This handbook provides detailed information for PhD students who are enrolled in the Department of Leadership, Policy and Organizations. It is a supplement to the current university catalog, The Bulletin of Graduate School, Vanderbilt University.

The Bulletin is published as a series of catalogs, one for each school or college in the university, and it provides information regarding general academic policies, library resources, research facilities, resource centers, course descriptions, and student services.

This handbook has been designed to familiarize you with the policies and procedures that shape the PhD program in Leadership and Policy Studies. It is not viewed as comprehensive and is not intended to replace the Peabody College or Graduate School catalogues. It is intended to provide information you will need in order to make decisions about your graduate study and to acquaint you with the administrative requirements, policies, and procedures you will be expected to meet.

If you have questions that cannot be answered by this handbook, please seek information from your advisor, your fellow students, the graduate secretary or the program director.
LPO MISSION STATEMENT

To understand and enhance the social, institutional, and organizational contexts in which people learn—schools, universities, and workplace settings among them.
FIRST THINGS CHECKLIST

_______  Obtain a VUnetID and e-password at https://jprod.its.vanderbilt.edu/apps1/its-epassword/main.html

_______  Set-up a Vanderbilt email address at: http://its.vanderbilt.edu/vumail/

_______  Register for classes on YES Log in at: https://login.mis.vanderbilt.edu/login?service=https%3A%2F%2Fwebapp.mis.vanderbilt.edu%2Fstudent-search%2Fj_acegi_cas_security_check

Get help at:
http://www.vanderbilt.edu/helpcontent/Student_Applications_Help.pdf

_______  Communicate your local address to the Department: rosie.moody@vanderbilt.edu

_______  Complete New Hire Paperwork with department administrators in 202E Payne Hall. This must be accomplished before August 6 in order for you to be paid on time.

_______  Submit Student Accounts Agreement

_______  Buy books  The University Bookstore has new and used books, and has an online listing service of the required books for each class. You can find this here:
http://www.bkstr.com/CategoryDisplay/10001-9604-10244-1?demoKey=d

_______  Get a Map

2015-2016 Calendar of Important Dates

**August**
26 First day of Class

**September**
2 Fall Registration on YES ends at 11:59 pm
3-9 Extended drop/add by submitting appropriate forms.
4 Last day to submit Intent to Graduate forms (for December)

**October**
15-16 Fall Break (Professional weekend classes meet)
19 Spring Registration Opens for Peabody students
22-24 Homecoming/Reunion Weekend

**November**
20 Spring Registration ends
21-29 Thanksgiving Break

**December**
11-19 Reading Days and Exams
19 Holiday Break Begins

**January**
4 First Day of Spring Semester Classes
18 Martin Luther King Jr Holiday – No Classes
Open Enrollment Period ends at 11:59 p.m.
19-25 Extended Drop/Add by submitted appropriate forms

**February**
22 Students may start loading Summer classes into their carts

**March**
5 – 13 Spring Holidays
Registration for summer classes begins in YES
14 Registration for Fall classes begins
28 Summer 2016 open enrollment begins

**April**
11 Fall 2016 open enrollment begins
8-12 AERA Conference – Washington, DC
25 Last Day of Spring Semester Classes
26 – May 5 Reading days and Examinations

**May**
11 Chancellor Zeppos’ “The Party”
12 LPO Student Reception
13 Commencement
DEGREE REQUIREMENTS

The PhD degree cannot be earned simply by attending class, writing the required papers, and passing the exams. The PhD program in LPO is a mentoring process which includes academics, participating in the research of faculty members, designing personal research, learning to submit proposals, attending and presenting at conferences, submitting articles for publication, and networking among colleagues nationally and internationally.

This section outlines the expectations and requirements of students in the PhD program. This section begins with a sequential presentation of the benchmarks, followed by information for those benchmarks in a corresponding order.

COURSEWORK

Program of Studies

Students must file a program of studies form no later than March in their first year. The program
of studies is determined in consultation with the student’s advisor and must be approved by the
Director of Graduate Studies and the Associate Dean for Graduate Studies of Peabody College.
A copy is included in the Appendix of this document.

Requirements for All Specializations

I. Social Science Core Requirements (12 hours)

   LPO 8110 Economics of Education
   LPO 8120 Governance and Politics of Education
   LPO 8130 Social Context of Education
   LPO 8500 History of Education

II. Specialty PhD Seminars (9 hours)

   LPO 8610 (K12)
   LPO 8620 (Higher Education)

   May select other courses in consultation with advisor

   TBD each semester

III. Research Methods (18 hours)

   LPO 8810 Research Design and Methods
   LPO 8851 Regression Analysis I
   LPO 8852 Regression Analysis II
   LPO 7810 Causal Analysis
   EDUC 8820 Qualitative Research Methods
   PSY-GS 8858 Intro to Statistics (Inference)
   or
   PSY-GS 8861 Statistical Inference
IV. Research Practicum (6 hours)

LPO 9951 1st year Fall (1 hour)

LPO 9952 1st year Spring (2 hours)

LPO 9953 1st year Summer (3 hours)

V. PhD Proseminar (3 hours)

Required in years 2, 3, and 4 (1 credit each year)

VI. Electives or Transfer Hours (to total 72 hours)
The core curriculum for the PhD consists of Social Science core classes, Specialty Seminars, Research Methods courses, and transfer or elective courses.

