**ADMISSION INTO STUDENT TEACHING AND REQUESTING A STUDENT TEACHING PLACEMENT (SCREENING II)**

**FIRST AID AND CPR REQUIREMENT**

To meet state standards, each licensure student must complete first aid and CPR training as a prerequisite to applying for Screening II (admission to student teaching). Information is detailed at [http://peabody.vanderbilt.edu/licensure](http://peabody.vanderbilt.edu/licensure). A copy of both first aid and CPR cards must be attached to the Screening II online application.

The semester prior to the one in which a student plans to student teach, he/she must apply for student teaching (Screening II) and request student teaching placements. The student should be enrolled in any remaining required prerequisite courses.

**The deadlines to apply are October 1st and February 1st (Note: if either of these dates falls on a weekend the deadline is moved to the following Monday).**

The screening application form is at [http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/screening/](http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/screening/). The applications will be processed in the Office of Teacher Licensure, and if eligible, forwarded to the appropriate faculty for review and vote. It is the student’s responsibility to complete the application at the appropriate time.

The criteria that must be met for a student to be admitted into student teaching are as follows:

1) Admission to a teacher education program (passing of Screening I)

2) At least second semester junior standing

3) Successful completion (C+ or above) in each professional education course prerequisite to student teaching

4) A minimum cumulative grade point average of 2.75 (4.0 scale)

5) First aid and CPR cards submitted with Screening II application
6) Satisfactory performance (C+ or above) in course work in areas in which teacher licensure is sought (any secondary education major who receives a grade lower than a C in the second major MUST meet with his/her academic adviser in the Department of Teaching and Learning to discuss implications for Screening II)

7) Approval by the appropriate faculty. (A student seeking a secondary education endorsement must be approved by the Department of Teaching and Learning and is also reviewed by the College of Arts and Science faculty in the department in which the student majors and seeks a second endorsement.)

Students should be aware that departmental reviews are important steps in the screening process and that admission to the teacher education program and student teaching are not automatic with the attainment of a certain minimum grade point average and the completion of required courses. In the evaluation of a candidate’s suitability for teaching, faculty members take into consideration such things as:

1) **Dependability** (as evidenced by good attendance in classes and practica, as well as the completion of required assignments and procedures on time)

2) **Professional and ethical behavior** (honesty, acceptance of professional responsibility, emotional maturity, etc.)

3) **Attitude and interpersonal skills** (including the ability to work with children and to collaborate with peers as well as intellectual curiosity and a disposition for reflection and self-critique).

4) **Academic competence.** It is possible for a student to meet minimum grade point requirements and pass all courses and still have specific academic weaknesses which might cause denial of admission.

Each Screening II application must be accompanied by additional documents. Faculty in the Department of Teaching and Learning require that the following materials be submitted electronically with the Screening II application to: Allison Avalon – Allison.l.avalon@vanderbilt.edu.

**NOTE that Secondary Education does not want a resume for Screening II (we’ll get a resume earlier before making placements in practica in the fall semester and we ask for a Letter of Introduction to Parents/Guardians—not a philosophy or teaching statement).**

1) Professional resume
2) Copy of first aid and CPR cards
3) Parent Introduction Letter (Secondary only)
4) Statement (addendum) articulating why the student wants to teach (Early Childhood only)

During the Screening II meeting, faculty in the Department of Teaching and Learning review materials submitted by each applicant, discuss each applicant’s performance and participation in course work and practica, and discuss the type of student teaching placements most appropriate for each applicant given his/her prior experience. Students who are approved to student teach will receive notification of their student teaching placements no later than during the Student Teacher Orientation (Monday before Vanderbilt classes begin on Wednesday for the student teaching semester).

Students who have passed Screening II are assigned two student teaching placements in the Nashville area.

**STUDENT TEACHING**

Students who have passed Screening II to student teach the next semester must register for 12 semester hours of credit (9 hours of student teaching and 3 hours of seminar). State and district
policy prohibits student teachers from taking any additional hours during the student teaching semester. **NO OTHER HOURS OR COURSES MAY BE TAKEN WITH STUDENT TEACHING.**

The 15 weeks of full-time student teaching will be divided into two placements. These placements will be based on each student’s major(s) or area(s) of concentration. Required orientations during the student teaching semester are scheduled by the particular program director. Observance of holidays during fall or spring semesters of student teaching is done according to the calendar of the school district where student teaching is performed. This means that the student teacher’s holidays may not coincide with those recognized at Vanderbilt during the student teaching semester. The VU Director of Residential and Judicial Affairs may be of assistance if there are anticipated housing complications during the student teaching semester.

