Dear Humphrey Supporters and Friends,

You have played an integral role in enriching the lives of our Fellows and contributing to their development: both professionally and personally. While in Nashville, the Fellows have been greeted with open arms by those in our community who have contributed to their growth and development. They have become a family.

This semester, the Fellows have had the option to travel outside of Nashville to continue their professional development. They have travelled to New York, Washington D.C., and many more to learn about topics ranging from time management to global development and social justice. Many have also had the opportunity to work locally to gain hands-on knowledge. Stay tuned as we take an in-depth look at their experiences and adventures this semester!

Ekaterina, Russia

Ekaterina has been hard at work combining her vast knowledge on Technical English Proficiency (TVET) with a new project in collaboration with the Tennessee Board of Regents. She is working on the FutureSkills initiative with local companies and is excited about the opportunity to explore international practice in advanced manufacturing in Tennessee. Her goal is to compare the results of the FutureSkills initiative with local practices and will be able to compare the results with other regions that have implemented similar initiatives.

Tsokalanu, Malawi

Tsokalanu, our February leader of the month, has been very fortunate in having the guidance of Dr. Carolyn Heinrich. He has worked on this semester’s Humphrey Advisor - Dr. Carolyn Henirich Fellowship Program at Vanderbilt! He has had the opportunity to work on this semester’s Humphrey Advisor - Dr. Carolyn Henirich Fellowship Program at Vanderbilt! He has been an eye-opening and educational experience for him, and he is eager to apply all that he has learned to his work back in Malawi.

Rolando, El Salvador

Rolando, who is pursuing his Master of Science in Education, has been working on his project in collaboration with the Governor’s Academy for Excellence in Education. He has had the opportunity to provide tutoring, mentoring, and assistance to English as a second language (ESL) students by working in the secondary level. He has learned that the key to student achievement, particularly on the Academic English Proficiency (EAP) exams, is the key to student success. He has also been working on his Professional Affiliations, and he is determined to continue his work in the field of education.

Aziz from Morocco has been working on his degree in Administrative Management. He has been an eye-opening and educational experience for him, and he is eager to apply all that he has learned to his work back in Morocco once he returns. He has been working on a project in collaboration with the Department of Education: a Commissioner of Tennessee’s Department of Education. He has had the opportunity to work on a variety of projects, including software evaluation skills, pedagogical skills, and math skills.

One of the best moments so far has been working on the Department of Education: a Commissioner of Tennessee’s Department of Education. He has had the opportunity to work on a variety of projects, including software evaluation skills, pedagogical skills, and math skills. He has had the opportunity to work with a great team of faculty, from the Dean of Administration and Pedagogy to the great lady full of creativity, Dr. Carolyn Heinrich.