The core classes are Governance and Politics of Education, Social Context of Education, Economics of Education, and History of Education. At least one of these courses is offered each Fall and Spring semester over a two year period.

The Specialty Seminars are offered on a rotating basis. Students are required to take 3 seminars, but may take others as electives. In some semesters, a faculty member will teach a course specifically for either K12 or Higher Education students. In others, it may be for both groups. There may be some master’s classes that can be approved as seminar classes.

Six Research Methods classes are required in the curriculum. All students must take LPO 8810 Research Design and Methods and a Statistics course during the first semester along with a statistics class. (Students who have substantial coursework or experience in statistics should discuss this with their advisors to find the right placement for a statistics class in the first semester). The second semester, all students take Regression Analysis I. In year 2, students take Regression Analysis II and Causal Analysis. In year 2 or 3, students add two more elective research methods classes, one of which must be qualitative. Although a student’s advisor can suggest, with DGS approval, a methods course substitution, all PhD students are required to take 18 hours of research methods courses.

All students take the year long, 6 credit hour PhD Research Practicum. Students receive 1 credit in the Fall, 2 in the Spring and 3 in the Maymester. This course teaches the programming and data management skills required for quantitative research. All first year students present their practicum projects to the LPO faculty at the end of May of their first year.

During years 2, 3, and 4, PhD students enroll in the PhD Proseminar, which covers a variety of practical matters for young professors and researchers. Students receive 1 credit per year for this course.

The balance of the program of studies consists of elective courses selected in consultation with advisors. Students may not have more than 72 credit hours. Any coursework taken after 72 credit hours must be taken as Audit classes.

Transfer Credits
Transfer credits of previously completed post-baccalaureate work will be considered as replacements for elective credits in the Program of Study. Students may request up to 30 hours of transfer credit towards the Ph.D. degree with approval of their advisor, the DGS, and the Peabody Associate Dean. When making a request to transfer a course, please include a copy of your transcript from the institution where you took the course and the course syllabus.

Courses with grades lower than “B” are not eligible for transfer. Any grade reported as “P,” “Cr,” “S” and so on, must be accompanied by a statement from the registrar of the respective school where the class was taken, stating that this designation is equal to at least a “B” grade on a 4-point scale.
Until passing the qualifying examination and achieving candidacy for the PhD (which in LPO occurs when a student successfully defends their dissertation proposal), students must register for nine credit-hours of study during the Fall and Spring semesters to qualify as full-time students. After candidacy, students register for zero hours of dissertation credit to qualify as full-time students. Students must maintain an overall “B” average and achieve a “B” average in the set of courses designated as meeting the “research tools” requirement.

**Grading System**

The grading system in the Graduate School includes the letter grades A, A-, B+, B, B-, C+, C, C- and F. A student will not be granted graduate credit for any course in which a grade less than C- is received. Grades below C- may be repeated once at the discretion of the DGS.

An Incomplete may be assigned at the discretion of the instructor in those cases in which the student is not able to complete work in the normal time. A student has one semester to complete work before the Incomplete changes to a grade of F.

A grade point average of 3.0 is required for graduation.

Satisfactory/Unsatisfactory grades are given every semester for all independent research or dissertation hours courses (3990, 3995, etc.) regardless of the number of hours registered. The accumulation of three (3) U grades over the course of study may lead to dismissal from the program and the Graduate School.

With the instructor’s permission, students are permitted to audit certain courses. Students who audit are expected to attend the course regularly. Students must be registered for regular courses to audit. Audits are listed on the student’s transcript. Audits are limited to two per semester.

For more information on Grading, consult the Graduate School Catalog.

**RESEARCH**

Students are expected to work 20 hours/week as a research assistant and/or teaching assistant as part of their financial aid agreement. Students are assigned to work on their advisor's or another faculty member's research projects--undertaking activities such as reviewing literature, designing instruments, collecting data, and analyzing data. Students are required to receive a satisfactory rating from their advisor for work performed as part of their assistantship or they may be placed on probation. If a conflict arises that inhibits a student’s work with his/her advisor or another faculty member with whom a student is working, the student should make an appointment with the Director of Graduate Studies to discuss the problem. If, for any reason, a student wishes to change advisor, he/she should contact the Director of Graduate Studies who will work as a broker between students and faculty. At the end of the first year of study, students complete an Advisor Preference Form, stating whether they want to stay with their current advisor or switch
to another. However, transfer to another advisor is not guaranteed as there are circumstances that may preclude the transfer.