One of the most important benefits to successful student teaching is the weekly supervision and visit from a Peabody supervisor during the student teaching semester. This design for supervision and frequent communication about student teaching performance requires that student teaching placements are within the Nashville area. During the 15-week student teaching semester, students travel daily to their student teaching site and once a week return to Peabody to participate in an afternoon seminar.

To be eligible for a teaching license in Tennessee and other states, a graduate must earn a positive recommendation from the University. The University’s recommendation of a candidate is based upon the following:

1) Maintaining the grade point average required for admission to teacher education (2.75 on a 4.0 scale)
2) Conferral of the bachelor’s degree
3) Achieving at least the minimum required scores on the PRAXIS II examinations. The student must have official score reports sent by ETS to Vanderbilt (code 1871). Testing requirements change frequently; check instructions in the Office of Teacher Licensure before registering to take PRAXIS exams.
4) Receiving positive recommendation from the department(s) of the education major(s) by the faculty as a result of the student teaching experience. (A “Pass” for student teaching does not guarantee a favorable recommendation.)
5) Completing an exit meeting with the Director of Teacher Licensure, including completion of required forms for transcripts and licensure application.
6) First aid and CPR certification done within two years prior to licensure recommendation.

Vanderbilt is accredited by the Southern Association of Colleges and Schools (SACS) and the National Council for Accreditation of Teacher Education (NCATE). Our teacher education programs also are approved by the Tennessee Department of Education. Some also are approved by national professional organizations corresponding with endorsement programs we offer—such as the National Council of Teachers of English (NCTE).
APPLICATION FOR LICENSURE AND UNIVERSITY RECOMMENDATION FOR LICENSURE

All students completing a teacher education program at Vanderbilt are strongly advised to apply for a teaching license in Tennessee whether or not they plan to teach in this state. In addition, licensure can be obtained in other states. Students should be aware that each state has its own set of requirements and that our program requirements are designed to ensure eligibility of a teaching license in Tennessee. While Tennessee maintains interstate agreements with forty-nine states, states may impose additional requirements. Please pay specific attention to whether the state you would like a license in will accept pass/fail grades. If you anticipate wanting to teach in a state other than Tennessee please look at the Office of Teacher Licensure page regarding licensure in other states: http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/licensure_in_other_states.php. Please also be sure to consult with your adviser and the Office of Teacher Licensure. The student is responsible for applying for TN licensure through the Peabody Office of Teacher Licensure. A required exit meeting to complete licensure application forms for Tennessee is scheduled for Monday evening the last week of student teaching.

PRAXIS EXAMS (Vanderbilt Recipient Code is 1871)

All students seeking Tennessee initial teacher licensure must pass required examinations. See the list of required tests for Tennessee at https://www.ets.org/praxis/tn/requirements. Students are required to take multiple tests, depending on their endorsement. Go to www.ets.org/praxis to register for the PRAXIS II exams, see testing scheduling options, information about each test, and other information about testing.

Because testing requirements change irregularly and frequently, check with the Office of Teacher Licensure prior to registering for PRAXIS exams. Although passing PRAXIS II exams for licensure is not a graduation requirement, it is required for licensure in Tennessee. Even if a student does not plan to teach in Tennessee, having a Tennessee teaching license serves as a basis upon which applications for licensure can be made in other states where a student is interested in teaching. Vanderbilt does not require that passing PRAXIS II exams is prerequisite to entering student teaching; however, it is recommended that students register for all required tests at the beginning of the senior year to ensure a seat at the preferred testing center and to request financial aid, if desired, from ETS to cover part of the testing fees. Testing early also allows for time to retake any tests, if necessary, and still have passing scores reported prior to graduation. For most endorsements (i.e., elementary, English, Special Education), testing must be done on at least two test dates because there are too many tests to take on only one test date. Most students begin testing prior to the student teaching semester and finish testing during student teaching. Required tests for Tennessee licensure, test dates and registration deadlines are detailed at http://peabody.vanderbilt.edu/admin-offices/teacher-licensure/index.php.

