COURSE DESCRIPTION
Survey of appraisal, assessment, and standardized instruments used by counselors in the areas of education, psychology, and mental health.

Summary: This course surveys the history and application of educational and psychological measurement with emphasis on applications in counseling. The objective is to help you to become "informed consumers" of standardized measurement instruments used in school, mental health, and marriage and family settings. An "informed consumer" must know how to select, administer, interpret, and provide feedback on the results of psychological tests. Therefore, this course will initially emphasize the "science" of appraisal, focusing on the process of test selection, use, and scoring. Based on this foundation, the course will introduce the "art" of appraisal; the communication of results in a manner that helps clients understand themselves better and improve the quality of their lives. Finally, the course will discuss the responsibility counselors have to use assessments ethically and to understand the unique strengths and limitations of the counseling profession.

Required Textbook

Recommended Texts
KNOWLEDGE AND SKILL OUTCOMES

(NOTE: 2016 CACREP standards are coded below and are assessed via exam I [I], exam II [II], and test review project [R])

At the conclusion of the course, the student will be able to:

1. Be familiar with the philosophical and historical perspectives concerning the nature and meaning of assessment. (2.F.7.a [I])
2. Comprehend the multiple factors which influence examinee performance and preparing for assessment meetings. (2.F.7.b [I; R])
3. Develop an understanding of, and apply, common statistical concepts in measurement such as probability, central tendency, variability, scales of measurement, and shapes and types of distributions. (2.F.7.g [I])
4. Integrate ACA ethical standards guiding assessment into a general understanding of ethical counseling practice. (2.F.7.m [I; R])
5. Critically interpret and utilize correlational procedures. (2.F.7.g [II; R])
6. Understand the basic concepts and differentiate between standardized and non-standardized testing, norm-referenced and criterion-referenced, and individual vs group assessment. (2.F.7.f [I])
7. Demonstrate ethical competence in strategies for selection, administration and statistical interpretation of techniques for assessing diverse student academic, career, and personal/social development. (2.F.7.m [I; R])
8. Develop an understanding of the importance of measures and use of reliability, particularly test-retest (temporal) and alternate- (equivalent-) form stability, internal consistency and standard error of measurement, and the factors influencing a test score's reliability. (2.F.7.h [II; R])
9. Comprehend the importance of validity, including content, construct and empirical validity, in measurement, its association with reliability, and apply it to interpretation. (2.F.7.h [II; R])
10. Understand how tests, singly and as a battery, can be used to facilitate improved educational and clinical decision-making, case conceptualization and diagnosis of mental/emotional status. (2.F.7.1 [II; R])
11. Critique, observe, participate in, and enact demonstrations of a wide variety of standardized instruments used with P-12 and adult populations including intelligence, developmental, aptitude, achievement, perceptual/neuropsychology, personality, and behavioral tests, environmental assessment, performance assessment, behavioral observations, symptom checklists, aggression, self-harm, suicide assessment, and computer-managed and assisted assessment applications. (2.F.7.c,i-k; 5.G.3.e,n [II; R])
12. Demonstrate proficiency in evaluating the utility of tests for counseling purposes from a consumer's perspective [R].
13. Understand procedures for identifying trauma and abuse (2.F.7.d [II; R])
14. Understand how assessments are used for diagnosis and treatment planning (2.F.7.e [II; R])
15. Identify characteristics, risk factors, and warning signs of students at risk for mental health and behavioral disorders, including self-harm, suicide, and aggression (2.F.7.c; 5.G.3.e,n [II; R]).

COURSE EXPECTATIONS AND GUIDELINES

Attendance Policy
On-time attendance at every class meeting is expected. Five points will be taken off the final course grade for each additional absence after the first absence. Tardiness of 15 minutes or more will be considered an absence. Leaving early before class is dismissed will also be considered an absence. Notify the instructor prior to class if you have an emergency that requires accommodation.

Sexual Misconduct and Intimate Partner Violence
All faculty must report allegations of sexual misconduct and intimate partner violence to the Title IX Coordinator. In addition, all faculty are obligated to report any allegations of discrimination to Equal Opportunity, Affirmative Action and Disability Services (EAD).
Use of Electronic Devices
As school counselors in training, it is essential that you develop the disposition of being fully present in the moment and able to avoid distractions to the counseling and learning process. Please be respectful of your instructor and fellow classmates by silencing your phone and putting it away. Engaging in activities not related to the course during sessions (e.g., gaming, email, chat, text, etc.) will result in a significant reduction in your grade at the discretion of the instructor. Notify the instructor prior to class if you have an emergency that requires accommodation.

Disability Statement
Vanderbilt University is committed to providing reasonable accommodations for all persons with disabilities that may affect your ability to complete course assignments or otherwise satisfy course requirements. If you require accommodations, please contact the Office of Equal Opportunity, Affirmative Action, and Disability Services at Baker Building, Suite 108 (615)322–4705 (V/TDD) to discuss and determine any accommodations. If you have a disability for which you may request accommodation in Vanderbilt University classes and have not contacted them, please do so immediately. You are also encouraged to apprise your instructor(s) privately regarding this matter, ideally no later than the second week of the semester, to ensure that your needs are met appropriately and in a timely manner.

Diversity Statement
It is intended that students from diverse backgrounds and perspectives will be well-served by this course, that students’ learning needs be addressed both in and out of class, and that the diversity that students bring to this class be viewed as a resource, strength, and benefit. Materials and activities are intended to be respectful of diversity including affective orientation, gender identity, disability, age, socioeconomic status, ethnicity, race, religion, culture, and other areas of human difference. We are all constantly striving to improve ourselves in this area, so your suggestions for improvement are encouraged and appreciated.