After the first year, students’ research involvement is expected to expand to participating in writing proposals and papers for presentation at national conferences, or articles for submission to academic journals. By year three, students are expected to take the lead in writing and presenting proposals, papers and journal submissions. Students will be more competitive for academic and research positions if they have authored or co-authored peer-reviewed manuscripts when they go on the job market.

CONFERENCE ATTENDANCE
Ph.D. students are expected to attend one, high quality national research conference in their first year of studies (e.g., AERA, APAM, ASHE, SREE). As they progress through years two, three, and four, they should be taking increased leadership in the writing of conference proposals, of conference papers, and of peer-reviewed articles and book chapters based on these papers.

Travel Funds for Conferences
Funding is available to assist PhD students traveling to conferences. Consult with the Department Administrative Officer for the specifics of travel funding. The policies surrounding number of trips, reimbursement, and verification are subject to change.

COMPREHENSIVE EXAM
All PhD students are required to sit for the comprehensive exam in May of the 2nd year of coursework. This exam covers the Research Methods courses and the Social Core courses.

Students must have all Incompletes removed from their transcript prior to taking the exam.

Specific details of the content on this exam will be provided during the Spring semester of the year in which a student will take the exam.

Grades of Fail or Pass are awarded for each section as a whole. If a student receives a grade of pass from one reader and a grade of fail from another, a third reader must independently award a failing grade for a student to fail that section.

If a student fails part of the exam, he/she is allowed one retake in August. If a student fails the retake, he/she will not be allowed to continue in the PhD program. It may be possible to complete requirements for a Masters of Science in Leadership and Policy Studies.
DISSERTATION PROCESS

After passing the comprehensive exam, students may begin their dissertation process. This requires establishing a committee, defending the proposal to achieve candidacy, receiving approval from the Institutional Review Board (IRB) before any research activity begins, and passing the final defense and submitting the dissertation to the Graduate School.

Committee

The dissertation committee consists of at least 4 members of the Graduate Faculty. Typically, three of these members, including the Chair, will be faculty in the Dept. of Leadership, Policy & Organizations and one member will be a Graduate Faculty member from outside the department. Any variation of committee makeup must be approved by the Graduate School. For example, if a student would like a committee member from outside of the university, this must be approved by the Graduate School Dean after submission of an explanation for this person’s inclusion on the committee and a CV establishing expertise in an area relevant to the dissertation. The committee must be appointed by the Graduate School no less than two weeks before the time the student expects to defend his/her dissertation proposal.

It is the student’s responsibility to ask a faculty member to chair his or her committee. The student and dissertation chair then consult to identify the other members of the committee who will provide expertise to the topic or methodology of the proposed dissertation. Once all committee members have agreed, a Request to Appoint PhD Committee Form is signed by all involved and the Director of Graduate Studies and is submitted to the Graduate School. (This form is included in the Appendix and in the department administrative office). The Graduate School Dean must approve and officially establish the committee.

Qualifying Examination

The Graduate School requires all PhD students to pass a Qualifying Examination no later than the 8th semester of enrollment. This exam is different than the written comprehensive exam. In the Department of Leadership, Policy & Organizations, defending a dissertation proposal constitutes the Qualifying Examination requirement. Students must have earned at least 36 hours of PhD credit with at least 24 of them in Vanderbilt’s Graduate School in order to take for the Qualifying Examination. Students must also have passed the written comprehensive exam.

A Request to Schedule a Qualifying Examination form must be submitted to the Graduate School at least 2 weeks prior to the defense date. This form must be signed by the DGS. This form is included in the Appendix and is available in the Department Administrative Offices.

Examples of the major components of a proposal are as follows, with variation allowed as approved by the Dissertation Chair:
1. A detailed statement of the problem that is to be studied and the context within which it is to be seen. This should include a justification of the importance of the problem on both theoretical and educational grounds.

2. A thorough review of the literature pertinent to the research problem. This review should provide proof that the relevant literature in the field has been thoroughly researched. Good research is cumulative; it builds on the thoughts, findings, and mistakes of others.

3. A statement on the overall design of the proposed study, which includes:
   a. its general explanatory interest
   b. the overall theoretical framework within which this interest is to be pursued
   c. the model or hypotheses to be tested or the research questions to be answered
   d. a discussion of the conceptual and operational properties of the variables
   e. an overview of strategies for collecting appropriate evidence (sampling, instrumentation, data collection, data reduction, data analysis)
   f. a discussion of how the evidence is to be interpreted

The proposal defense typically is 2 hours long and is closed to everyone except the committee and the student.

The committee may pass the proposal as it stands, may request changes to the proposal before passing it, or may fail the proposal. Students will have a second opportunity to pass a proposal defense.