It is recommended that, for May graduation, all PRAXIS II testing is completed by March so that scores will arrive at Vanderbilt just prior to commencement, allowing the licensure recommendation to be made to state offices as soon as the degree is conferred. Delaying testing later than March causes delay in licensure recommendation, which may cause delays in a graduate’s eligibility to sign a contract for a teaching position in Tennessee or other states.

EDUCATIONAL STUDIES
Department of Teaching and Learning

B.S. Degree Requirements Education Studies

Students must take a minimum of 120 hours, distributed as follows:

**Liberal Education Core Requirements. Minimum 60 hours.**

The Liberal Education Core is composed of required course work from the areas of Communications, Humanities, Mathematics, Science, Cultural Studies, Social Science and Electives. Listings of all courses that may fulfill these areas can be found later in this section.

**Writing Requirement**

All Peabody College freshmen who have not earned a combined score of 660 on the evidence-based reading and writing component of the redesigned SAT with minimum scores of 27 on the reading component and 28 on the writing and language component, or ACT English test score of 27 or above and a minimum writing score of 7 or above, or AP or IB English scores above 4 and 6 respectively, are required to successfully complete English 1100. Regardless of AP or IB credits, all freshmen must successfully complete one writing-intensive course before their fourth semester. Writing-intensive courses either have a “W” after the course number (A&S courses) or end with the digit “7” (Peabody courses). In addition, before graduation, all students must successfully complete a second writing course.

**Learning and Equity in Diverse Contexts Specialization**

Learning and Equity in Diverse Contexts is focused on the interaction of learning, design and context in out-of-school settings, attracting students who are interested in learning in informal settings. This specialization is appropriate for students who envision themselves working and learning with students out of traditional classroom settings.

Note: Students may enroll in this specialization after matriculation to the University but may not be admitted directly into this program. Educational Studies can serve as a student’s first or second major, but must be a third major or minor if combined with a licensure program. Students must use the Change of Major/Minor Declaration/Change form to declare Educational Studies as their first, second, or third major.

**Liberal Core Elective (17 hours):**

Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet liberal education core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable to meet Liberal Education Core requirements.

Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement areas. Exception: Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.
**English 1100 requirement:**

English 1100 is required unless students have satisfied one of the following:

1. SAT
   a. Reading score of at least 27
   b. Writing and Language score of at least 28
   c. Evidence-Based Reading and Writing score of at least 660
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above
3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree.
*Academic credit is not awarded for SAT or ACT test scores.

**Writing Requirement:**

All first year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

**Note:** First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First Year Seminars when open registration begins after the initial registration period has ended.
EARLY CHILDHOOD AND ELEMENTARY EDUCATION
Department of Teaching and Learning

Early Childhood Education (PreK-3 licensure)
The early childhood education major is designed to prepare students for work with children in preschool programs and primary grades.

Elementary Education (K-5 licensure)
The elementary education major is designed to prepare students for work with children in grades K-5.

Both the early childhood and elementary education programs focus on children’s developmental thinking and reasoning as foundational understandings that inform the development of ambitious pedagogical practices. Beginning in the freshman year, students observe and participate in a variety of educational activities in local schools, public agencies, and experimental schools on campus.

All early childhood and elementary education majors must complete Liberal Education Core requirements, the Early Childhood or Elementary Education Major, and a second non-education major. The non-education major can be any non-licensure major within Peabody College of the College of Arts and Science. Typical second majors choices include the following:

Peabody College Interdisciplinary Majors
- Child Studies
- Language and Literacy Studies
- Math/Science Studies
- Natural Science Studies
- Second Language Studies
- Social Studies
- 

Peabody College Single Discipline
- Child Development
- Cognitive Studies
- Disability Studies
- Human and Organizational Development

College of Arts and Science
- Any major offered by the College

A description and listing of required courses for each of the Peabody majors are found later in this manual. College of Arts and Science major requirements are listed in the Undergraduate Bulletin.

State regulations governing licensure require Liberal Education Core courses beyond the 44 semester hours specified for a Peabody Degree. Thus the program of studies for Early Childhood and Elementary Education Majors requires a minimum of 60 hours of Liberal Education Core courses. In most cases coursework from the second non-education major also counts as Liberal Course courses.

Both the Early Childhood and Elementary Majors are intentionally sequenced where early program experiences lay the foundation for later experiences and later experiences build upon earlier experiences. This is especially true for the method blocks with field experiences that must be completed in a particular sequence. When planning experiences like a semester for studying abroad, it is essential that the student plan with the required sequence of methods courses and practica in
mind otherwise graduation with licensure in 8 semesters cannot be guaranteed. A schedule plan is included to assist students in mapping out their course of study.

