Dear Humphrey Supporters and Friends,

Thank you for your continued support, whether it is through the US government, campus, Vol State Community College; a closing retreat at Evins Mill; a cross-campus seminar on campus. This allowed them to get to know faculty and students as well as broaden their understanding of higher education policy in the United States. They were able to wrap up the year with a whirlwind of in-person events: a visit to our associate campus, weekly multi-campus seminars with a subset of Humphrey campuses, and an ongoing evaluation when the virtual setting of this year has allowed the Fellows to connect with more campuses and understand the culture in the U.S. She loves volunteering in Nashville and around the city. We have had rave reviews about Hattie B's hot chicken, the shopping scene, and the live music. It was great to see the Fellows jump in and make Nashville home.

Over the course of the spring Fellowship, the Fellows attended classes and the Humphrey Seminars. They learned and quickly shared their knowledge with each other and their colleagues in their home campuses, their current employer and beyond. Their partnership with these organizations has been beneficial to all – with extensive learning, fun and networking activities. We were most shocked to see how much they have grown, how much they have learned in Brian Kissel's Seminar, how much community they have helped with. We are excited to bring home his leadership skills. He loves to walk and explore Nashville and the streets of Nashville and around the world. He is excited to bring home all the lessons he has learned so much about the community. He has learned how busy workers in the service industry are and how every plan and how every optimism of Americans is packed their schedules. He was surprised to see how much community they have helped with. We are excited to bring home all the lessons he has learned so much about the community. He has learned how busy workers in the service industry are and how every plan and how every optimism of Americans is packed their schedules. He was surprised to see how much community they have helped with.

Hamiss Bizimana (Rwanda) will be completing his Professional Affiliation with Peace Dragon. Through his experiences in the Peace Corps, he has learned how important it is to work as a team and to have a clear understanding of the expectations of the organization. He has also learned how to work effectively with people from different cultures and backgrounds.

Iman Darwish (Philippines) will complete her Professional Affiliation at Vanderbilt University. She will be working at the Turner Family Center for Social Ventures at Vanderbilt University. She will be engaged in research and development of new ventures to address social problems. She will also be involved in the planning and execution of events to promote social entrepreneurship.

Boaz Tsabar (Israel) will complete his Professional Affiliation at Vanderbilt University. He will be working at the Vanderbilt Institute for Global Health. He will be involved in the development and implementation of global health initiatives.

Maria Sulaiman (Morocco) will complete her Professional Affiliation at Vanderbilt University. She will be working at the Vanderbilt Institute for Global Health. She will be involved in the development and implementation of global health initiatives.

James Katumba (Uganda) will complete his Professional Affiliation at Vanderbilt University. He will be working at the Vanderbilt Institute for Global Health. He will be involved in the development and implementation of global health initiatives.

Karen Legrand (Guyana) will complete her Professional Affiliation at Vanderbilt University. She will be working at the Vanderbilt Institute for Global Health. She will be involved in the development and implementation of global health initiatives.

Nancy, Sarah, and Gwen The Humphrey Team

Thank you for your continued support.