After passing the proposal and thus the qualifying examination, a PhD student is awarded candidacy. After achieving candidacy, students must continue to register each semester until the dissertation defense and completion of the program. Failure to register will result in a student being disenrolled by the Graduate School.

**Institutional Review Board Approval**

All students must have their proposed dissertation research reviewed by the Institutional Review Board for the Protection of Human Subjects. This review occurs after the student’s dissertation committee has approved the dissertation proposal.

Students whose dissertation is based on publically available data sets must receive a waiver from the IRB prior to beginning their dissertation work.

Students and committee chairs must have IRB certification when the proposal is submitted for IRB review. To receive this certification, students complete the online CITI (Collaborative IRB Training Initiative) course. This must be done prior to submitting their proposal for review.

The forms and all other information related to IRB can be found at:
http://www.mc.vanderbilt.edu/irb/index.php
**Dissertation**

While working on the dissertation, students register each semester for zero hours of LPO 3990 01.

A student has 4 years after being admitted to candidacy to complete, successfully defend, and submit the final dissertation. A department may petition the Graduate School for a one-year extension of candidacy. If this is approved, the student must complete the dissertation within that year or face dismissal from the Graduate School.

After receiving IRB approval, students work independently on the dissertation. This includes data collection and analysis, writing the dissertation and, as appropriate, expanding/updating the literature review that appeared in the dissertation proposal.

The accepted style manual for the dissertation approximates, but is not identical to, APA (4th edition) guidelines. Information on the structure, style, and submission requirements is available from the Office of the Dean of the Graduate School at: [http://gradschool.vanderbilt.edu/academics/theses/index.php](http://gradschool.vanderbilt.edu/academics/theses/index.php) Prior to defending the dissertation, students should schedule an appointment with the Graduate School administrator who reviews dissertations for adherence to style.

Students are expected to regularly meet with their dissertation chair and submit drafts of their progress. They should also schedule meetings as necessary with the other committee members for advice and to make them aware of any problems or alterations that arise. Each semester, the Dissertation Chair determines whether the student is making adequate progress towards completing their dissertation and awards, through the Director of Graduate Studies, a grade of Satisfactory or Unsatisfactory for the dissertation hours in which the student is enrolled. Receipt of three Unsatisfactory grades will result in dismissal from the program and the Graduate School.

When the Dissertation Chair agrees that the dissertation is ready to be defended, final copies of the dissertation should be sent to the other committee members and a date set for the defense. Dissertations must be defended at least 14 days prior to the end of a term, or by April 1 for May graduation. A Request to Schedule Final Oral Exam form must be sent to the Graduate School at least two weeks prior to the exam date. The date, time, location, and title of the dissertation will be published in the university electronic calendar. Final defenses are open to the public.

Students should consult the Dissertation Guide published by the Graduate School for information about submitting the dissertation.

**RECORDS AND ANNUAL REVIEW**

The LPO Faculty review all PhD students each year during the Spring semester. These reviews consider the progress students are making in their coursework, research (with their faculty advisor as well as their own personal research agenda), professional development (writing, submitting for publication, attendance and presenting at conferences), comprehensive exams, and dissertation progress.
All PhD students are required to keep an updated profile detailing their coursework, conference activities, publication submissions, and teaching activities. This is kept online in BRAVE (http://pbdapps.vanderbilt.edu/BRAVEHEART/output/login.asp)

Students begin the profile during the first year of the PhD program and update it regularly. The information in this profile is used in the Annual Review. It is also consulted by the Peabody Associate Dean when she receives requests to use professional development funds, travel funds, or fellowship recommendations, and submits reports on the status of our PhD students to the Dean.

After the Annual Review, the DGS writes a letter to each PhD student. These letters highlight the successes students are having and alert students to areas where they need to concentrate in the coming year. In some instances, these letters may contain warnings when students are not meeting standards or are in danger of being dismissed.

Prior to the DGS signing off on graduation paperwork, students must update BRAVE one last time and submit a copy of their CV to be included in the online database of PhD students.

**ADDITIONAL ACADEMIC REGULATIONS**

**Grade Change Policy**

For a student enrolled in the Graduate School, a grade recorded in the University Registrar’s Office may be changed only upon the written request of the instructor, endorsed by the appropriate official (usually an associate dean) within the school/college that offered the course, and then the approval of the associate dean of the Graduate School. An instructor’s petition to change a grade must include a brief rationale for the change. Changing a recorded grade is a serious matter and, in general, petitions will be approved only upon certification that the original grade was in error or, in the case of an Incomplete, that the outstanding requirement(s) have been completed. Request for exceptions to this policy should be directed to the associate dean of the Graduate School and will be considered on an individual basis; these may require additional certifications and approvals.