A program of studies worksheet is provided at the end of this section. This, along with the degree audit helps the students track progress toward their degree.

NOTE: Vanderbilt students seeking Tennessee teacher licensure must apply for licensure though the Vanderbilt Office of Teacher Licensure and must meet licensure requirements in effect at the time of their graduation – which may be different from those in effect at the time they entered Vanderbilt. Requirements are currently undergoing change. Teacher licensure candidates are urged to consult the current Vanderbilt Undergraduate Catalog and/or materials published and information provided by the Vanderbilt Office of Teacher Licensure each year to keep abreast of possible changes in Tennessee requirements. Students should be aware that requirements may change after publications of the Handbook and should be alert to notices or reminders (including emails) sent from advisors, Program Directors, or from the Office of Teacher Licensure.

WARNING: Because seeking licensure in Early Childhood Education or Elementary Education often requires more than the 120 hours need for graduation, students must begin their second major no later than the fall semester of the sophomore year. Students need to plan to take more than the normal 15 hours each semester and/or plan to attend summer school in order to graduate within 4 years.

Liberal Core Elective (17 hours):
  Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet liberal education core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable to meet Liberal Education Core requirements.

Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement areas. Exception: Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.
English 1100 requirement:

English 1100 is required unless students have satisfied one of the following:

1. SAT
   a. Reading score of at least 27
   b. Writing and Language score of at least 28
   c. Evidence-Based Reading and Writing score of at least 660
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above
3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree. *Academic credit is not awarded for SAT or ACT test scores.*

Writing Requirement:

All first year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

*Note:* First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody freshmen may only register for First Year Seminars when open registration begins after the initial registration period has ended.

*Using courses with the subject area “EDUC” or ending in __ED (e.g., ENED, SCED, MTED, HMED, etc.) to meet elective liberal core requirements do not cause problems for teacher licensure in the state of Tennessee. However, if seeking licensure in a different state, it is possible that some states will not recognize such courses as liberal arts courses.*
Early Childhood Education (PreK-3) Schedule for Coursework

General Planning Notes:
1. Developmental Psychology PSY 1250 should be taken during the First Year.
2. EDUC 3212 MUST be taken before either of the methods blocks;
3. The Mathematics and Science and Social Studies Blocks are taken before the literacy block;
4. The Language and Literacy Block (EDUC 3114, EDUC 3115, and EDUC 3116) is the final block prior to student teaching.

The chart below will help the student map out an appropriate course of study. Courses identified by number indicate a preferred semester for completion (they are prerequisite for other classes or are only offered once a year). Check your degree audit frequently to monitor progress toward the degree as **NOT ALL** ECE requirements are listed below.

Elementary Education (K-5) Schedule for Coursework

General Planning Notes:
1. Developmental Psychology PSY 1250 should be taken during the First Year.
2. EDUC 3212 should be taken before any of the methods blocks. If needed EDUC 3212 can be taken concurrently with the Science and Social Studies Block or the MTED 3251 practicum.
3. The Language and Literacy Block (EDUC 3214, EDUC 3215, and EDUC 3216) is the final block prior to student teaching; and
4. Student teaching (EDUC 4952 and EDUC 4962 can be taken in either the fall or spring semester of the senior year.

Note: Many second major courses may also count in the Liberal Education Core.

The Liberal Education Core, Early Childhood or Elementary Education majors, and Second non-licensure Major must total a minimum of 120 hours for graduation with the Bachelor of Science degree.
POTENTIAL PEABODY SECOND MAJORS

For Students with a First Major in Elementary Education and Early Childhood Education
(21 unique hours required for Peabody second majors)

Child Development (CD) (30 hours)
(See the CD major requirement pages for all required classes)

CD Major Core:
In addition to PSY-PC 1250 taken in the ELEM Liberal Education Core, students must complete the other 18 hours in the CD Major Core. These courses constitute the 21 unique hours required for the second major.

CD Electives:
ENED 2430, ENED 2100, PSY-PC 2600 required in the ELEM Liberal Education Core and the ELEM major fulfill the CD Elective courses.

