Vanderbilt Research
Institute for Clinical and Translational Research

VICTR is continually developing new resources and services targeted to those interested and involved in clinical and translational research. Below is a sampling of what is currently available. Log onto StarBRITE at https://starbrite.vanderbilt.edu to see the full complement of resources.

Pilot Funding and Resource Requests
https://starbrite.vanderbilt.edu/funding/
Fundable studies are clinical and translational hypothesis driven projects that involve human tissue, human information, and have application to human health. Studios are available for research that is purely basic.

Studies
https://starbrite.vanderbilt.edu/research/studios.html
An interdisciplinary panel of experts to provide feedback around a particular phase of research.

Data Management (REDCap)
https://starbrite.vanderbilt.edu/managedata/
A secure, web-based application designed to support traditional case report form data capture for research studies.

ROCKET
https://starbrite.vanderbilt.edu/research/rocket.html
A web-based tool for sharing information and documents, allowing members of a workspace to collaborate more effectively and efficiently by building and sharing web pages.

Subject Locator
https://starbrite.vanderbilt.edu/recruitment/subjectlocator.html
Based on a list of upcoming appointments in a predetermined set of clinics, Subject Locator searches patients’ StarPanel records for commonly used, discrete inclusion/exclusion criteria to significantly narrow the number of patients requiring screening.

Participant Recruitment
https://starbrite.vanderbilt.edu/recruitment/
Recruitment resources include ResearchMatch.org, Research Notifications Distribution List, Subject Locator and Vanderbilt Clinical Trials Registry.

Synthetic Derivative (including Record Counter) / BioVU
https://starbrite.vanderbilt.edu/biovu/
Vanderbilt’s de-identified Electronic Medical Record (EMR) and Vanderbilt’s DNA biorepository.

Publication Compliance Dashboard
https://starbrite.vanderbilt.edu/pubaccess/
Monitor compliance with the NIH Public Access Policy.

Tools for Grant writing
https://starbrite.vanderbilt.edu/research/grantwriting.html
Tools for Manuscript writing
https://starbrite.vanderbilt.edu/research/manuscriptwriting.html
Includes resources related to the NIH public access policy, as well as resources for assistance with writing/editing.