**Academic Probation**

A grade point average of 3.0 is necessary for graduation. Students who fall below an average of 3.0 are placed on probation for one semester. If the student’s performance does not improve during that semester, the Graduate School and the appropriate department chair will decide whether to dismiss the student or to allow the continuation of probation. If at the end of the second semester the grade point average is still below 3.0, the student may be advised to withdraw or face dismissal. Students who earn a grade point average of 2.0 or less during their first semester of residence are subject to dismissal at the end of that semester. Accumulation of three $U$ grades in research courses can lead to dismissal.
**Student Grievances and Appeals**

Students who believe their academic performance has not been judged reasonably or fairly, or who believe their intellectual contributions have not been fairly acknowledged, should discuss their concerns with the director of graduate studies in their program or, as necessary, the chair of the department.

If the student’s concerns cannot be resolved at the program or departmental level, the student may then request a further review of the issues in question by the associate dean for graduate studies or similar official in their school dean’s office. The student may appeal the outcome of the school-level review to the Graduate School.

**Credit**

Courses not listed in the catalog that are numbered below 6000 may be taken for credit by graduate students on the recommendation and consent of the faculty adviser and the director of graduate studies, unless some limit is noted in the description. Not all courses offered by various divisions of the university have been approved by the Graduate Faculty for graduate credit. In these cases, students should complete a “Request for Graduate Credit” form. In arranging schedules, students should consult their advisers and carefully check the Graduate School catalog for approved courses.

Students may register for graduate courses or other courses in the university on a non-credit basis—either to fulfill their own interests or to meet certain prerequisites and requirements. The designation “no-credit” presupposes the student’s participation in the course, including written assignments and examinations. Grades are received and recorded in no-credit courses and tuition is billed at the regular hourly rate.

**Leave of Absence**

The Graduate School requires continuous registration except for summer sessions. Students who desire to interrupt their graduate study must petition the department, who on their behalf apply to the Graduate School for an authorized leave of absence. Leave of absence is granted for a maximum of one year. Those without authorized leave who do not register are dismissed from the Graduate School and are not considered students. If they want to resume graduate study at Vanderbilt, they must petition for reinstatement.

For information on student insurance while on leave see:

**Withdrawal**

Students who intend to withdraw from the university should inform the department, who then informs the Graduate School in writing. Improper notification may result in academic and financial penalties.
Use of Professional Development Funds

PhD students who are designated as Peabody Dean’s Fellows were awarded Professional Development funds. These funds may be used to help defray the direct expenses of the recipient’s research or other experiences, that, if capitalized upon, could help build a strong CV. These funds may be accessed beginning in the third year (upon the completion of 36 credit hours) in the doctoral program when most students’ research programs are getting under way. Students have up to three years to expend these funds.

Eligible expenses are for those items that will help improve the Fellow’s CV and include the following:

- Research apparatus and materials (e.g., data collection equipment, standardized tests, reproduction of investigator-developed questionnaires)
- The direct costs of data collection (e.g., travel to collect data, payments to research participants)
- Expenses for data analysis (e.g., specialized software, cost of attending a workshop dealing with new analytic methods)
- Travel to present research results at a professional meeting
- Attending a special training session or field school
- Symposium attendance

Because this fund is not intended for general support of the recipient’s academic work, it may not be used for living expenses, journals, books, professional memberships or computers.

Students contemplating expenditures from their research fund are asked to develop a brief (1-2 page) proposal in consultation with their faculty advisor, obtain their advisor’s endorsement, and send the proposal to their department’s Director of Graduate Study for approval and routing to the Dean’s Office.

These funds will be used to reimburse expenses that fall into the above categories and that were approved in the proposal. Graduate students will work with departmental administrative officers for submitting reimbursement requests.
Parental Leave for PhD Students

Eligibility: All students enrolled full-time in the Graduate School and supported by funding from either internal or external sources are covered by this policy. This includes students with funding through stipends, such as training grants or service-free fellowships, and students compensated for services, such as teaching assistants or research assistants. Students supported by external funding sources may be subject to additional rules of the granting agency regarding parental leave. Students are not employees and thus are not subject to the provisions of the Family and Medical Leave Act (FMLA).

Period of Leave: Prior to and/or following childbirth or adoption of an infant, the primary caregiver (whether mother or father) will be allowed to take six weeks of parental leave. During this period, the student’s current stipend, and, if applicable, funding for health insurance and tuition, will be continued without interruption. The student’s enrollment status will be continued during this period, as well.

Limitations: If both parents are Vanderbilt graduate students, only one may take parental leave. The parental leave provided by this policy may be taken during the semester in which the child is born or adopted, or during any subsequent semester that begins no later than six months after the birth or adoption.

Advance notice and approval: The student must request a parental leave from her or his departmental chair, through the director of graduate studies, at least three months prior to the beginning of the anticipated leave or, in the case of adoption, as soon as the adoption is confirmed. The request must be made in writing and, once approved by the department chair and Director of Graduate Studies, forwarded to the Peabody Dean’s Office for approval and notification of the Graduate School. Students should also make appropriate arrangements as needed with their course instructors to make up any missed coursework during the leave period.