Child Studies (CST) (36 hours)
(See the CST major requirement pages for all required classes)

Courses that may be applied to both majors:
• EDUC 1220, EDUC 3214, PSY-PC 2600, and SPED 1210 are required in the ELEM major, may also be used to partially fulfill requirements for the CST major. These five selected courses are the only major classes that can be used for both majors.
• PSY-PC 1250 taken in the ELEM Liberal Education Core counts in the CST Developmental area.
• Six hours for the CST second major are to be chosen from the Developmental Course area and three hours must come from the Research Methods area.
• The remaining nine hours may include courses from ENED 2430, ENED 2200, MTED 2200, or SCED 2200 taken in the ELEM Liberal Education Core.

Cognitive Studies (CGS) (33 hours)
(See the CGS major requirement pages for all required classes)
Elementary Education students may use ENED 2430 taken in the Liberal Education Core as a CGS elective.

Human and Organizational Development (H&OD) (45 hours)
(See the H&OD major requirement pages for all required classes)

H&OD Major Core Exemption: HOD 2400
H&OD Track Core/Core Electives: ELEM first majors may use HODI 3200, 3210, or 3220 from the cultural studies area of the ELEM Liberal Education Core for partial fulfillment of H&OD track core and/or track core electives.

SECONDARY EDUCATION MAJOR
Department of Teaching and Learning

Secondary Endorsement (6 - 12)
The major in secondary education is designed to prepare students to teach one or more subjects at the secondary school level (grades 6 - 12). Students must complete Liberal Education Core requirements, the Secondary Education Major, and an Arts & Science major in at least one endorsement field, which involves 27 - 36 hours of coursework in the discipline. Students may wish to add an additional endorsement. Students are required to complete the appropriate methods of teaching course for each area of endorsement. In addition to completing a content major and the content based course(s) in the secondary education major, some licensure areas may have additional requirements as determined by State Licensure criteria.

Undergraduate students applying for admission into the teacher education program (Screening I) and into student teaching (Screening II) for secondary licensure must be approved by the faculty in the Department of Teaching and Learning as well as reviewed by the faculties of each Arts & Science department in which the student is seeking licensure. Students are instructed to consult an adviser or the Director of Undergraduate Studies in each Arts & Science department involved in order to be informed of departmental policy on reviewing students for teacher licensure.

Although degree and licensure requirements for the secondary education major are outlined in the Undergraduate Catalog, students find it useful to have these requirements organized in worksheet form so they may keep track of their progress. A general program of studies worksheet is provided in this section, and the Liberal Education Core and Professional Core requirements for the secondary education major are outlined on it. Specific licensure requirements, above and beyond the Secondary Education Major and A&S major requirements for the various licensure areas follow the program of studies worksheet.
Added Endorsements

Added Endorsements within the Social Sciences:

• Majors in economics, political science, psychology, and sociology who are seeking licensure in Secondary Education are required to have an added endorsement in history
• An individual who seeks primary endorsement in one social science area may add an endorsement in another social science area with the following requirements:
  o For an added endorsement in government, economics, sociology, or psychology you will need 9 hours in that content area.
  o For an added endorsement in history you will need 18 hours of history courses (6 hours of US history, 6 hours of European history, 3 hours of non US, Latin American, or European History, and 3 hours of History 3000W).

Licensure in Two Content Areas (example uses Mathematics and History):

• Methods course in each content area is required (e.g. MTED 3370 and SSED 3370)
• Practicum in each content area (e.g. MTED 3371 and SSED 3371) not to exceed 45 combined practicum hours.
• Student teaching is split between the two content areas – with one placement in Mathematics and the other in History
• Student Teaching Seminar will be split. While student teaching in Mathematics you will attend the Math Seminar (MTED 4963), while student teaching in Social Studies you will attend the Social Studies Seminar (SSED 4963)
• Additional licensure in content area(s) by test only. At present, Tennessee law permits a student with 6—12 licensure in one content area to obtain licensure in additional content areas by successfully passing the designated content area Praxis exam(s). To take advantage of this, candidates can petition the state to add an endorsement area after the initial license is issued

Note: Vanderbilt students seeking Tennessee teacher licensure must apply for licensure through the Vanderbilt Office of Teacher Licensure and must meet licensure requirements in effect at the time of their graduation—which may be different from those in effect at the time they entered Vanderbilt. Requirements are currently undergoing change. Teacher licensure candidates are urged to consult the current Vanderbilt Undergraduate Catalog and/or materials published by the Vanderbilt Office of Teacher Licensure each year to keep abreast of possible changes in Tennessee requirements. Students should be aware that the requirements may change after publications of the Handbook and should be alert to notices or reminders sent from advisers or from the Office of Teacher Licensure.