Trigger Warning Note
At times this semester, we may discuss topics that may be disturbing and even traumatizing to some students. If you ever feel the need to “step outside” during one of these discussions, either for a short time or for the rest of the class session, you may always do so without academic penalty. You will, however, be responsible for any material you miss. If you ever wish to discuss your personal reactions to this material, either with the class or instructor, the instructor would welcome such a conversation as an appropriate part of your professional development. Learning to manage personal reactions to potentially disturbing material that our clients discuss is an important part of preparing to be a counselor.

COURSE REQUIREMENTS
Each student is expected to: (1) complete all reading assignments before class, (2) actively participate in discussions and exercises, (3) regularly check Vanderbilt email, and (4) access documents and materials as assigned through the online system (BrightSpace).
Non-Graded Course Components (Debit Components)

Class Participation/Facilitation (Required)
Regular participation in class discussions and in-class exercises is expected and required. The goal of class participation is to think critically (and challenge others to think critically) about the readings and not just demonstrate that you read or understand the readings.

Assignment Policies (Required)
Admission to the profession of counseling means acceptance of and submission to the principles of scholarship and writing proficiency required of a master’s degree. APA6 is a recommended resource for this course and students are expected to be thoroughly familiar with the application of this publishing format. Failure to adhere to APA6 will result in a failure for a specific course component. As professionals-in-training, all counseling master’s degree candidates take very seriously their responsibility to write effectively and professionally. All assignments are due by start time of class on the due date, and must be submitted electronically to the professor’s Vanderbilt e-mail address. Late assignments will not receive full credit, as determined at the discretion of the instructor. If you have special circumstances that prevent you from completing the assignment on time, please speak to the instructor before the due date for the assignment.

Graded Course Components
1. Examination 1 (33%) and Examination 2 (33%)
Each student will complete two examinations consisting of multiple-choice questions and an extended response item(s). Information from all assigned readings and classes may be included on the exam. Each exam accounts for 33.3% of the final grade.
2. Test Review (33%)
Each student will choose a test and conduct a review of the literature and critical analysis to determine the test’s psychometric properties, strengths and weaknesses. The strengths and weaknesses sections must be a minimum of three combined pages of text. A sample review is provided. The purpose of this project is to focus and integrate the concepts covered in class. This activity is worth 33.3% of the final grade. The grade for this project will reflect the comprehensiveness of the review, application, and integration of information and clarity of professional writing style. One-half of this grade will reflect quality and presentation of content. The remaining one-half reflects adherence to APA style and writing skill. Citations and references must adhere to APA style. An outline of essential information is included below. The review also serves as a key assessment for CACREP evaluation purposes and the scoring rubric is provided below. The final review is due at the beginning of Class #14. An electronic copy of completed papers in MSWord MUST be e-mailed to me no later than the beginning of the class it is due.

Participation: Required
Exam 1: 33.3%
Test Review: 33.3%
Exam 2: 33.3%

Final grades will be assigned based on the percentage of points earned:
- A 94-100
- A- 90-93
- B+ 87-89
- B 80-86
- C+ 77-79
- C 70-76
- F <70

Honor Code
Peabody College at Vanderbilt University places a high priority on and strives to uphold the highest standards of academic integrity while protecting the rights of students and faculty. Should the instructor find evidence of cheating, plagiarism, other inappropriate assistance in work presented by a student, or any other violation of the honor code, the student will receive no points on the assignment/exam, and will be referred to the Honor Council for further disciplinary action. Honor code violations include:

1. **Falsifying or cheating** on a report, paper, exercise, problem, test or examination, tape, film, or computer program submitted by a student to meet course requirements. Cheating includes the use of unauthorized aids (e.g., crib sheets, discarded computer programs, the aid of another person on a take-home exam); copying from another student's work; soliciting, giving, and/or receiving unauthorized aid orally or in writing; or similar action contrary to the principles of academic honesty.

2. **Plagiarism** on an assigned paper, theme, report, or other material submitted to meet course requirements. Plagiarism is defined as incorporating into one's own work the work of another without properly indicating that source. A description of plagiarism related to papers is given below.

3. **Failure to report** a known or suspected violation of the Code in the manner prescribed.

4. **Any action designed to deceive** a member of the faculty, a staff member, or a fellow student regarding principles contained in the Honor Code, such as securing an answer to a problem for one course from a faculty member in another course when such assistance has not been authorized.

5. **Submission of work prepared for another course** without specific prior authorization of the instructors in both courses.

6. **Use of texts or papers prepared by commercial or noncommercial agents** and submitted as a student's own work.

7. **Falsification of results** of a study or research.
## Test Review Project Evaluation Rubric

**Rating Scale**
- **4=Mastery:** Strong mastery of skills and thorough understanding of concepts significantly beyond developmental level
- **3=Proficient:** Understanding of concepts/skills evident
- **2=Emergent:** Minor conceptual and skill errors; in process of developing
- **1=Non-existent:** Significant remediation needed; deficits in knowledge/skills
- **NA=Not Applicable:** Unable to measure with given data (do not use to indicate deficit)

The Honor Code Applied to Preparation of Papers

- Papers are to express the original thoughts of the student. If a topic for a paper has been discussed fully among students prior to an assignment, then the students should consult the instructor about writing on that particular topic.
- Failure to indicate the source of ideas, expressions, phrases, or sentences constitutes plagiarism.
- A student may not submit papers substantially the same in content for credit in more than one course, without specific and prior permission of all instructors concerned.