Documentation upon return: As soon as possible, the student must provide her or his departmental chair with (a) a copy of birth certificate or, (b) in the case of adoption, written certification of child adoption from the adoption agency.

Extended Leave: Students who wish or need to take a longer period of leave, without continuation of funding, may request a leave of absence for up to one year through the established policy of the Graduate School. Graduate students who are not receiving funding through Vanderbilt should request a leave of absence for childbirth or adoption if they anticipate an interruption in progress toward their degree.

This policy is applicable to all students enrolled in the Graduate School and establishes minimum standards for parental leave for graduate students. Departments may offer greater accommodations as are warranted by the individual circumstances of the student.
Peabody Travel Expense Reimbursement Regulations

(Travel reimbursement continues to be refined, so always check with the LPO financial administrators for the most recent policies)

Peabody College provides funding for each on-campus PhD student to present papers at up to two major professional meetings per year during the years for which support was promised when they were admitted. A “professional meeting” is understood to be a conference of a professional organization at which multiple papers are presented that is a significant national conference in your field, as agreed upon by your advisor and approved by the Dean. Peabody does not provide funds to support travel for invited presentations or workshops at other universities, school, etc. If you are unsure whether a particular event would constitute a professional meeting under this policy, please consult with Craig Smith, Associate Dean for Graduate Education.

Peabody will provide up to $750 per trip. Expenses that may be reimbursed include:

- Advance-purchase economy air fare (request that you make reservations 6 weeks in advance if you know that you will be leaving that far in advance)
- Automobile fuel if personal car is used for trip (up to cost of air fare)
- Lodging (not to exceed convention rate for a single room)
- Ground transportation
- Tips (20% maximum)
- Fees for checking luggage
- Meals (up to $50 per day; $25 max per meal, must have itemized receipt)
- Conference advance registration fee (but not membership dues)
- Parking (maximum $10/day)

Before booking your trip, please

- Make sure that your Departmental Assessment/Review and online Profile are current and have been uploaded into AOP+. Requests for travel will not be approved if this information is not up to date. To update your profile, go to: http://pdbapps.vanderbilt.edu/BRAVEHEART/output/login.asp Your Username is your VUnetID and your initial password (if you have not changed it) is PHD.
- Submit your request to your advisor using the attached form. Your advisor’s signature certifies that the professional conference is of importance to your professional development.
- Submit your request to your department’s Director of Graduate Studies (DGS). Your DGS’s signature certifies that your Departmental Assessment/Review is current and you are in good standing in your department.

Transportation NOTE: GPS navigation systems and rental insurance are NOT allowable charges, and if travel is by rental car, only the car rental and gasoline is reimbursable (not
mileage). If travel is by personal car, then only mileage is reimbursable (not gasoline). The current standard mileage rate is $0.565 per mile. Please include maps with point to point “directions” (via MapQuest or Google maps) to show the mileage to and from all destinations.

Shared Expenses NOTE: If you have a special circumstance and you arrange for expense payment with someone to share a room, meal, transportation, etc., you MUST get approval through the department administrators in Payne 202E before your trip. Special arrangements are difficult to reconcile. Administration must be kept apprised of all arrangements that have been made prior to, during, or on return of a travel. If you have made a special arrangement using grant funding, the Principal Investigator for the project must provide the administrators with approval documentation for these arrangements prior to traveling. This can be in the form of an email. Any arrangements not cleared through us may cause a delay in payment.

PLEASE PROVIDE YOUR STREET, CITY, STATE AND ZIP CODE ON YOUR TRAVEL FORM. We cannot mail a check without a complete address. If this is information is not included, we will have to contact you for this information and your reimbursement will be delayed.

Upon return from your trip, your original travel form will be sent to you by one of your LPO Administrators. Once you have received your travel form, please attach all receipts and please place in Rachel Manlove’s mailbox, located in Payne 202. Do not attempt to reconcile, we will do that. Once we have reconciled, we will email you to stop by and sign the form, agreeing to our reconciliation. You can question any accounting at that time.

The University allows 10 DAYS upon return from your travel to submit your receipts. If there is more than a 10 DAY delay in returning your form and your receipts, we will require a written explanation from you for the delay.

Travel Grants from the Graduate School

Students are encouraged to present their research at major regional, national, and international conferences. Student can apply for one award of up to $500 per budget year (July 1-June 30) for domestic travel or international travel. After completing at least one academic year, student may apply for a travel grant and are allowed a total of three travel grants for their entire tenure at Vanderbilt. Download the application here. (This form also is available in the Appendix.)
GOOD PRACTICES
IN THE GRADUATE FACULTY/STUDENT RELATIONSHIP
(Adapted from Doctoral Handbook, Stanford University School of Education)

High-quality graduate education depends upon the professional and ethical conduct of the participants. Although the University is composed of many distinct disciplinary "cultures," its faculty and students together form a community of scholars. As such, they have complementary responsibilities for upholding academic standards and sustaining a creative and collegial environment.