Other required Social Science Course (3 Hours)
Psychology: PSY-PC 2550

Liberal Core Elective (23 hours):
Any course listed to satisfy any area of the Liberal Education Core that is not already being used to fulfill a core area.

NOTES. Special topic courses are not ordinarily acceptable to meet liberal education core requirements. These courses require prior approval as substitute courses. Independent study courses are not acceptable to meet Liberal Education Core requirements.

Courses chosen to fulfill an area of the Liberal Education Core can only be used to satisfy that one requirement. You may not use the same course for two requirement areas. Exception: Courses used to fulfill the Writing Requirement may also be used to satisfy the appropriate Liberal Education Core area.

*Using courses with the subject area “EDUC” or ending in __ED (eg., ENED, SCED, MTED, HMED, etc.) to meet elective liberal core requirements do not cause problems for teacher licensure in the state of Tennessee. However, if seeking licensure in a different state, it is possible that some states will not recognize such courses as liberal arts courses.

English 1100 requirement:

English 1100 is required unless students have satisfied one of the following:
1. SAT
   a. Reading score of at least 27
   b. Writing and Language score of at least 28
   c. Evidence-Based Reading and Writing score of at least 660
2. ACT English test score of 27 or above and an ACT writing test score of 19 or above
3. AP/IB English test scores of 4 and 6 respectively

English 1100 counts for elective credit only toward the hours required for the B.S. degree.

Academic credit is not awarded for SAT or ACT test scores.

Writing Requirement:
All first year students must successfully complete one writing intensive course at the 1000 level before their fourth semester. In addition, before graduation, all students must successfully complete a second writing course. Writing-intensive courses either have a “W” after the course number (A&S, Blair or Engineering) or end with the digit “7” (Peabody courses).

Note: First Year Seminars (courses labeled 1111) offered through the College of Arts and Science and Blair School of Music may count as writing intensive courses. Peabody
freshmen may only register for First Year Seminars when open registration begins after the initial registration period has ended.

The Liberal Education Core, Elementary Education Major, and Second Major must total a minimum of 120 hours for graduation with the Bachelor of Science degree.
INTERDISCIPLINARY MAJORS
DEPARTMENT OF TEACHING AND LEARNING

The Department of Teaching and Learning sponsors a variety of interdisciplinary majors that are best suited for those students majoring in Elementary Education. However, these majors are available to any Peabody College student as a second major.

Specifically, the following interdisciplinary majors are available:

- Language and Literacy Studies
- Mathematics and Science Studies
- Natural Science Studies
- Second Language Studies
- Social Studies focused on Anthropology
- Social Studies focused on Economics
- Social Studies focused on United States History
- Social Studies focused on European History
- Social Studies focused on American Politics
- Social Studies focused on World Politics
- Social Studies focused on Sociology

Program of study sheets for each of these interdisciplinary majors are included in this section. For more information, contact Professor Catherine McTamaney, Director of Undergraduate Studies in the Department of Teaching and Learning.

PEABODY MINORS

A minor is a program with recognized area of knowledge offering students more than a casual introduction to the area but less than a major. Although the completion of a minor is not a degree requirement, students may elect to complete the courses specified for one or more minors. A student who completes all designated courses in a minor with a grade point average of at least 2.0 will have the minor entered on the academic transcript at the time of graduation.

Minors may be combined with any departmental major or interdisciplinary major. Each minor must, however, include at least fifteen credit hours that are not being counted toward any other major or minor. Courses being taken to fulfill a minor may not be taken on a Pass/Fail basis.

Students wishing to declare a Peabody minor must obtain a "Minor Declaration" form available in the Office of Academic Services or the Departmental Offices, or downloaded from: http://peabody.vanderbilt.edu/registrars_office/forms_for_download.xml

An adviser will not be assigned for minors, and it will not appear on the transcript until the time of graduation. It is the student's responsibility to know and satisfy all the requirements for minors which he/she intends to complete. Minors will be checked during graduation check-out.