Focused on the professional academic relationship between faculty and graduate students, the following guidelines are based on the collective experience and wisdom of a number of major research universities. Their purpose is to encourage a heightened awareness of - and conscious commitment to - practices that the great majority of faculty and students here and elsewhere routinely follow as a matter of common sense, courtesy, and basic honesty. Although a few of these guidelines have more direct relevance to some fields than to others, most are applicable across the entire disciplinary spectrum.

Faculty advisors should:

- Serve as intellectual and professional mentors to their graduate students, by:
  - helping students develop interpretive, writing, oral, quantitative, qualitative or other relevant professional skills required by the discipline;
  - helping more advanced students design research programs that take advantage of their individual interests and strengths and that can be completed in a timely manner;
  - encouraging, by example and precept, a dedication to high-quality teaching;
  - encouraging faculty-graduate student collaborations which entail the sharing of authorship or rights to intellectual property developed in research or other creative or artistic activity.
  - encouraging students to be open about any problems in their working relationships (including the relationship with the advisor), and being open to making accommodations to deal with such problems.
  - providing students with evaluation of their progress and performance in regular and informative ways. Although the frequency may vary according to circumstances and academic cultures, a suggested minimum is two meetings each term. It is especially important for faculty to provide students with timely and candid advice when their performance is deficient or their lack of progress might prevent them from attaining the desired degree.

- Be knowledgeable concerning the academic and non-academic policies that pertain to graduate students, including:
  - helping students understand the requirements and timetable that each must meet, including coursework, languages, research tools, specific research responsibilities, examinations, and thesis or dissertation;
• Discussing research project or departmental authorship policy with graduate students in advance of entering into collaborative projects;

• Drawing student's attention to University policies on Intellectual Property, Scientific Misconduct, the Honor Code, and requiring that they be followed.

• Prepare students to be competitive for employment, by:
  o Promoting free inquiry and the free exchange of information, subject to the University's policies regarding secrecy and confidentiality of research;
  o Acknowledging student contributions to research presented at conferences, in professional publications, or in applications for copyrights and patents;
  o Encouraging graduate students to participate in professional meetings, perform or display their work in public settings, and publish the results of their research;
  o Providing a realistic view of the field and the current job market and making use of professional contacts for the benefit of their students.

• Maintain a high level of professionalism, including:
  o Excusing themselves from participating in committee decisions regarding any student with whom they have a relationship that could result in a conflict of interest;
  o Never impeding a graduate student's progress toward the degree or toward employment in order to benefit from the student's proficiency as a teaching or research assistant;
  o Interacting with students, staff, and faculty colleagues in a professional and civil manner, and in accordance with University policies.

For their part, graduate students should:

• Understand faculty advisors' central role, as well as their constraints. This includes:
  o Recognizing that the faculty advisor provides the intellectual and instructional environment in which the student conducts research, and, through access to teaching and research funds, may also provide the student with financial support;
  o Recognizing that the faculty advisor is responsible for monitoring the accuracy, validity, and integrity of the student's research, and for ensuring that the contributions of all participants in the research are properly acknowledged in any publications. For these reasons and because the quality of that research reflects on the student, the faculty advisor, and the University, students should always consult with their advisors before attempting to publish the results of work carried out under the advisor's direction and/or in the advisor's research project;
  o Being aware of time constraints and other demands imposed on faculty members and program staff;
  o Taking the initiative to arrange meetings with the faculty advisor as often as necessary and to keep the advisor informed of any factors that might affect the progress of their research or time to degree. Although the frequency of meetings
may vary according to individual circumstances and the norms of diverse academic cultures, a suggested minimum is twice each term.

- recognizing the importance of seeking an early and informal resolution of any problems in their working relationships with their advisor or others by first consulting with the advisor.
- take primary responsibility for informing themselves of the regulations, policies, and practices governing their financial aid, degree and course requirements, research activities, and conflict resolution. This may involve:
  - consulting departmental notes or guidelines for graduate students, the Graduate Student Handbook, and Vanderbilt’s Graduate School Bulletin;
  - seeking clarification from the faculty advisor when they are uncertain about the precise meaning or application of a regulation or policy statement.

- Exercise high professional standards in all aspects of their work. This includes:
  - observing the University's policy on scientific misconduct [http://peabody.vanderbilt.edu/Faculty_and_Research/Peabody_Research_Office/Research_Compliance.xml](http://peabody.vanderbilt.edu/Faculty_and_Research/Peabody_Research_Office/Research_Compliance.xml). This policy applies to researchers in all disciplines and to students as well as faculty and staff;
  - maintaining absolute integrity in taking examinations and in collecting, analyzing, and presenting research data;
  - taking special care to preserve the data collected during experiments, surveys, or field work (with precise identification of sources) in order to avoid future confusion or disputes about access or ownership.
  - acknowledging the contributions of the faculty advisor and other members of the research team to the student's work in all publications and conference presentations. It is also appropriate to acknowledge the sources of financial support.
  - maintaining the confidentiality of the faculty advisor's professional activities and research prior to presentation or publication, in accordance with existing practices and policies of the discipline.
  - informing faculty of conflicts and working towards a clear resolution.
  - interacting with faculty, staff and other students in a mature, professional, and civil manner in accordance with University policies.

**The department should:**

- Introduce new graduate students to the policies, practices, and resources of the department by means of an orientation session;

- Provide students with written documentation of departmental policies;

- Designate one or more members of the faculty as resources for graduate students and faculty to call on to help resolve conflicts. This role may be filled by the department chair, the Director of Graduate Studies, or a specially designated departmental ombudsperson. Problems are usually resolved most quickly and effectively at the
department level, but in exceptional circumstances a student may wish to consult Peabody’s Associate Dean of Graduate Studies.
STUDENT SERVICES

The Graduate Student Council publishes a Survival Guide. You can access it online at: http://studentorgs.vanderbilt.edu/gsc/guide/SurvivalGuide.pdf This guide is a comprehensive document providing information about arranging for electricity/gas/water, local and university newspapers and publications, sports events and ticket information, police, dissertation writing and resources, entertainment, child care, etc. Written by students, it provides a unique first-hand look at everything Graduate students need to know.

LIBRARIES
The Jean and Alexander Heard Library of Vanderbilt University has nine locations on campus and two off-site service locations. Vanderbilt utilizes an on-line, electronic catalog called Acorn that can be accessed at any library location. Resources of the Vanderbilt library system are extensive and accessing information of any kind is generally very easy. The library offers various information and library orientation sessions throughout the year and encourages all students to attend. The Education Library is located on the Peabody campus. Specific information about hours, resources, etc., can be found at: http://www.library.vanderbilt.edu/peabody/about/index.html

PARKING AND TRAFFIC
Parking at Vanderbilt is limited; however, the Peabody campus generally has ample parking facilities, particularly on the weekends.

Students who wish to park on campus must acquire a paid VU parking registration: http://www.vanderbilt.edu/traffic_parking/ Students will be informed about this process in their Vanderbilt email. If professional or graduate students are unable to pay their annual parking fee in full by August 15, they may choose to pay it over time in their student accounts—a 1.5% late fee will be added each month, but students can pay over three months (Aug. 15, Sept. 15, Oct. 15) if needed. Note that an outstanding balance on student accounts after Oct 15 may result in a “hold” on the account that would prevent registering for Spring coursework.

Up to date information about Parking regulations and campus parking maps are available at: http://www.vanderbilt.edu/traffic_parking/

VANDERBILT POLICE AND SECURITY
The Vanderbilt University Police Department is a professional law enforcement agency dedicated to the protection and security of Vanderbilt University and its diverse community. We strongly recommend that you enter their direct phone number in your cell phone to use in case of emergency. There also are Emergency Phones located on the Peabody Campus; the closest to
LPO is on Magnolia Circle just outside Payne Hall (look for the blue lights). These phones will connect you directly to the VU Policy Department. Students are encouraged to explore the Police Department website to familiarize themselves with the services available. Also, be sure to sign up for AlertVU (http://police.vanderbilt.edu/alertvu). This service rapidly sends messages to cell phone (voice or text), land line, or email account in the event of an emergency that poses an imminent threat or danger to the Vanderbilt community.

PHYSICAL AND MENTAL WELLNESS

Peabody College recognizes the importance of wellness and wants to support your self-care practice while you are pursuing your academic and career goals. You will be receiving email notification of programs to support physical and emotional wellness; in addition, the following resources are available to you:

Recreation and Wellness Center http://www.vanderbilt.edu/recreationandwellnesscenter/
Student Health Center https://medschool.vanderbilt.edu/student-health/
Psychological and Counseling Center https://medschool.vanderbilt.edu/pcc/

Also see “Foster Your Personal Wellbeing” on GradLeaf https://my.vanderbilt.edu/gradleaf/vu-leaf-model-for-ph-d-student-professional-development/

If you are concerned about the health & wellness of yourself or one of your fellow students, please consult with your Departmental Administrative Officer, Program Director/Director of Graduate, or Graduate Administrator and see immediate crisis resources at: https://medschool.vanderbilt.edu/pcc/immediate-crisis-0

FORMS
All forms are available at the end of this Handbook. You also can obtain any forms you need by email from the Education Coordinator. Graduate School forms also are available at: http://www.vanderbilt.edu/gradschool/form_locator/