Students wishing to declare a minor in the College of Arts and Science must obtain a "Minor Declaration" form from the appropriate department in the College of Arts and Science where the student will be acknowledged as having a minor. This form must be submitted to the Peabody Office of Academic Services for processing. A list of Arts and Science minors available to Peabody students are in the Undergraduate Catalog.

Note:
Minors, whether in Peabody, Blair, Engineering or Arts and Science, are in addition to the Peabody major. Courses in the student's minor must be completed with a cumulative grade point average of 2.000 or better and all courses must be completed on a graded basis.

The following Peabody minors are offered:

Psychology and Human Development:
  Child Development
  Cognitive Studies
  Quantitative Methods
  Language Sciences

Teaching and Learning:
  Educational Studies
  Reading/Literacy Education
  Teaching Linguistically Diverse Students

Human and Organizational Development

Special Education
**CHILD DEVELOPMENT**

The minor in Child Development consists of 18 hours in the following courses:

**Required Courses:**
PSY-PC 1250 Developmental Psychology 3
PSY-PC 2110 Introduction to Statistical Analysis 3
(may be taken as part of the Liberal Education Core)

One of the following: 3
- PSY-PC 2250 Cognitive Aspects of Human Development
- PSY-PC 2400 Social and Personality Development

One of the following: 3
- PSY-PC 2500 Infancy
- PSY-PC 2550 Adolescent Development

One of the following:
- HOD 2500 Systematic Inquiry 3
- PSY-PC 2170 Experimental Research Methods
- PSY-PC 3722 Psychometric Methods
- PSY 2150 Research Methods

One Child Development elective course 3
Any of the courses above not taken to meet a minor requirement or any course listed for the major as a Child Development elective

**Total Hours in the Minor** 18

**COGNITIVE STUDIES**

The minor in Cognitive Studies consists of 15 hours in the following courses:

**Required Courses:**
PSY-PC 1205/1207 Minds, Brains, Contexts, and Cultures 6
PSY-PC 2200 Psychology of Thinking or PSY 3120 Cognitive Psychology

3 courses from the following: 9
- ANTH 2601 Introduction to Linguistics
- ENED 2430 Fostering Language in Classrooms
- PSY-PC 1115/1117 Freshman Seminar
- PSY-PC 2250 Cognitive Aspects of Human Development
- PSY-PC 2300 Social and Emotional Context of Cognition
- PSY-PC 2400 Social and Personality Development
- PSY-PC 3150 Language Development
- PSY-PC 3650 Advanced Topical Seminar (may be repeated providing no duplication of content)
- PSY 3775 Human Memory
- PSY 3635 Health Psychology
- PSY-PC 3200 Introduction to Clinical Psychology
- PSY-PC 3860 Directed Research (may not be repeated for minor credit)
- SPEDS 2430 Introduction to Language and Communication

QUANTITATIVE METHODS

Quantitative skills are highly valued in a variety of fields. Training provided by the quantitative methods minor can provide a competitive edge on the job market or for future graduate study.

Many advances in quantitative methods used in the social sciences and education are not covered in standard undergraduate introductory statistics courses. This minor exposes students to more recent developments in quantitative methods with concrete applications to practice. Emphasis is on application of methods to real social science data and interpretation of results. The quantitative methods minor helps students become better consumers and producers of scientific research. Students will have the opportunity to learn from leading experts in measurement and the statistical analysis of social science data.

Structure of the Minor

Prerequisites for the minor are completion of the introductory statistics sequence that is already required by the undergraduate psychology majors. This sequence is:

- PSY-PC 2110: Introduction to Statistical Analysis OR
  PSY 2100: Quantitative Methods (3 credits; required)*
- AND PSY-PC 2120: Statistical Analysis (3 credits; required)*

The Quantitative Methods minor is an 18-hour minor. The 18 hours include both PSY-PC 2110 (or PSY 2100) and PSY-PC 2120, and these serve as the prerequisites for the electives. Following completion of these prerequisites (6 credits; required), the minor requires four additional courses (12 credits; electives). Any four courses offered by the Quantitative Methods program are applicable. At most, three credits of directed research/independent study can count toward the minor. Students with interest in directed research/independent study can contact individual quantitative methods faculty directly.

Courses that would satisfy the elective requirements (pick 4):

- PSY-PC 3722: Psychometric Methods
- PSY-PC 3724: Psychometrics
- PSY-PC 3727: Modern Robust Statistical Methods
- PSY-PC 3730: Applied Latent Class and Mixture Modeling
- PSY-PC 3732: Latent Growth Curve Modeling
- PSY-PC 3735: Correlation and Regression
- PSY-PC 3738: Introduction to Item Response Theory
- PSY-PC 3743: Factor Analysis
- PSY-PC 3746: Multivariate Statistics
- PSY-PC 3749: Applied Nonparametric Statistics

Prior to enrolling in a specific course, please contact the instructor regarding prerequisites. Undergraduates may request to be enrolled in QM graduate courses not yet cross-listed as undergraduate courses by using a substitution form, with permission of instructor. We anticipate adding more courses to the list of electives, which will be listed at:
http://peabody.vanderbilt.edu/departments/psych/undergraduate_programs/quantitative_methods_minor.php

LANGUAGE SCIENCES
The minor in Language Sciences is offered though the Department of Psychology and Human Development. The emphasis is on language theory and research in the behavioral sciences. A working knowledge of the basic processes involved in speaking, understanding, and reading will be beneficial to students interested in the learning sciences. Total of 15 credit hours.

Program or track requirements.

Two of the following (6 credit hours):
PSY-PC 3130: Introduction to Formal Linguistics
PSY-PC 3140: Psychology of Language

Three of the following (9 credit hours):
ANTH 1601: Introduction to Language and Communication
PSY-PC 3150: Language Development
PSY-PC 3160: Bilingualism
PSY-PC 3170: Cognitive Science of Reading
PSY-PC 3180: How We Talk
PSY-PC 3190: Language and the Brain
PSY-PC 3860: Directed Research - Must work on a study or project related to language sciences
SPEDS 2430: Introduction to Language and Communication
PHIL 3617: Philosophy of Language

HUMAN AND ORGANIZATIONAL DEVELOPMENT MINOR
The minor in human and organizational development consists of 18 credit hours in the following courses:

**Required Course: 3 hours**  
HOD 1250  Applied Human Development

**Choose Two Additional Core Courses: 6 hours**  
HOD 1300  Small Group Behavior  
HOD 2100  Understanding Organizations (required for Leadership and Organizational Effectiveness track students)  
HOD 2500  Systematic Inquiry  
HOD 2700  Public Policy (HOD 2700 or PSCI 1100 required for Education Policy track students)

**Track Level Courses: 9 hours**

Students will choose 3 courses (9 hours) from a single track to complete. The tracks are: Community Leadership and Development, Health and Human Services, International Leadership and Development, Leadership and Organizational Effectiveness and Education Policy.

**Community Leadership and Development Track [9 hours]**  
The nine-hour CLD track core requires 3 of the following 5 courses:  
HODC 3202  Community Development Theory  
HODC 3232  Ethics for Human Development Professionals  
HODC 3342  Introduction to Community Psychology  
HODC 3352  Philanthropy and Social Problem Solving  
HODC 3650  Community Development Seminar (topics vary; only one HHS seminar will count in the CLD track core)

**Health and Human Services Track [9 hours]**  
The nine-hour HHS track core requires 3 of the following 6 courses:  
HODH 3201  Introduction to Human Services  
HODH 3211  Introduction to Counseling  
HODH 3221  Health Service Delivery to Diverse Populations  
HODH 3231  Introduction to Health Services  
HODH 3241  Introduction to Health Policy  
HODH 3650  Health and Human Services Seminar (topics vary; only one HHS seminar will count in the HHS track core)

**International Leadership and Development Track [9 hours]**  
The nine-hour ILD track core requires 3 of the following 7 courses:  
HODI 3200  Global Dimensions of Community Development  
HODI 3210  Leadership and Change in International Organizations  
HODI 3220  International Organizations and Economic Development  
HODI 3230  Education and Economic Development  
HODI 3240  Effectiveness in International For-Profit Organizations  
HODI 3250  Building Knowledge Economics in Asia  
HODI 3260  Education in the Asia-Pacific Region: Development, Reform, and Innovation  
HODI 3270  Global Sustainable Development

**Leadership and Organizational Effectiveness Track [9 hours]**  
The nine-hour LOE track core includes the following required courses:  
HODL 3204  Leadership Theory and Practice (prerequisite HOD 2100)
HODL 3234  Advanced Organizational Theory (prerequisite HOD 2100)

1 course chosen from the following 5 options:
- HODL 3224  Analyzing Organizational Effectiveness
- HODL 3244  Introduction to Human Resource Development
